Another debate has occurred in the British Parliament on the Zulus war. In the House of Commons Sir Charles Dilke the House of Commons Sir Charles Dilke moved a vote of censure similar to that so recently debated in the House of Lords. It was supported and opposed by vigorous speeches on both sides. Several leading Conservatives jouned in the condemnation pronounced upon Sir Bartle Frere and his policy, whilst he formed a decrease at the hands of Liberals. The general impression appears to be that the Government has been remiss in its arrangements, and has been remiss in its arrangements, and that by proper ciplomacy the war might have been avoided. But now the war has have been avoided. But now the war has begun there is a wigh to extend to the to a successful close; and lest it should be hampered in this by the adoption of the vote of censure a majority voted for its revote of censure a majority voted for its revote of each successful close; and lest it should be hampered in this by the adoption of the parish of St. Andrews, hereby give notice there of and request all persons liable to be rated to bring in to the Assessors within thirty days

anxious to open up trade with foreign countries, and with this end in view nego tations are being begun with the representatives of foreign powers. It is how announced that the Brazilian Consulat Ottawa has entered into arrangements with the Government to subsidize a line of stemmars to ply between Halifax and Anxious to open up trade with foreign with the Government to subsidize a line of steamars to ply between Halifax and Brazil, by which it is hoped to develop direct trade in sugar and coffee with that country. The Brazilian Government, it is also said, has signified its intention of granting a subsidy to the line similar to that given by the Canadian Government.
This is audoubtedly an important commercial move, from which may flow great results.

A wealthy Scotchman cut off his relations without a penny and give a fortune of \$100,000 to his lawyer. Thomas Thow of Dundee. The latter considering the will an injustice to the natural heirs, gave up one half to them.

A silver medal has been awarded to Miss Maix P. McNamara, of Clinton, by the Humane Speicty of Alassachusetts, by reason of her layery last August in preguing a daughter of Mr. Leyi Burk from drowling in the Laucaster Mills pond. Miss McNamara had previously rescued two other gills from a watery grave. She is but fitteen years of age.

The latest reports by cable of the condition of affairs in Zululand are sufficiently grave to excite alarm. It is painfully evident that the trouble is not at an end. There is no trustwarthy intelligence from Col. Pearson, and anxiety concerning his safety is becoming intense. Several runners, induced by large rewards, started for Ekowe with despatahes, but returned re-porting the roads destroyed, every approach commanded by military krauls (forts), and the country swarming with Zulus. With the utmost care Col. Pearson's supplies, the utmost care Col. Pearson's supplies, it is believed, would be exhausted by the end of March. The expedition in course of organization on the lower Tugela for his relief amounts to foutteen companies of regiglars. It will be pushed forward as rapidly as possible; but in the meanwhile another arrays belining disaster may occur. The safety of Colonel Prarson and his men at Ekowe becomes the pivot on which the future of the campaign hinger.

W E would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Throstle Frames, which make a stronger yarn than the Ring Prames, used in making American arn.

It is also better twisted and more carefullly reeled: each hank being tied up in Lleas of 120 wards each. This makes it much more easy to wind than when it is put up without loss—is the American is—and also saves m great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.
