WANT HIM FIRED

London News After the Forest City's Chief of Police.

It Prefers Serious Charges Against Him-He Is Acoused of

The London News has been after Chief of Police Williams, of that city, some time, and on Wednesday pre ferred the following charges against him, and demanded his dismissal by the board of police commissioners:

On behalf of the citizens of London, and in the name of justice and fair play, we demand the immediate disal of Chief Constable Williams. We charge that Chief Williams, by his conduct both as a man and an of-

ficer throughout the past years, has

prisoners.

We charge him with knowing of the existence of a house of iil-fame directly opposite a public school and taking no steps to suppress it.

We charge him with suppressing charges against favorite officers, as in the case of Mrs. Hammill against P. C. Monaghan, already exposed in these columns.

We charge him with spending 3 hours in Dewar's saloon one day not long ago, while an officer was taken

"Just teil the farmers," said Pork Dealer Chaplin," that if they want to get right prices for their hogs they will have to feed them differently.

"What is the trouble?"
"Beans. They mix beans with the corn. Corn is bad enough but beans make the pork worse, soft and greasy, the kind people don't want. Why, the packers in Ingersoli and Hamilton told me they wouldn't ouy a corn-fed

horse.

We charge him with the grossest of bullying in the matter of Sergeant Jenkins. To such an extent was this carried that the city lost the services, temporarily at least, of one of the best officers in Canada.

Britain and their neighbors in the Transvaai. The Orange Free State, he added, was bound by treaty to afford the Transvaal assistance. The Raad then went into secret session.

Sir Alfred Milner telegraphed President Steyn that in the event of war he looked to the Orange Free State to remain neutral. Steyn replied that he could not answer for the burghers if the massing of troops on the frontier continued. The responsibility for any outbreak would rest on Great Britain. This unfriendly reply has caused some constrenation in political circles and the cabinet may at once summon parliament. go, Sept. 22.—Per L. J. Atwa

Other dates will be added as received-from secretaries.

This is the growing time so the great Penissular Fair to keep up with the procession will grow also. It will grow both larger and better. All the space in the main building has been taken and it is expected that the fair will be the most successful in the history of the county. All Old Probs has to do is to give the weather and the fair will be the best in the history of the agricultural society of West Kent. The fair will open Tueeday evening at 7 o'clock. Gavernor Pingree, of Michigan, is billed for the occasion and the other speakers will be Hon. Sidney Fisher, Minister of Agriculture, Arch. Camptell, M.P., T. L. Pardo, M.P.P., and Wm. McGregor, M. P. The speeches will be delivered at 7 o'clock and the performance given by Cook's great hiprodrome and equine paradox performers will commence at eight sharp.

KILLED IN A RUNAWAY.

Last evening the nine-year-old son of Wm. Black, who lives near the fair grounds, was delivering tomatoes, and while the team was standing in front of Mr. Merriam's, on Centre street, the horses became frightened at a shunting engine while young Black was in the house, and ran away. They took down the C. P. R. track, scattering tomato boxes as they went. Near Hugh Macaulay's residence, on Raleigh street, the horses met the evensing freight coming in. The right horse was killed, but the other escaped uninjured. The wagon also escaped with slight damage. The dead horse was removed this morning.
