"any delay would be injurious." Further telegrams submitted in evidence show that Dr. Jameson urgently instructed to start the raid at midnight Saturday, December 28, and was enjoined to "keep the telegraph silent, as it was suspected that the Transvaal was getting wind of the affair. Other telegrams produced in court show that the British Chartered South African company was the actual authority for the raid. They refer to getting arms and ammunition from the Boers' mines, where they had been previously secretely stored. At the last moment, how ever, a hitch seems to have occurred, and despatches were sent to Dr. Jameson telling him to "postpone the flotation" owing to the difficulty experienced in getting Cecil Rhodes to absolutely pledge that the authority of the imperial government need not be insisted upon in order to cross the border. Hammond, evidently was among those who were opposed to any breach of the law, for a telegram from him was produced, dated December 27, in which he condemned any further developments of the contemplated movement.

A despatch exchanged between the various people interested in the raid shows that it looks very much as f Dr. Jameson cut the telegraph wires so as not to receive any further messages throwing dampers on the scheme, and President Kruger had really "got wind" of the affair and succeeded in intercepting the messages, and "Dr. Jim" wilfully disregarding the instructions sent him to postpone the raid crossed the border on his own responsibility. Previous to crossing the border the raid-

ers had been drilled with the Lee-Metford rifles, the weapon adopted by the chartered company, and the preparations had been made to support the raiders with other forces from Cape Colony. But, the hasty action of Dr. Jameson upset the plans. Additional testimony showed that December 28, the Uitlanders of Johannesburg were arming and making preparations to receive Dr. Jameson, all steps being taken under the direction of the reform committee,

Col. Rhodes, at the Gold Fields com pany's office, on December 28, told a representative of the Boers who called upon him for an explanation as to what was going on, that they, the Uitlanders, had brought the country into a flourishing condition by loans of their capital and enterprise and that it was "hard to be governed by a lot of stupid Boers." The colonel is lso said to have admitted that the reform committee had asked Dr. Jameson to come to Johannesburg to protect them.

(Special to The Sun.) Bridgetown, N. S., April 30.-Today vas nomination day and about 500 deto the interests of his employer. In one case, for instance, it is shown that the county. John B. Mills was the unanimous choice of the party, and after the nominating committee did its work and reported to the meeting, Mr. Mills made a ringing speech, ac cepting the nomination and presaging the defeat of the grits at the coming

election. Whether the grits are goin to stick to their present candidate, Mr. Longley or revert to their old war horse, Col. Shippy Spurr, or bring out a new man, is quite uncertain. Speculation is rife in the opposition party as to whether Longley will screw his courage up to the sticking point. Whoever be the candidate, he is a doomed man. Mr. Mills referred to the obstruction tactics of the opposition, and showed conclusively the incapacity of the grit crowd to govern the country. Mr. Ritchie, Q. C., of Annapolis, made a good speech and the mention of the name of Sir Charles Tupper was received with tremendous applause. The temperance people have demanded a man pledged to prohibi-tion, and Longley is shuffing out of the matter. Mills subscribed to the platform sometime ago and today Mr. Ritchie referred in scathing terms to the attitude of the man who declared that Mr. Flint's motion was all bosh and no use whatever. He contrasted the conduct of Mr. Longley with that of Mr. Mills, who had on every occasion during his eight years in the
