G. P.'S ESCAPE FROM THE PARK.

As long as the gaol bird gang employed at Rockwood Park was limited to the unlucky number of thirteen, things moved along smoothly and the committee in charge of their efforts and the guards seemed delighted with the work performed.

But this week the gaol contained more people and an additional supply of the G. P. uniform having been received the gang was increased to 16 men. But early yesterday afternoon the men at work had been reduced to the old and unlucky number by the defection of Frank King, Joseph O'Brien and John Carr.

King ran away about 11.45 in the morning and at 1.30 p. m. the other two skipped out. The gaol, Buckle and Collins were unable to chase after the runaways as that would have left the other 13 men unguarded.

The men when at the park are not shackled in any way so that it was an easy matter for these three to get away. The G. P. overalls worn go on over the trousers worn by the prisoners so that the runaways need have no fear of detection on account of the gaol girth. They were probably discarded as soon as the men felt that they were sufficiently far away from the park.

The other 13 men came back to the gaol last evening in the usual way. They worked as usual after the big loss in the ranks.

Frank King, the first one to get away, belongs to Fort Howe, and bears a bad name. Joseph O'Brien, best known as "Joke O'Brien," has figured in the police court on many occasions. Carr has attained considerable notoriety according to the police as a thief. These men and any others who may follow their example will, it is said, be captured, be liable to a two year's term in Dorchester penitentiary. The offence is the same as escaping gaol and people have got two years for that.

HIT WITH A STONE.

Guy Taylor of Indian town was hit on the head last night by a stone, causing an ugly wound. Dr. Roberts was summoned and rendered the necessary surgical aid.

On inquiry the police were unable to find out who made the assault. It appears that the party, whoever he was, wanted to get a dog which belonged to Taylor. A quarrel ensued, resulting in Taylor's injuries.

P. E. I. MURDER TRIAL.

CHARLOTTETOWN, P. E. I., July 6.—The trial of Joseph Carver for the murder of Alexander Stewart of Lot 48, on Easter Sunday, was begun today. The prisoner is cool. He had been engaged with the deceased and on the night of the murder came to Stewart's house three times, threatening his life. The last time Stewart followed him to the barn, where Carver, it is charged, turned and shot him dead. He then went to a neighbor and told of the awful deed and went to bed. The murder was the most blood thirsty in the island's criminal record.

CROSSED THE CHANNEL.

LONDON, July 6.—The president of France was given a great reception on his arrival on British soil. It was an historic event. His first day in London closed with a state banquet at 8.30 p. m. at Buckingham Palace. It was the most brilliant function the dingy old pile had witnessed for a long time.

The company included all the high officials of the kingdom. The scene about the palace was animated. Fully an hour before the appointed time the courtyard was filled with state coaches and liveried and powdered coachmen and footmen. Four of the King's carriages were sent to York House, where President Loubet will reside while in London, to convey the presidential party, who arrived at the palace shortly before 4.30. The interior of the palace was brilliantly illuminated. Tricolor incandescent lamps formed the British and French flags, and were extemporized over the grand portico.

M. Loubet was seated next to the Queen, and the King and the Prince of Wales sat opposite to them.

Proposing to the health of President Loubet, King Edward expressed the pleasure that he and Queen Alexandra felt at welcoming the French president at Buckingham Palace. His Majesty said he hoped the president would take back with him to France pleasant recollections of his visit.

The reception given by him to all classes present, there was a friendly sentiment among Britons towards France, which, being Great Britain's nearest neighbor, should naturally be her best neighbor. The king alluded to his recent visit to France and the pleasure he experienced at his friendly reception there.

President Loubet responded: "Sire, I am more than touched by the reception accorded me by your majesty. In truth it is addressed to the whole French people. In their name I beg you to accept my sincere thanks. France treasures the memory of the visit you paid her. I am certain it will have the happiest effects and serve in the highest degree to draw still closer the relations which bind the two nations to their common good and in a guarantee of peace for the whole world. It is with these sentiments that I propose the toast of His Majesty, the Queen and the whole of the royal family."

After a brief rest M. Loubet visited their majesties at Buckingham Palace, accompanied by Foreign Minister Delcasse. Later the president proceeded to the French embassy and received an address from the French community.

The only untoward incident of the day was the arrest of a foreigner near the railway station, who declared he wanted to hand a petition to M. Loubet. After an examination the man was released.

SUBURBAN TENNIS.

The summer residents and all the year round people at Brookville and Drury's Cove have organized a tennis club. An ideal spot for the game has been chosen on the picnic ground on the hill back of Mr. Wheeler's residence. The work of preparation is going on rapidly and the club will soon be in a position to issue a challenge. They say that they will perhaps begin with the Chalet players, and gradually work up to Rothsay. Meanwhile some of the cottagers at the Chalet are providing a second court west of the club house.

SYDNEY, C. N., July 6.—The Allan line steamer Hibernian will arrive at Sydney next week from Montreal to take the six hundred head of cattle saved from the steamer Norwegian to England. The cargo, consisting of flour, corn, oil, cattle, etc., is to be sold. It is probable that the Norwegian will be sold at auction.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

Sunshine Furnace

OPEN DAMPERS—BACK TO BED.

The "Sunshine" consumes so little fuel during the night that plenty remains to make an instant and strong fire when the dampers are opened in the morning. The operator may then return to his warm, cosy bed while the house is heating—heats in 15 or 20 minutes.

Self-acting gas damper works automatically so that disagreeable odors always escape through the gas-pipe—never pass through registers into the house.

The "Sunshine" is simple in construction, easy to operate, requires very little attention and will produce more heat from the same amount of fuel than any other heater.

Costs no more than common furnaces.

Burns Coal, Coke or Wood.
