Mr. Ellis an wants of newly arrived immigrants, a small amount of assistance has been giver. It is the pilety of the government to extend this assistance to all English, Irish and Scotch immigrants as well as others. The only difference in inducements offered Continental immigrants and British immigrants is that the arrangement made by lategovernment respecting continental bonuse have been continued and the continental bonuses to booking agents it, under that arrangement, larger than the bonuse to British honking agents. The tinental bonuses to booking agents is under that arrangement, larger than the bonus to British booking agents. The reason for this policy was and is that it is necessary to meet the bonuse paid to by other countries to continental booking agents. In the case of the Doukhobors no bonus was paid to booking agents, but in it uthereof, a special bonus of \$4.86 per head was egreed upon and paid to the Eiglish committee for the Doukhobors, because the committee were prepared to give us a very large number of desirable agregultural immigrants with no expense. eultural immigrants with no expense whatever to the government in so far as inducing the immigration was concerned except the bonus. The government is prepared at any time to make a similar expensement with any papers.
