POOR DOCUMENT

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, MARCH 9, 1904.

ADDRESS PASSED WITHOUT DIVISION IN LOCAL HOUSE.

Premier Tweedie, in Comprehensive Speech, Answers the Criticisms of the Leader of the Opposition - W. C. H. Grimmer Also Spoke - House Adjourned Till Wednesday Afternoon - Many Notices of Motion Given.

Fredericton, March 4.—The house met at 3 o'clock. On the order of the day being called the Hon. Mr. Tweedie said:—Before dealing with the questions raised by the leader of the opposition I desire to congratulate the mover and seconder to the lumatic asylum we are all agreed that everything that can be done for the amortumate invades. are all agreed that everything that can be done for the unfortunate inmate

be done for the unfortunate inmates should be done. I agree with the leader of this house, having sat for the first time last session, but I think the house will agree with me that these gentlemen are a valuable addition to the membership of the house and worthy representatives of their constituencies.

During the vacation there has been very little change in the personnel of the house. We have unfortunately to lament the death of the member from Madawaska, Mr. Gagnon. While not conspicuous as a debater, he was an active and energetic representative of his county and I am sure every member will agree with me in regretting

his loss.

The leader of the opposition in his usual way has dealt with the speech and has found a great deal of fault with it. I may say that the speech was not written for his approval for he is hard to please and we felt it would be hopeless to attempt to satisfy him. He says it is a disappointing speech and I say that his speech was a disappointing one not only to the people who heard but to the members of the appropriation. He want over the matters to opposition. He went over the matters to awhich we referred in the speech and treated them in a flippant manner as if they were matters of no consequence.

I am sure that he will not find any fair-

minded man to agree with him in this attitude which he assumes. Does he mean to say that the loss of a representative by this province in the house of commons is a matter of no importance or that the government is wasting time in trying to preserve the representation of this province intact? The people of New Brunswick are with the government in this matwick are with the go ment in this mat

The leader of the opposition dealt with the fishery matter in the same way. He says it is a matter of no importance and says it is a matter of no importance and is equally indifferent in regard to the readjustment of our provincial subsidies. In my opinion these are questions of the most vital importance and questions which could not be neglected by the government. But I know why the leader of the opposition treated these matters so lightly. He wished to spread himself on the St. John election and the defeat of Mr. Mc-Krown.

Government Not Afraid of an Election.

He now accuses the government of being afraid to hold another election in St. John. Task him when did this government give any evidence of being afraid? Take the record of the government since I have been premier. In that time we have had eleven by elections and have never lost one. I by elections and have never lost one. I think with such a record as that we need not be afraid of having an election in St. John. But is the record of my honorable friend one of bravery? Is he noted for his great courage? I think not, but that he has shown in the course of his political career a lack of that courage which he seems to value so highly. He says that we are leaving St. John without a representative and he quoted from Longfellow a verse which he thought appropriate to the occasion in regard to there being a vacent chair. If he had looked into this poem a little further he would have found another verse of a more comforting character. It is this:—

acter. It is this:—
"Let us be patient, these severe afflictions
Not from the ground arise,
But oftentimes celestial benedictions
Assume this dark disguise."

My honorable friend says that the bill of fare promised in the speech is meagre. One of the measures promised is a high-way act and I do not know of any more important measure than this one. Such a piece of legislation may well occupy the best attention of the house for it is a matter which touches everyone. I have felt for some time that in regard to our high-way legislation we were falling behind the age and that the time had come for us to proceed on a new basis. We propose in the new act to abolish the distinction between weet reads and hy reads. tween great roads and by-roads. A dis on for which I never could see an good reason. We also propose that the province shall be divided into district and a competent supervisor appointed for each district. We will do away with statute labor which in some counties has grown to be a farce and in its place w will provide for a money assessment. This assessment we think should not be heavy Under the new system a person who pay the ass a ment may get employment—a fair day's wages for a fair day's work on the roads and be paid in cash. This bill is now being printed and we will ask the cooperation of all the members on this side of the house to make it as perfect as pos-

Mr. Hazen—When will the bill be ready? Hon. Mr. Tweedie—On Monday.

The Factory Act

The factory act is another matter to which we will ask your attention. It is being prepared by the attorney general and will be submitted to the associations which are interested in this subject. We will endeavor to make it such a measure

county of Kent and since that time it has a client of my own, who became hard ciracoured in its own name about 70 licenses to search and four mining leases, while it has control of about thirty other licenses. It owns in fee simple about 600 acres of land, some of which is well timbered for the purpose of supplying its mine with the necessary timbers and for the erection of its buildings.

The company has expended about \$150, 000 in the development of its property in Kent. It has recently purchased a portable steam saw mill. It has opened up three tunnels to form one mine which is calculated to produce 250 tons per day. At present it can mine from 60 to 70 tons a day and expects to increase this output to 250 tons a day by the first of July. It now employs about 60 men with a pay roll of about \$2,000 a month. As the company increases its openings the output will be increased by 250 tons a day from each opening. The company figures that its local market will consume about 500 tons a day. Anything beyond this the company wil be compelled to place on outside market. Will anyone say that this is not an important industry?

important industry?

The policy of this government is to assist such growing industries and the province of New Brunswick will receive benefit in the end. By granting a bonus to railways reaching these coal mines the government will assist in the production of 200 tons of coal a day by the Beensville Company and 250 tons by the Canadian Coal Company.

This year I intend to estimate that we

shall get at least \$10,000 of revenue in the shape of royalty from these coal companies and this is the interest on \$250,000 at four

I think that that is a very satisfactory report and that the government has done wisely in assisting to develop these mines. The coal area of this province is not confined to Queens, Sunbury and Kent counties, but extends to Northumberland and

gerous and that should not be in the asy-

The New Brunswick Company have in

age on government land was proper.

This increase is an answer to the charg

them.

Sometimes people are sent to the asylum by their relatives to get rid of them, it being thought more respectable to go to the asylum than the poor house. We will try to remedy this.

I agree with my honorable friend that this institution should be in charge of a medical superintendent who has had experience in cases of insanity. He is, however, mistaken in thinking that the superintendent is burdened with the business affairs of the asylum. This has been largely placed in the hands of the steward and other officials. I think that our asylum will compare favorably with any similar institution in Canada.

It is true that there are places where insane people are cared for and where they pay as much as \$30 a week, such as the McLean Institution, but we do not put ourselves in comparison with them.

But for the money expended this asylum hope before long that the dock will be under construction. put ourselves in comparison with them. But for the money expended this asylum yields as good results as any.

Subsidies Readiustment.

My honorable friend complains that we did not say anything in the speech in regard to the increase in stumpage. We did not think it necessary because last session we announced that the stumpage With regard to the questions at iss between the dominion government and the provincial government, I can only say that the leader of the opposition is in error in stating that the premier of Quebec has abandoned the claims for a readjustment would be increased and this has been of the subsidies and that the premier of Ontario is also indifferent. If my honor-able friend should ever occupy the position There are no differences of opinion, as the honorable member seems to suppose, between us and the lumbermen. We made the change in the stumpage rate as a matter of right and because we thought the time had come for an increase. The leases give us the right to increase the stumpage. When the lumber of premier of this province, the logical result of his argument would be that he would abandon all those claims which we have against the dominion, the fishery crease the stumpage. When the lumber business was depressed some of us took the ground that the government should relieve this industry and it was done. Since then conditions have changed. The lumber industry is prosperous and why should not the province reap the benefit. subsidy.

Why should he abandon these claims

Simply because Mr. Fielding is against them? But we will not pursue this course The lumbermen are all agreed that there should be an increase in the stumpage. Lands that a few years ago would not bring \$8 a mile are now bringing \$400 and \$500. who hid his talent in the earth. As long as I have the honor to be the leader of this government I will fight for the rights of this province and I will not be deterred by the opposition of Mr. Fielding or of any other person.

creased their stumpage rates from \$1.50 Claims Against the Dominion Will Be Paid to \$2 and therefore an increase of stump I had a letter today from the premie of Quebec asking me to go to Ottawa with him as soon as I could for the purpose of pressing our claims to an additional sub-This increase is an answer to the change that this government is at the mercy of the lumbermen. We have taken a stand on this subject from which we will not recede, and while there may be some questions of detail, such as in regard to the stumpage on fir and cedar, there will be receding in the principle. sidy on the dominion government, and I am satisfied that before next session all the claims mentioned in the speech will

be settled in our favor. I have not forgotten that my honorable friend was accustomed to east ridicule on our eastern extension claims and to predict that it would never be paid. My honorable friend was wrong then, for the claim was paid, and the claims that we now have will also be paid.

stumpage on fir and cedar, there will be no change in the principle.

Some of the lumbermen are asking leases in perpetuity, but we say the time has not come for that. But if they are able to persuade the people of this province that they should have perpetual leases that would be another matter.

Nothing has occurred to change the conditions as published in the Royal Gazette and we have not made any other agreement with the lumbermen but the one that has been made public. If the leader of the opposition objects to the increase Last year reference was made to a claim which we had against the dominion government for appropriating a river in the county of Restigouche. This claim had grown to the large sum of \$14,000, and I am glad to be able to announce that the dominion government has now promised to pay it to pay it.

of the opposition objects to the increase in stumpage let him move a resolution condemning the government on that ground and he will see where he will land. W. C. H. Grimmer. Would Reduce Stumpage Again if Neces-

Mr. Grimmer said: I have patiently listened to the speech of the first minister trying to learn if possible what the government had done during the past year in fulfilling the promises made at the last session of the house. I have heard criticism rather than information, and I am of an increase while the lumber industry is prosperous, but if this industry again became depressed as it has been in past years we would consider the case of the lumbeumen and give them a chance to live.

The leader of the opposition appears to have information that is not possessed by the government. He says that the surveyor-general has the position of collector of St. John in his pocket. This is not the case, but if the surveyor-general should afraid that the honorable first minister is I can heartily congratulate the honorable member from Restigouche in so ably carrying out the onerous duties placed upon his

shoulders in moving the address. But what information had he given the provcase, but if the surveyor-general should get this office he will resign his seat in the government and in the house, and when a vacancy occurs in the office of surveyorgeneral the government will endeavor to self to it. The latter gentleman, however, fill it. think that we should not have referred in the speech to the development of our agricultural interests. I think there should be revenue secure \$90,000 as revenue cultural interests. I think there should be a reference to agriculture in every speech. The rural constituencies know how much the agricultural policy of the government has benefited them. Look for instance at the progress that has been made in the county of Madawaska. This year farmers will be growing more wheat than ever before.

The lieutenant-governor informed me last evening that he never used any but province secure \$90,000 as revenue from these mines? It was a well known fact that at Beersville there is a small

which are interested in this subject. We will endeavor to make it such a measure is as will be suitable to the conditions which as will be suitable to the conditions which exist in this province. These conditions are widely different from those which prevail in cities like New York, where many of the factory workers are strangers and in need of protection. Here our workers live at home and are well able to take care of themselves.

Some people have wished the age which a youth could go to work to be raised to fifteen or sixteen. It is pointed out that this would be hard on the farmers and that many widows who are left with young drildren would need their help be fore they had reached that age. These points suggest that the measure is some foo many acts passed.

It is not advisable to deal with such important subjects hastily. Nor do I think that is a sign of good government to have foo many acts passed.

I sometimes think that we have too many acts passed.

I sometimes think that we have too many acts passed.

I sometimes think that we have too many acts passed.

HIS FOOT AMPUTATED.

Frank Shanklin in Montreal Hospital -Unsuccessful Operation.

Frank Shanklin, who conducts a grocer at the corner of Stanley street and City
Road had his right foot amputated by Dr.
Armstrong, in the Montreal General Hospital, a week ago Sunday night.
Since infancy Mr. Shanklin's feet have
not been normal, and thought, he recomble not been normal, and thought he was ab's on undergoing an operation, which was performed by Dr. Armstrong in the Montreal General Hospital. It was not wholly successful. It is said the blood circulation of the right foot was affected and result was so serious that amputation became necessary. The operation on the left foot was successful.

SAFETY FOR YOUR CHILDREN.

ADVANCE IN SUGAR.

Another rise of five cents per hundred another rise of five cents per handles on all grades of sugar took place at noon Friday, local dealers being advised by wire from New York. One reason given for this advance in value is the decline of sugar beet raising in Europe. Many farm ers there who used to grow extensive now cultivate wheat instead. Sugars in now quoted as follows: Standard lated, \$4.15 to \$4.25; Austrian gray \$4.05 to \$4.15; Bright yellow, \$3.85 and No. 1 yellow, \$3.55 to \$3.65.

OBITUARY,

Mrs. Adolphus Smith, Waterville, N B. Mrs. Sadie Smith died at Waterville Sunbury county, Thursday. She was the wife of Adolphus Smith, of that place. She was a victim of consumption, and had been ailing for some time. Besides her husband, four children survive.

Mrs. Wm. Lord.

After an illness of about five years, Mrs. Add Lord, wife of William Lord, died yes-rday morning at her residence, 15 Prince street, Carleton. She was thirty-nine that science years old and the daughter of the late. Il pe lod of Albert Watts, of the North End, and is survived by her mother, husband and a young daughter. Her mother arrived young from Proyidence. Thursday emorning from Providence.

Julia Killorn.

Dominick Killorn, letter carrier, of 20 Erin street, is called on to suffer the loss of his younger daughter, Julia, at the age of nine years. The child had been sick but a cheet time. How forther and one of but a short time. Her father and one sis-

William J. Murphy.

The sad news of the death of William J. Murphy, which occurred at Somerville (Mass.), Saturday, has been received by (Mass.), Saturday, has been received by relatives here. Deceased was formerly of St. John, is well known here and had a large circle of friends who learn of his death with profound regret. He was twenty-five years of age and eldest son of Mrs. Mary A. and the late James Murphy. Besides his mother, two brothers and three sisters he leaves a wife and two abildren. The body will arrive here on the children. The body will arrive here on the children. The body will arrive here on the Boston express tonight for interment.

A special meeting of the Young Men's Society of St. Joseph was held yesterday afternoon to take action in regard to the death of Mr. Murphy, a former active member of the society and whose name is at present on the honorary role. It was decided that the society attend in a body the funeral, which will take place Wednesday from the family residence, Sewell street.

Frederick Armstrong.

The funeral of Frederick W. Armstrong took place from the residence of A. O. Hanson, Fairville, Sunday afternoon at 3 o'clock, to Fernhill. Rev. A. M. Hill officiated at the house and grave. The funeral was largely attended. Mr. Armfuneral was largely attended. Mr. Armstrong was forty-five years of age and single. He was a son of the late Francis Armstrong, of Green Head, and leaves two brothers—James, of St. John, and Andrew, of Milliford; also one sister, Mrs. A. O. Hanson, with whom he resided, as well as a large single of friends to many. These Hanson, with whom he resided, as well as a large circle of friends to mourn. Tuesday last he attended his father's funeral and or Wednesday he attended his duties in his usual good health, but was taken su denly ill that night with appendicitis did died suddenly in the presence of Doctors Kienstead and Corbett, while they were discussing the advisability of removing him to the hospital for an operation. Very much sympathy is felt for Mrs. Hanson, who has had removed from her home both her father and brother in the last five days. five days.

Mrs. Robert Cunard.

The death of Mrs. Annie Cunard, widow of Robert Cunard, occurred Monday. De-ceased was a daughter of the late Henry Fisher, of Fredericton, and leaves three daughters and two sons—Mrs. Thomas Laurence, Paradise Row, with whom she lived; Mrs. G. F. Main, Dorchester (Mass.); Miss Emily Cunard, St. John; Dr. J. F. Gunard, and Albert E. C. Cunard, Paradise Row, Cunard, had been ill
