### CHILDREN'S DAY SERVICES

#### A DECIDED SUCCESS.

The annual Children's Day was observed on Sunday in the Waterloo Evangelical Church at both morning and evening services, the church being appropriately decorated for the occasion. In the morning the pastor, Rev. St. E. Shroder, gave an illustrated message to the children based upon John 12:32. He was a magnet and all of different sizes, representing the drawing power of Jesus Christ. He urged the children to give their hearts to God while young as it is much easier then and they will also have before them a life of service for the Master.

In the evening a splendid program was rendered by the St. School. Besides recitations and song, two very impressive dialogues were given. The one entitled "Mites and Millions" represented the great things which result from small beginnings. The other dialogue entitled "How Some Little Dollars Came to Go as Missionsaries," suggested that we should give the best to Christ for He has given His best to us. The entire program which received credit upon the school and upon the committee in charge indicated painstaking preparation. The St. School and audience manifested a practical interest in this festival by giving the splendid sum of \$99 for foreign missionary work.

Mr. and Mrs. H. Spencer of Guelph spent Sunday with friends in town.

The weathermen could not have been more considerate and he served up a cool breeze to alleviate the hot rays of the sun.

In driving through the country one struck with the fine appearance of the crops and if nothing unforeseen appears the harvest this year will be the best for many years.

### The System

Is Reasoned

#### By Failure of the Liver and Kidneys to Purify the Blood

#### Relief Obtained by Use of Dr. Chase's Kidney-Liver Pills

Too much eating of heavy, highly-seasoned foods and too little outdoor exercise are the most frequent causes. The liver is upset, becomes torpid, and inactive, the bowels are constipated, the kidneys are overworked in an effort to get rid of the accumulating poisons and breakdown. Headache, backache, aching limbs sound a warning note, and when this is not heeded the natural development of rheumatism, lumbago and painful and fatal forms of kidney disease.

To best overcome this condition Dr. Chase worked out in his private practice a prescription which has come to be known as Dr. Chase's Kidney-Liver Pills because of their combined action on these filtering organs. No treatment has ever proven so successful in awakening the action of the kidneys, liver and bowels and thereby cleansing the system of all impurities. For this reason Dr. Chase's Kidney-Liver Pills have a world-wide reputation as the most thorough cure for rheumatism, lumbago, chronic indigestion and constipation.

Mrs. Alex Gordon Walkerton Ont., writes: "A few years ago I suffered from kidney and liver trouble with pain in my back. I had heard of Dr. Chase's Kidney-Liver Pills being good for this so I commenced taking them. I had only taken a couple of boxes when the trouble was all removed."

Mrs. M. Nichols 192 Milton street Sarnia writes "I have found Dr. Chase's Kidney-Liver Pills an excellent remedy. I suffered considerably with kidney trouble and backache, but after I had taken five boxes of the Kidney-Liver Pills they gave me relief. Since then, which was about five years ago I keep them on hand and use them whenever I feel the need of them."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 20 cents a box all dealers or Edmunds, Bates & Co. Limited, Toronto. Substitutes will only disappoint. Insist on getting what you ask for.

A Galaxy of Artists.

A feature of the evening numbers were the Indian songs sung by Ethel Wright Fuson who was specially costumed in Indian apparel.

These songs are true Indian verses and impressively depict the Indian's character and his superstitions. In the interpretation of these the artist who sang them is an adept.

Another part of the evening's musical part that won equal appreciation were the selections sung by Thomas Fuson in the Italian, French, and Swedish, who seemed to be at ease in each.

As to the individual members of the company just a word. Esther Bourk possesses a beautiful and sweet voice, steady and controlled at all intervals it soars and then softly fades according to the sentiments expressed in the author's words.

Here also is a pleasing personality. There is Ethel Wright Fuson, contralto, whose voice is as equally melodious. As a contralto she sings in a way which adds to the vivacity of the quartet. The humorous parts which were hers in several selections were especially well presented.

Thomas Fuson possesses a rich tenor voice. His range in the musical scale whether it is high or low is complete. He sings with a vigor and interpretation which are noticeable, but all with perfect self control and composure.

The same is true of Cliff R. Cline, baritone. His voice is a splendid one, seldom has a baritone voice excelling his been heard in this city. He fits in well with the company.

In the humorous selections he is as good as in the more serious vein.

Lastly, the pianist, Fern Sherman presides at the piano in a way which adds to the effectiveness of the company. She brings into a charming personality besides a mastery of the keys. She is able to give an interpretation to the numbers which is rare. She is a revelation of wonders in this company.

During the two performances the appreciation of the audience was profuse and quite properly so. And the entertainers readily responded to the expression of this appreciation.

Every time they did so they even seemed to excel the preceding master number. May the old home singers come again! Au Revoir for today, but here's hoping it will be "How'd you do" in the distant future.

Lecture a Treat.

The second part of the evening's program was a lecture "What Western Democracy has done for Me" by Dr. Arthur Watlyn Evans of Wales. To describe this splendid address words almost fail.

Dr. Evans is a lecturer in a class by himself. He is a dynamo of human power among people. Enthusiastic in his subject, well conversant with that which he talks, he pours forth his thoughts in a steady stream of words which hit the mark and make the hearer sit up and take notice. A wonderful command of the English language is possessed by him. There is no stop in his addresses. It is as if one thousand words a minute came from his lips and yet the audience simply absorbs what he hurries out over their heads. The enthusiasm of the speaker which reaches its climax in characteristic physical poses penetrates the atmosphere, and the individual in the audience is almost carried with him in that pose.

Secret is fraternity

Dr. Evans spoke on a big subject and handled it in a big way. The meaning of American democracy, including Canada's was explained according to the interpretation of Dr. Evans. A native of Wales, England, one who has travelled far and in many countries, while a naturalized American he still can view matters with magnanimity and without prejudice. Dr. Evans among other things warned against petty nationalism which was conspicuous in all countries before the war. Referring to American democracy he said that it was different from others democracy in Europe. The spirit of fraternity he said was a characteristic in America as compared to European democracy. He illustrated this by vigorously depicting an English aristocrat's enthusiasm at an American ball game, as he yells to the boys on the field. The speaker regretted certain tendencies on the part of scattered individuals to heede whenever speaking of the relations between Great Britain and the United States. He concluded his excellent address by pointing out that for one hundred years the boundary between Canada and the United States did not have to have a fortification this was a splendid illustration of peaceful relations between nations.

These is a charge.

The Chautauqua is in charge of Mr. Charles Selwyn. A visitor here is the manager of the Cleveland office. Mr. Aliber a brother of the gentleman of the same name who was with the Chautauqua last year. Both gentlemen were before the audience last evening and were well received. Miss Sinclair who has charge of the junior Chautauqua also was introduced to the audience.

At the afternoon's opening Mr. Otto G. Smith spoke briefly. He referred to the fact that the Chautauqua is a people's event and the success depended on the people. It was not being run for private gain but for educational purposes. Over fifty citizens of the Twin City had organized for the purpose of providing the people with good wholesome entertainment and valuable education.

The setting capacity under the big tent last evening was all taken up and a splendid house was present for the opening day. It argues well for the weeks.

After the afternoon's performance it should be stated a junior Chautauqua was opened by Miss Sinclair, a reference to which will be found in another column of this issue.

Program This Evening.

To-night at the big tent will be worth going miles to hear, for Dr. George Adam, late of London England, will give his personal experience of Premier Lloyd George. You'll want to know about Lloyd George and his school days - you'll want to know about his debate in Parliament. There are a hundred things about him unknown to the audience. Dr. Adam reveals them to-night and being a member of the war munitions Council knows whereof he speaks. A wonderfully descriptive lecture - The music of the evening will be the splendid trio of artists that appeared on this afternoon's program.
