actions, kind actions come back again.

classes. It grows in a wild, rank state, on the marsh lands of Europe, but on being subject to coming very palatable and tender.

Among other varieties there are the gigantic "I would not wander far away," said the early white solid, red solid, dwarf curied, new timid Carrie; "home has charms to lure me as silver leaf, and turnip root. The white solid is long as life shall last, and when wealth shall be considered the best variety. A moist, light soil al, or merely desired heaven in the abstract, nomine, I will cause to be reared a splendid manfrom the influence of trees as possible,

It is propagated by seeds generally, being star-House, (Albany,) prepares his hot-beds in the "On the broad, peaceful Pacific shore, in the following manner: Having added manure, he very place which commands the widest view of makes the top surface of fine soil to the depth its blue waves, I would dwell, and list to the of twelve inches. The bed is then left ten days mournful surging of its waters when sadness before a particle of seed is sown, the object of lingers in my heart, for father, mother, and a this being to raise a full crop of weeds, which, at true souled brother, rest in its weedy bottom. the expiration of the ten days, may all be desof Ellen, her chosen confidant, and lifting her slope is given to the surface corresponding to mournful eyes to her. Who could blame one that of the glass covering above. Drills for pressed edgewise into the soil to the depth of an It remained yet for the thoughtful Mary to inch, and should be about six inches apart. islands need teachers to point them upward," ered long enough to be watered, and then closed

taken the sainted Mary's place, where toil, in- for transplanting. The bed should be well wastead of unalloyed pleasure, is her lot. Carrie, tered about an hour before the plants are re-the home-girl, has schooled herself to a far dis-moved. Make your trenches for receiving them tant clime, for her youthful choice took her one foot wide, two feet deep, and five feet apart, across the broad Atlantic, and she has learned filling in manure to the depth of six inches, and with wreathing smiles to say of that place, adding on top a like depth of soil taken from the side of the trench. Set the plants twelve inches Two harps are tuned anew in heaven. One has exchanged her dark raiment for light, and Mary, the other, ere a twelvemonth had passed, was attired in angelic garments too.

Are the brilliant, enthusiastic anticipations of youth, then, so untrue? Yes, below in this changeful world the real is scarce ever the counterpart of the ideal.

LULU.

apart, shading for a few days to keep them from her days to keep them from wilting. They need to be hoed occasionally, taking the development of the deal and the drivers except the first wagon were at a short disconstingtion of the deal.

The wagons were at a short disconstingtion of the drivers except the first wagon were knocked down and crushed to the first wagon were knocked down and crushed to death. Two or three of those coming in sudden contract with the wagon were crushed and trampled to death by those behind them. Some springing with their full weight upon the wagon, hrought it to the great of the second of the most growers when the plants have grown to a height of eighteen inches. Bank them up with earth as high as to the first outside leaf. The second banking should take place when the heart has grown up even with the outside leaves, piling the dirt up to a height of two feet. In about thirty days from transplating, the celery will be ready for use. After it has been dug up, it and hould not be exposed to the light and sun longer than is necessary. In preparing it for the table Mr. Roessler says: "Remove all the outside Mr. Roessler says: "Remove all the outside stalks which are not good to eat, and so I was walking down the street and saw a has grown up even with the outside leaves, piling wards. group of little folks advancing, talking very the dirt up to a height of two feet. In about earnestly. One Anna Somebody—I did not distinguish the name—was the theme of discourse, and the children were expatiating in should not be exposed to the light and sun lonloud and eager tones on her naughtiness in ger than is necessary. In preparing it for the general, and her particular meanness that morntrim the roots that the outer portion or corky "The ugliest old thing I ever saw in all my bark is all removed. Then put the head in such a way that each stalk shall be attached to a por-"So she is," cried Susie Leigh, with a look tion of root, for thus each will be furnished with

know it's wicked to hate folks, but I—I—can't bear her;" and this last was spoken with great cept that it may be sown in open air and transdepth and force, as if it came from the very planted to the trenches about the first of July. then add three cents' worth of paregoric, and a bottom of her heart.

The sentence was finished just I came along, and Susie raised her eye and met mine intently fixed on her. I stopped short, and so did the fixed on her. I stopped short, and so did the children. I had never spoken with any of them of any convenient width. Lift the plants from before, though we knew each other by sight, the trenches with the earth adhering to the roots; but I couldn't help putting in a word then.

"I'm glad you know it's wicked to hate Anna," throwing earth against them; then another row said I, addressing Susie, "but if I were you I six inches from the first, and so on, filling in the wouldn't feel so toward her.—I'd love her."

"You couldn't love her if you tried," said one of the group, "she's so mean."

"But Jesus tells us to love everybody, even our enemies. Besides, little girls, don't we do not heteful wicked things around an and wet.

"The head may be made."

"SIJUL DIULLA.

RCHIBALD GOREHAM has meet pleasur thick coat of coarse manure, straw, or litter of any kind; manure is, however, to be preferred.

From such a bed the plants may be dug at any love the made.

Steamers Arabia, Europa, Eastern State, Brigt.

He does bear us—he loves and cares for us unless the winter should prove mild. It is not which will be found to embrace, the latest and most

Rotes & Rems.

ORIGIN OF THE POST OFFICE.—The origina Me can't change our feelings."

All the rest looked as if they thought this quite a puzzling question, and would like to understand it as well as Kitty.

"We must love Jesus, little girls," I said, "and try to be like him. Then it will come easy for us to be forgiving, forbearing, kind, tender-bearted, as he is, so that when people do wrong, we shall not hate them, but pity them and try to make them better. I hope we shall all have this sweet spirit, don't you? God can change our unkind, wicked feelings, Kitty, if we ask him. Good-by."

ORIGIN OF THE POST OFFICE.—The original establishment of the Post Office in England is buried in obscurity. It is certain that a species of post—though of what nature cannot be ascertained as the reign of Edward III. The earliest mention of a chief post master for England is in Camden's "Annals," under the date of 1551; but what his office was, or how it was managed, does not appear clearly, and probably from the limited state of Morrell's Ready Relief has restored it to its former use and strength Sold by Druggists and others. Morton & Porsych, Agents, Halifax.

July 31.

I don't know what the children thought of my from foreign parts, which he placed under the teaching, but I noticed as they control of Matthew de Quester, or de L'Equester, turned the corner and walked on, that their This office was afterwards claimed by Lord Stanhope ; but in 1632 was confirmed and continued

few words I had said would set their thoughts to William Frizel and Thomas Witherings, by and Walking BOOTS comprising and feelings running on a better track than be- King Charles I. It would appear, that, previous Gents' Calfskin Elastic side Boots. to this time, private persons were accustomed to convey letters to and from foreign parts; but all such interference with the postmaster's office was expressly prohibited, and in 1535 all private inland posts were forbidden.—Old Jonathan.

DEATHS IN ENGLAND -Of the deaths in Engthis: "If we speak kind words, we hear kind and in 1859, no less than 184.264—two in every "How is this, and what does it mean?" I five of the deaths of the year—were of children under five years of age; and above half of these -105,629—had scarcely seen light, and never saw one return of their birthday. In the last between lofty mountains, or if I should five years, within the metropolitan district alone at least 278 infants were murdered; above 60 were found dead in the Thames or the canals or onds about London, and many more than 100, at all events, were found dead under railway arches, on doorsteps, in dustholes, cellars, and

which Xerxes, the King of Persia, invaded Greece only yourself, with your own little voice, doing in the year 580, before Christ. It is estimate t all; so there is no need to be offended. You to have numbered 2,500,000 soldiers, with a host 5,000,000 human beings. They conquerhas kindly made all these wonders, and they ed Athens, but only a small remnant of the army ought to teach a useful lesson, if we would only ever returned to Persia. On his way to Greece think about everything we see and hear. Kind-Xerxes took twelve young girls of the country through which he was marching, and, from the promptings of some barbarian supersition, buried them all alive. "The whole expedition," says Abbott," was the most gigantic crime against the rights and interest of mankind that human wickedness has ever been permitted to perpetrate.

THE ORIGIN OF "DIXIE".-It may be added if you do not already know the fact, that "Dixie's land" is a synonym of heaven. It appears that there was once a good planter by the name of "Dixie," who died at some period unknown, to the intense grief of his animated property. They found expression for their sorrow in song, and consoled themselves by clamoring in verse for their removel to the land to which Dixie had departed, and where probably the revered spirit would be greatly suprised to find himself in their company. Whether they were ill-treated after he died, and thus had reason to deplore his removthing known enables me to assert. But " Dixie's land" is now generaly taken to mean the seceded States, were Mr. Dixie certainly is not at this present writing. The song and air are the composition of the organized African association for the advancement of music and their own profit, which sings in New York; and it may be as well to add, that in all my tour in the South I heard little melody from lips black or white, and only once heard negroes singing in the fields.-

table of the different reasons for wearing moust the sable-clad girl winding her arm within that of plants. The beds being cleansed of weeds, a thousand persons so adorned, their answers have

To avoid shaving, 69; to avoid catching cold 32; to hide their teeth, 5; to take away from a prominent nose, 5; to avoid being taken as an Englishman abroad, 7; because they are in the prominent nose, 5; to avoid being taken as an inch, and should be about six inches apart.

About twice a week the beds need to be uncovered long enough to be watered, and then closed again tightly. More plants are destroyed by giving them too much air then by giving them too much air then by giving them too little. The blood is the life; and when any foreign or unhealthy snatter gets mined with it. It is at once distributed to every organ of the body. Every never feels the poison, and all the vital organs quickly complain. The stomach will not digest the food pariectly. The liver ceases to servete a sufficiency of bils. The action of the beart is weakened, and so the circulation is feelshe. The lungs become clogged with the poisoness matter; hence, a cough—and all from a slight injurity at the fountain-bead of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood by to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out. These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivalted as a CURE FOR BILLOUS DISKASES.

AYER'S

Sarsaparilla FOR PURIFYING THE BLOOD.

Pinapies, Pinaturies, Bloiches, Boils, Blains, and all Skim Diseases.

Oakland, Ind., 6th June, 1859.

J. C. Arga & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for maliaving inherited a Scrofalous infection, I hate suffered from H in various ways for years. Sometimes it burst out in Ulcers on my hands and armir; sometimes it burst out in Ulcers on my hands and armir; sometimes it burst out in ward and distressed me at the stomach. The years ago it broke out on my head and covered my conjunct our with one stre, which was paintial and fostheome layout description. I tried many modificates and several physicians, but without much reflet from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messeager that you had prepared an alterative (Sarsapariila), for I knew from your reputation that any thing you made must be good. I send to Cheinnatiant got it, and used it till it cured me. I too it, as you advise, in small doses of a tempoonful over a month, and used almost three bottles. New and healthy stin soon began to form under the scab, which after while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my systems. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apocites of the age, and remain ever gratefully.

Mathemy's Pire, Rose or Erystpelas, Tetter and Salt Rheums, Scald Head, Rangworms, Sero Eyes, Dropsy.

Ring werm, Sere Eyes, Drepsy.

Dr. Robert M. Proble writes from Salem, N. Y. Juh
Spri., 1859, that he has cured an inveterate case of
Drepsy, which threatened to terminate fatally, by the
paravering use of our Sarsaparilla, and also a dangerous
halignand Erysticlas by large doses of the same; says
he curse the common Eruptions by it constantly.

Brome-heecale, Gettre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured ine from a Gistre — a hidcons swelling on the neck, which I had suffered from
over two years."

Lementrhems or Whites, Ovarian Tunner, Teerine Ulcerates, Fenanic Discasses.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your seconds away of the way of the second of your second and second of the way of the Scrofulous disthesis. I have cared many investments of the Scrofulous disthesis. I have cared many investments was caused by ulceration of the ulcera. The ulceration stell was soon cured. Nothing within my knowledge equals it for these female derangements.

Edward S. Marrows, of Newbury, Ala, writes, "A dangerous secrion tunor on one of the females in my family, which had defied all the remedies we could employ, has at laught base completely cured by your Extract of farmparilla. Our physician thought nothing but extraption could afford relief, but, he advised the tried of your farmparilla. After taking your remain eight weeks no symptom of the disease remains.

Che. Bomes.

A great variety of cases have been reported to us where cares of these formidable complaints have resulted from the use of this reincidy, but our gace here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to farming praise to all who call for them.

Dyspopsie, Heart Disease; Fits, Eptlep-sy, Melancholy, Neuralgia. Sy, Melamchelly, Neurraigia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It atimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Buch a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Coughs, Colds, Influence, Hearsone Croup, Bronchitis, Inappient Con-sumption, and for the Relief of Consumptive Pattents in advanced Stages of the Disease. This is a remedy so universally known to surpass any other for the curs of threat and lung compalants, that it is ussless here to publish the evidence of its virtues. Its universalled excellence for coughs and colds, and its truly wonderful curse of pulmonary disease, have made it known throughout the civilised nations of the earth-few are the communities, or even families, among them who have upit some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of the remedy, we need not do more than to assume them that it has now all the virtues that it did have when making the curse which have wen so strongly upon the confidence of mankind.

Treanged by Br. J. G. AVER 26.00. Vancell Mane.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

GORDON'S RHEUMATIC REMEDY A SURE cure for Cholera Morbins, Colds, Soft Throat, Toothache, Sprains, Chilblains, galls and wounds of any kinds in Horses, Cramps in the Stomach, Summer Complaints, &c.

Mn. Gondon,—
Sir,—One on who by a was most severely attacked with the Acute Rheumstian, and I applied to two of the best Doctors in the place, without relief; I then got a bottle of your Liniment, and applied it to the part affected, and to my utter astonishment it acted more like a charm than a Liniment, and I can safely say that you have become a benefactor to your race, and the real friend of suffering humanity.

Yours truly,

JAMES OGLERY, Musquodobolt.
