When one's hand, is outstretched for the parchment that culminates college crammings and endeavor, reminiscing should be forgiven. Therefore I reminisce. But I'll do it in my mind the same as you will, for it is not my point to induce nostalgia at this particular time.

I often wonder how many of us in our senior year havs really done any growing since first we came to UNB? How many of us are still pursuing and nailing, pounding and clinching, cold, hard facts? Many of us have actually been narrowed by a college education. So intent have we been on our accumulation and piling up of facts that instead of making tools of these facts, the facts have made tools of us! And that, my friends, is a fact! Hog-tied and ensnarled by facts, one is as unspontaneous, as inhuman, as is the "goody-goody" whom we laugh at because he is forced, strained and static under the domination of an irrevocable conscience. Poor you, if you've learned nothing more than facts!

Perhaps it's in junior year that first attempts are made to understand. Understanding means more than manipulating facts, more than manoeuvring a slide rule. Rather does it mean to be consciously aware of "why's" and relationships. It has been accurately described as the ability to put oneself in the other fellows shoes. Facts, already, are merely secondary tools which assist in the rich joys of understanding.

Eventually, after passing the stages of fact-collecting and of understanding, one becomes a senior, and, occasionally, a thinker. The thinker has gained freedom from domination by facts, and spontanecusly uses these facts in creations earmarked by his own personality, in thoughts engendered within the confines of his own ugly cranium, and expressed regardless of the forces which tend to cause repression of ex- LADIES' SOCIETY pression and thought.

RETIRING EDITOR and BUSINESS MANAGER

VERNON W. MULLEN

DOUGLAS E. RICE

ATRIBUTE

Pictured above are Vernon Mullen and Doug Rice respectively. Vernon worked industriously this year as Editor-in-Chief of the Brunswickan... Many a night, and yes, early into the merning, he could be found at work in the printing shop "beating the deadline." For the first time in a number of years the Brunswickan has been able to maintain a deadline... The major part of this responsibility rested on Verne's shoulders. Besides working overtime he took time out to ceach many of the younger staff members in the .newspaper .art.. To Vernon we say "thanks a million for your effort to make the .. Brunswickan .. tops." We are pleased that you have not actually retired and have accepted the job of C. U. P. Editor next year.

Doug Rice, the Brunswickan's able business manager, has faithfully listened to the "beefs" of all the staff members and attempted to smooth over all controversies. We give credit to Doug for being so patient when we wanted to throw out some of that "damned advertising," wanted more cuts, or wanted to junk "Food for Thought." . Doug is graduating this year and next fall will find him at Saint John Law School. Wherever Doug goes we wish him the best of luck.

duce tons of pornographic literature, both of which are aimed at our destruction, whether physical or moral. Technical advance should not be halted but it should be coupled with a social conscience so that "progress" will be maintained, or even established.

Finally, we must learn to recognize hypocricy flouted as a zeal for freedom. We must replace fear with reasoning; pessimism with hope; selfishness with unselfishness; and fake propaganda with truth.

The Red Menace may be upon us but our officials, press, and radio are making sure that it succeeds by creating the crisis upon which the "Menace" feeds.
