

File Hill

August 2

There has been no increase
or decrease in the attendance
at this school during the month.

They are all making good
progress in their studies
and are contented and happy
at the school.

The Principal has fitted
up a frame building, about 75
feet from the main building,
for a school room, and has
made it very comfortable.

He informs me that the
Presbyterian Mission are going
to send him Decks, which
when put in will make it
a very complete school room.

He has erected a clothes
closet, about 12 x 8 feet, under
the window of the girls dormitory
which reaches up to about 2 feet
from the eave of the roof.
Then there is a short ladder from
the girls window to the eave, he
proposes to have a ladder from the top
of the roof to the closet for the boys, for
a fire escape.
