

- Myomectomy, vaginal, 571, 577  
 bisection of myoma in, 574  
 complications after, 578  
   during, 576  
 death after, 580-583, 586  
 delirium after, 580  
 erysipelas after, 579  
 for infected and disintegrating submucous myoma, 575  
 for non-infected submucous myoma, 573  
 hemorrhage during, 576  
 hysterectomy subsequent to, 585  
 operation for recurrent fibroids after, 586  
 operations subsequent to, 585  
 other operations during, 578  
 phlebitis after, 579  
 pregnancy after, 587  
 pulse after, 578  
 results after, 584, 586, 587, 672  
 rupture of uterus during, 576  
 temperature after, 578, 579
- Myosarcoma of uterus, 169-261  
 abscess in broad ligament with, 196  
 age of incidence, 178  
 cervical stump, return in, 176, 190  
 clinical history, 177-179  
 condition of Fallopian tubes with, 177  
   of ovaries with, 177  
   of uterine mucosa with, 176, 190  
 cysts in, 197, 198  
 developing from connective tissue of myoma, 172  
   from degenerated myoma, 188  
   from muscular elements of myoma, 173  
   in center of myoma, 208  
 gross appearances of, 170  
   suggesting, 236-245  
 histologic appearances, 172  
 incidence of, suggesting, 245-261
- Myosarcoma of uterus, interstitial, 171
- Myosarcoma of uterus, intraligamentary, 171  
 metastases in abdomen from, 200  
   in cervical lymph-glands from, 195  
   in chordæ tendineæ of tricuspid valve from, 222  
   in columnæ carneæ of right ventricle from, 222  
   in endocardium from, 220  
   in heart muscle from, 176  
   in liver from, 176, 201  
   in lungs from, 176, 195, 220  
   in lymph-glands from, 176  
   in omentum from, 176  
   in pleura from, 195  
   in skin from, 176  
   in vertebrae from, 176
- Myosarcoma of uterus, overlooked at operation, 190  
   in laboratory, 193, 200, 204  
 perforation of abdominal wall with, 176  
 rapidity in growth of, 176  
 recurrence of, 176  
 relation of hyaline degeneration to, 232  
   of recurrent fibroids to, 178  
 secondary growths of, 175  
   nodules of, in right broad ligament, 195
- Myosarcoma of uterus, submucous, 171
- Myosarcoma of uterus, subperitoneal, 171  
 transition of muscle fibers into sarcoma cells in, 225, 226, 227, 228  
 treatment of, 179
- NAUSEA after abdominal hysteromyomectomy, 658  
   myomectomy, 548  
   associated with myoma, 447
- Necrotic myoma, 153
- Nephrectomy after hysteromyomectomy, 384, 385
- Nephritis after abdominal hysteromyomectomy, 657, 681  
   myomectomy, 550
- Nervous phenomena after abdominal hysteromyomectomy, 661
- Number of myomata, 3
- OBSTIPATION after abdominal hysteromyomectomy, 659
- Omental adhesions with parasitic myoma, 15
- Omentum, abscess in, with myoma, 637  
 affording part of blood-supply to parasitic myoma, 16-30  
 changes in, with parasitic myoma, 13  
 dilated lymphatics of, 14, 20, 22  
 gradual disappearance of fat in, with parasitic myoma, 22, 23, 25, 28  
 greatly dilated vessels of, with parasitic myoma, 24  
 secondary sarcoma of, 234
- Ovarian adhesions, release of, after abdominal myomectomy, 556  
 cysts, myoma and, differentiation, 495, 498  
 papillomatous, 498  
 removal of, during abdominal myomectomy, 527
