Good Listening.

Good talking is largely dependent on "good hearing." The fact that a man is able to do his mental powers the justice of brilliant expression may be due to the presence of some receptive mind ready to invite and appreciate. One day a friend gave a little dinner for him, Dr. Jowett and Dean Stanley. But no sooner had the dinner begun than the host realized his mistake. At last I said some stupid thing to Stanley about the architecture of Westmiaster abbey, and that drew Ruskin and started us all off. Then all went well. ### FURNITURE.

There are at least half a dozen reasons why you should at least know what is being shown at AUSTIN'S, before you make your purchase:

- 1.—The breadth of the stock—variety.
- 2.—Handsomest furniture shown anywhere.
- 3.—Correct styles and chaste designs.
- 4.—The excellence of the workmanship. 5.-Finish unexcelled.
- 6.—Lastly, prices that are decidedly lower that can be found elsewhere, on furniture of equal character.

These are a few of the reasons which have built up this large furniture business here in so short a time. There had to be tangible and decesive evidence of betterness, or the business would neither have come to us nor stayed with us.

Isn't it to your interest to find out whether you have been getting the best for your money in Furniture ? Look, for instance at this furniture for \$15.
