

The System School

W. H. SHAW, PRINCIPAL

"OURS IS A SYSTEM SCHOOL"

Two years ago when we published our catalogue, the above sentence stood upon the first page of that section in which we endeavored to give a description of the system which obtained in the school. To-day, we are happy to say that more than ever we are entitled to rank as "The System School."

We systematize all work of teachers and students. Our original and systematic methods of planning our work so that our entire school is really one vast business office has won the commendations of the best organizers of office methods and systems. System marks every department, every feature of our great school. Our Booklet, "The System School," will interest every wide-awake teacher. Write for it.

"OURS IS A BUSINESS SCHOOL"

Our constant aim is to instil into the minds of our students the fact that while with us they are serving a business apprenticeship. They do not merely come to school every morning. They get down to work just the same as the young men and women who are working in the many offices in the down-town district.

In "Modern Methods" we always lead. First to introduce and furnish to each student such material as Loose Leaf Ledgers, Card Ledgers and Records, Manifold Billing and Charge Sheets, etc. We are always first to introduce any new device of merit applicable to office work. Our graduates are up-to-date in all these things.

P. MCINTOSH, VICE-PRINCIPAL

The "System School" applies properly
to our Business School.

The Central Business College OF TORONTO

Fine equipment, strong staff of 20 or more teachers, modern courses and methods and successful students are our chief characteristics. Catalogue free. Enter any time.
