

BREEDER'S DISPERSION SALE
 OF
Holsteins Registered Clydesdales
 30 Dically Bred 5 Choice Grades By Public Auction 4 Breed Mares, reg. 4 Choice Gelatines
HENFRYN, WEDNESDAY, MAR. 3, 1915

Practically all these animals have been bred and raised on my farm. They are the big type of Holsteins with great capacity for heavy work—as shown by yearly record, Pontiac Creamline Korydake the Kol, our herd sire, is a grandson of Pontiac Korydake. His sire is a daughter of Creamline Vale, the ex-world champion. It is such breeding as this that is behind my herd. No better can be found. My animal offered must go to the highest bidder—without reserve. The Clydesdales are a choice lot—all young.

Send for Catalogue, it will give full information.

RICHARD CLARKE, R.R. No. 5, ATWOOD, Ont.
 Henry Station—Huron Co.—Near Listowel.

THE McCONKEY DISPERSION SALE
 Every Animal in our herd of
34 Head REGISTERED HOLSTEINS 37 Females 37 Males

OUR FARMERS' CLUB
 Correspondence Invited
PRINCE EDWARD ISLAND
PRINCE CO, P. R. 1.

KENSINGTON, Jan. 28.—Since the first of January there has not been a cold day, with not enough snow for good sleighing. We have had two thaws with heavy rains this month. The roads are badly washed out, into the fields. The river now is not safe to travel on. There is no scarcity of food in this locality, and a lot of hay to be had. People are getting out their supply of firewood. Prices remain about the same as last report.—T. G.

ONTARIO
CARLETON CO. ONT.
BRITANNIA HAY, Feb. 1.—The severe weather has caused some damage on the market. Oats, 50c; hay, \$18; beans, \$17; veal, 12c; calves, \$10. **WINDSOR, Feb. 2.**—We are having lots of snow and roads are getting high and bad. Full crops on Jan. 28th and 29th we had a stock judging course in Waterloo, and the meetings were well attended. Our agricultural representatives, Messrs. Knapp and Strong, in connection with the Farmers' Institute, are holding a four week course in agriculture in Elmira. Last week about 30 were in regular attendance and prospects are that more will enter this week. Part of the time is spent in lecture work and three afternoons a week in judging stock on the farms of leading stockmen in the vicinity of Elmira. The boys are quite enthusiastic over the course.—O. H. S.

WATERLOO CO. ONT.
WATERLOO, Feb. 2.—We are having lots of snow and roads are getting high and bad. Full crops on Jan. 28th and 29th we had a stock judging course in Waterloo, and the meetings were well attended. Our agricultural representatives, Messrs. Knapp and Strong, in connection with the Farmers' Institute, are holding a four week course in agriculture in Elmira. Last week about 30 were in regular attendance and prospects are that more will enter this week. Part of the time is spent in lecture work and three afternoons a week in judging stock on the farms of leading stockmen in the vicinity of Elmira. The boys are quite enthusiastic over the course.—O. H. S.

WELLINGTON CO. ONT.
QUELBY, Jan. 27.—The marketing of produce has been favored for some time by good markets. The market here, which is usually held in the Winter Fair Building, will now have to be held on the streets as the fair building is being used as headquarters for about 1,500 soldiers.—O. R. A.

LESLIE, Jan. 31.—It has been very severe weather lately, but has turned soft. Markets are better in general. Horses are going out by the hundreds for army purposes. Cattle are stronger. Se. 102; calves, \$10; hogs, \$13; oats, 50c; barley, 70c; bushwheat, 80c. Sheep, 50c each on central. Pigs are good in general.—J. D. T.

SIMCOE, NORFOLK CO. ONT.
SIMCOE, Feb. 1.—The weather extreme follows another 40 deg. below, followed by rain. As yet no great amount of ice on wheat and corn. The Ontario Holsteins breeders' auction sale at Simcoe on Feb. 11th. J. Allen Wallace (Simcoe) offers four sets of the Ottawa grand champion, which by the way was also bred by him. Or, the greatest meeting of a farmers club south of Simcoe. Feb. 18th. Prices at auction sales firm. Fire at meeting of estate.—F. G. B.

GREY CO. ONT.
THORNBU'Y, Feb. 2.—The weather this week has been very cold and stormy. Shipments of stock and the market held over for next week owing to the roads being blocked. Travelling was completely out of the way. Storms are now however, being opened in all directions. The ice has been the worst during the winter. Even the trains have been delayed. Thornbury held its poultry show last week. There was a wonderful number

of birds shown, some beautiful large Wyandottes, also some large Rhode Island Reds, as well as a large number of other fowls. Geese, turkeys and ducks were not so numerous, but were good.—Mrs. G. F.

BRITISH COLUMBIA

WEST MINSTER DIST., B.C.
CHILLIWACK, Jan. 26.—The weather for the last few weeks has been very mild. The ground is still frozen about an inch, and there has been no snow at all. The Government (Provincial) is sending a veterinary surgeon around to test the cattle for tuberculosis, almost every herd would have having one or two. One has as high as eight. The government pays \$75 for those that are registered, and the common ones go for considerably less than that. The price of all grain has on the advance. Oats are now 41c a ton, Calgary horses are being at villa view farm—J. C.

THE HERD AT VILLA VIEW FARM
 'Their skill and experience in the keeping of high-class grades of stock has been of untold experience to Arbosport Farm, Burlington, Ont., in stallions, and in the building up of this herd the same achievements have been made. As displayed as in all their other operations on the farm. The aim has been to secure richly bred animals, and every herd in the vicinity. They believe, moreover, in the wisdom of their motto, "The best stock produce animals on their own farm, and the pure breeds in their sale show clearly the wisdom of their motto." They have been trained to convert large quantities of roughage into milk. There is in fact, at present 15 young animals that have averaged over 1 lb. of butter a week in official test in the two-year-old class. Every one of these records has been developed at Villa View. Ten of the young animals tested averaged 3.33 per cent butter fat. To produce young animals of this stock production is surely a record for young breeders. Many older ones do not attain to anything like this in a life time, particularly with animals running so high in the fat test.

The first cow tested in the herd made 16.46 lb. of butter in two years and seven months. Her own calf is a sister of the sire that won the \$500 prize at Toronto two years ago. As a three-year-old, she made 15.00 lbs. of butter, and in the fat test, testing 3.64 per cent. Grace Allen Ormsby, a grand-daughter of Pontiac Herma, had a record of 19.45 lb. going over four per cent fat in two years and 11 months. She also makes a big record when she matures. She comes of a high testing family, and in the herd are four of her sisters from the same sire. Her stall mate at two years tested 17.55 lb. at two years and 1.97 per cent milk, 12.25 lbs. to her credit and testing 5.36 per cent. A big pair right across the aisle are also heavy workers. One came in at one year and 11 months and made 37.78 lbs. with a test of 4.25 per cent. Her mate is a grand-daughter of Pontiac Herma, and has a record of 16.31 lb. at a little over two years. Her own calf is the daughter of Palladin Ormsby, came in at two years and five months, and made a record of 37.22 lb. from 1.97 per cent milk. Among their three-year-olds, Laura McDonald is entitled to credit, having made 19.25 lbs. in two years, and 4.47 per cent milk.

Although Arbosport Farm, started in pure bred stock and stock raising, but the two young brothers have already a herd of which they are justly proud. From the first they practitioners well bred their stuff and have mated it with the best sire procurable, and feeding market as well as for home consumption.

(Concluded on page 25)

A GRAND YOUNG BULL. FOR SALE, born May 28th, 1914, mostly white, sire by 25.00 lbs. butter in 7 days. This fellow is a fine built chap, straight and square every way, with great constitution. His dam is one of our best animals milking up to 19 lbs. a day and will do even better at next freshening. Write or come and look him over. Photo and pedigree on application.
JOHN ANDERSON, R.R. 1, OXFORD HILLS, ONT.

THE MAPLES HOLSTEIN HERD All closely related to the R.O.P. 3-yr-old champion heifer, Duochon Wayne Calamity 2nd—27.74 lbs. milk and 60 lbs. butter—29 1/2 lbs. as a 3-yr-old 1 bull calve offered at present—one full brother to Duochon, one from a 20th 3-yr-old sister to Duochon and the third from a closely related 2 1/2-b. cow. Could you ask for better breeding? They are all splendid chaps. Write or come and look them over.
WALBURN RIVERS R. R. 4, INGERSOLL, ONT.
