As it appears completed.

WHAT MR. T. L. PARDO SAYS:

ESTATE OF JOHN BATTLE, THOROLD, ONT.:

CRDAR SPRINGS, KENT COUNTY, ONT., NOV. 21, 1899.

DEAR SIRS,—I write to say that we have now fully completed the stabling in my new barn, and I am
well pleased with the work done throughout the whole building, which is 54 x 100 feet, with basement
walls 9 feet high, and a silo 14 x 14 feet, same height as walls, built in a corner of the basement wall,
there being a concrete floor throughout the whole building. We used in all 200 bbls. of your Thorold
Cement in this work, with the result that our walls and floors are as hard as rock itself. The work was
all done under the supervision of your travelling agent, Mr. Marcus A. Ware, a man who appears to be
completely master of his trade, and who is always in a hurry, but never slights his work. I send you
photo of building under separate cover.

Yours truly,

T. L. PARDO.

THE NATIONAL FARM

Cream Separator

Manufactured by the Raymond Mfg. Co. of
Guelph, Limited, manufacturers of the
celebrated Raymond Sewing
Machines.

THE National is an up-to-date machine,
leading all others in separating cream
by centrifugal force. It is the farmers'
choice, because it runs easy, skims fast and
clean, and makes a perfect cream, contain-
ing any per cent. of butter-fat desired. It is
also easier to clean than any other. The
National is built of the very best material
suitable for the construction of a high-speed
machine, and with proper care should last a
lifetime. The bearings are interchangeable
and easily adjusted. Every machine is guar-
anteed to do good work, and a trial of the
"National" is solicited before purchasing
any other. The already large sale of the
"National," and the growing demand for it,
shows how much the Canadian farmers ap-
preciate a Canadian-made machine that does
its work so easily and well, and at the same
time returns such a large profit on the small
investment. Ask for the "National"; try
it and buy it.
