

This is the Economical Paint to Use

CERTAIN inherent qualities are essential in paint to ensure your permanent satisfaction with its application.

Of these, the more important are Endurance and Covering Capacity. The extent to which these qualities are present, accurately determines the real value of your paint.

B-H "ENGLISH" PAINT 70% Pure White Lead
30% Pure White Zinc
100% Pure Paint

made in over fifty artistic shades, combines these virtues in such a manner as to produce a result no other paint can excel, and few can equal.

It is economical because it will cover more surface and wear longer than other paints. A cheap paint does not permit of the use of the best ingredients, and always is expensive in the long run.

B-H "English" Paint—costing but little more than a cheap mixture—produces a better job that lasts three to four times as long.
