

The latest Wilfley Table No. 11-D. Concrete foundations and fully enclosed self-oiling head motion.

Heusser Balance showing multiple weight attachment and pan extractor

The Marcy Ball Mill—the giant of all grinding equipment. Capacities of single Marcy Mills have exceeded 800 tons per day—with low cost.

## Production and Profit at any of these prices

The fluctuations in the prices of copper are typical of the fluctuations in the prices of other metals—typical of the conditions which Massco products have met successfully for a long period of years.

# MASSCO PRODUCTS

Count on Massco products—whether for record production at high metal prices or for good profits on the narrow working margins of low price.

The long experience of Massco engineers in solving the problems of the past certainly fit them to be of real help in the future—look to Massco products for profitable production and to Massco service for satisfaction.

These are a few of the Massco Specialties:

- Wilfley Concentrating Tables—single and double deck
- Marcy Ball Mills
- Assay and Laboratory Equipment.
- Massco Furnaces and Oil Burners
- Holman Stretcher Bar Hoist
- Electrical Equipment
- Pierce Amalgamators
- Perfection Oil and Acid Feeder
