

A VERY DEEP MINING SHAFT.
 Circumstances Under Which It Is Being Sunk to Cut a Vein.
 The Tamarack Copper Mining Company, of Michigan, is sinking a shaft, which when completed will be over 5000 feet deep, making it the deepest shaft in the world. The shaft is being sunk on land adjoining the Calumet and Hecla mines, and not far from it is one 3000 feet deep. These two shafts will tap the vein of the Calumet and Hecla company at a point off their land. The land belonging to the Calumet and Hecla company was originally patented under the timber act. That was before the copper was known to exist there. The land once being patented as timber land could not be patented as a mineral claim. The result is that the copper company can not follow the vein beyond the side lines of the timber claim. The company did not purchase all the surrounding land, not thinking any one would sink for the vein at such a distance, as it dipped at such an angle. But the Tamarack company did purchase the surrounding land, and is sinking for the vein. Their purchase limits the future operations of the Calumet and Hecla Mining Company, as the one in sight can be exhausted in about fifty years, and then it will have to suspend operations, as it can not go beyond its side lines, as the land adjoining is owned by other people.

Health Lost and Found.

THE STORY OF A YOUNG BOY'S TRIALS.

Was Growing Too Rapidly and His Health Gave Way - Several Months' Doctoring Did Him No Good - His Parents Almost Discouraged.

From the Napanee Beaver.
 It is truly pitiable to see boys just beginning to realize the possibilities of life stricken down with disease, the escape from which is sometimes thought to be little short of a miracle. Hearing of such a case a reporter called on Mr. J. J. Smith, living near Fredericksburg Station in Lennox Co., and interviewed him regarding the cure of his son who was in bad health and regained it by the use of Dr. Williams' Pink Pills. Mr. Smith is one of the oldest residents in the locality, of direct U. E. Loyalist descent, and has resided all his life on the farm on which he lives. He is consequently well known throughout the district. In reply to the scribe's query he gave the details of the case. "My son, Stanley, was taken sick about the first of February, 1885. He became very deaf and had a dull constant pain in his head. He grew very weak, such a condition being more properly described by the term 'general muscular weakness.' He was troubled with severe pain in his back and had no appetite, continuing to steadily grow weaker and finally lost all ambition. He had little more color in him than a bit of white paper. A physician was consulted on the first appearance of the trouble. He carefully examined the case stating that the hearing was affected by catarrhal deafness, the pains in the back originating from muscular rheumatism and the constant tired feeling and general weakness was caused by over growth. These difficulties together with the after effects of a gripe left him a physical wreck. He had the benefit of careful medical attention for four months. The doctor had carefully treated him for the deafness and succeeded in restoring his hearing, but in other respects was no better. He ordered that he should be carefully nursed which was about all that could be done. To make things more clearly understood I might say he was at this time past twelve years of age, having grown very fast, was large enough for one six years his senior. The doctor said medicine could not benefit him and all that could be done must come by nursing. We naturally felt greatly discouraged at the prospect, not knowing what course to pursue in the future. At this juncture one of the druggists of Napanee who had previously compounded many prescriptions, recommended a trial of Dr. Williams' Pink Pills. It was then the first of June when we purchased three boxes and commenced the treatment. When he had finished the second box his appetite, previously fickle and unsteady, had wonderfully improved. He continued taking the pills until seven boxes had been used. His strength returned with renewed vigor and all signs of muscular rheumatism had vanished and he steadily regained a strong healthy color, and was able to do considerable light work in the harvest field such as riding the mower, reaper or horse-rake. He has since attended school regularly and though a year has elapsed, he has had no symptoms." Mrs. Smith spoke of about the matter readily concurring in all that had been said relative to her son's case, and was very decided in her views regarding the health giving properties contained in Dr. Williams' Pink Pills.
 Dr. Williams' Pink Pills are a blood builder and nerve restorer. They supply the blood with its life and health-giving properties, thus driving disease from the system. There are numerous pink colored imitations against which the public is warned. The genuine Pink Pills can be had only in boxes the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." Refuse all others.

HER FIFTY YEARS' KEEP.

On the occasion of his golden wedding a methodical English husband figured up from his carefully-kept accounts what his wife had cost him. He had an assured income of \$2,500 a year throughout his life. Winning his wife, what with presents, engagement ring, and extra expenditure on his own personal adornment, cost him \$500; her share of the household expenses was \$625 a year; her clothing and linen cost \$250 yearly; presents, medical attendance, amusements and summer excursions amounted for her share to \$150 annually. He therefore spent for her in fifty years \$66,750.

A PLAGUE OF THE NIGHT.

Itching Piles and Other Rectal Troubles Easily Cured by a Safe Method—A Remarkable Number of Cures Made by Trask's Magnetic Ointment.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected. The usual treatment has been some simple ointment or salve, which sometimes gives temporary relief, but nothing like a permanent cure can be expected from such superficial treatment. The only permanent cure for itching piles yet discovered is Trask's Magnetic Ointment, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles. Many physicians for a long time supposed that the remarkable relief afforded by Trask's Magnetic Ointment was because it was supposed to contain cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, opium or in fact any poisonous, injurious drug whatever. For this reason Trask's Magnetic Ointment is probably the only pile cure extensively recommended by physicians, because it is so safe, so prompt in the relief afforded and so far as known the only positive cure for piles except a surgical operation. If suffering from any form of piles ask your druggist for a 25c or 40c package of Trask's Magnetic Ointment and try it to-night.

CO-OPERATION.
 It is Practiced With Success By a Society of Basket Makers.
 In Europe, as is well known, the principle co-operation has been incorporated in many forms as yet untried in this country. A late number of the Economic Journal furnishes interesting particulars concerning a French society of basket makers, which has flourished at Villaines for about 45 years. The workers, about 150 in number, work at their own houses, and supply themselves with osiers at their own cost. The society exists for the purpose of finding a market, and is so successful that the demand is greater than the supply. The society does not concern itself with the delivery of goods. Customers must make their own arrangements to send for them. The society is managed by a committee, but the actual work devolved on the President and on the Secretary, who are the only paid members. The society is reported to be successful and popular and its members prosperous. In instances such as this we may see an indication of the form of co-operation which is sure to become popular among us in the near future.
