Connell, K. C., for the purpose of seeking to bring about an arrangement of the sparrowhawk feeding its young, under which the coming local election may be denuded of the extremely unlawful conditions as to bribery which have been so much in evidence in the past. Those present were A. B. Connell, Colonel Vince, E. R. Teed, B. B. Manzer, Wm. McIntosh, E. C. Morgan, Major Tompkins, N. Foster Thorns, Doctor Curtis, Thomas Bohan and Joseph Fewer. Mr. Connell was appointed to the chair and Mr. Thorne acted as secretary. A general discussion was entered into, and as it seemed to be the unanimous opinion that some steps in the direction of electoral purity were urgently needed, the members of the committee signed a document pledging themselves to do all in their power to induce the several candidates, to agree to conduct the next campaign entirely free from the use of improper means. 'The committee went so far as to agree that the practice of hauling voters to the polls and feeding them should be done away with. It is believed that all the candidates will be quite ready to run a clean election. Those who are conversant with political affairs in the county willreadily agree that this will be a great change for the better.
