

## Boston Takes Third Game Driving 2 Pitchers from Box

Leonard Was Invincible Save in First Innings, While Red Sox Hammered Marquard and Cheney—Nap Rucker in the Box—Story of the Game.

(By F. G. Menke)

Brooklyn, Oct. 12.—With two on bases in the second inning, Larry Gardner, of Boston, picked out one of the left-handed offerings of Richard Marquard, of Brooklyn, and propelled it to the centre-field fence for a home run.

And right there you have the main cause for the cracking of the Dodgers this afternoon; right there is the reason for a 6 to 2 victory for the Red Sox.

It was Gardner's terrific clout that put the Sox in the lead and that robbed Marquard of his poise and much of his confidence. And when Marquard faltered the whole Dodger team seemed to wobble behind him. Gardner it was who was the mightiest of the actors in beating the Brooklynites yesterday and making the series count 3 to 1 in favor of the Red-hosed folks.

The Dodgers started with a rush that sent the big Brooklyn crowd into a frenzy of delight. They belted Dutch Leonard with vim and gusto and success in the first session, shoved across two runs and acted as if they were going to give the Sox one of the worst beatings ever doled out to a Boston representative in a world-series duel. And then came Gardner—and the "pop" and courage were gone.

It was one of those dull, draggy games, with only a few fast plays, and some long distance hitting to feature it. A world series record for time consumed in playing a nine-inning game undoubtedly was established by the afternoon's frolic, which lasted two hours and twenty-five minutes. The Red Sox won because they were able to hit when a sweat meant a run, because they yielded superbly and because Dutch Leonard, after his inaugural faltering, steadied and pitched remarkable ball in the pinches.

Broke the Dodger Spirit

Onward from that second inning when Gardner put the Sox into the lead and broke the spirit of the Dodgers, it was not a case of who would win; the game merely resolved itself into a guessing contest on by how many runs will the Sox win. Every man on the Red Sox squad arose to the limit of his skill in emergency; every man played baseball as it really should be played. The team worked along with machine-like precision against a wobbly crowd of National Leaguers. And the result was inevitable.

Dutch Leonard started off in a way that nearly gave the Sox supporters a stroke of apoplexy. He yielded a three base hit to Johnston, the first man up in the first inning—and on the first ball pitched. Then came Myers with a single, scoring Johnston. The Sox southpaw lost control and walked Merkle, the third man up. He followed this with a wild pitch, all of which sent the Brooklyn crowd into a frenzy. Janvrin added to the Dodger joy by fumbling Cutshaw's easy boundary, which permitted Myers to romp home.

"We'll get a million to-day," shrieked the Brooklyn stands. But the folks were wrong, quite wrong. Leonard decided after the inning was over that "spotting" the Dodgers two runs in the first was a sufficient handicap. And from then on the port-side heaver was invincible in pinches. Twice he was in tight places, and twice he crawled out, due in part to the perfect defence behind him, but in the main credit is due to his great work, it forcing

the Dodgers to strike out or lap into easy outs.

## FIRST PICTURES OF WORLD'S SERIES FROM BOSTON

Top picture shows Hobitzel (Boston) safe at home in the lucky seventh inning of the first game of the world series at Boston, when Scott's fly to Stengel was returned to the plate too late to catch Hobby. Lower picture shows Clarence Walker sliding to third base after cracking one of Marquard's shoots to the left field wall and beating Wheat's throw to Mowrey at third.

## Tried to Blind the Batters

Brooklyn, Oct. 11.—From far out on the right field foul line Empire Tommy Connolly yesterday discovered a man on the top of the left field stand about the sixth inning with a mirror in his hand. The man seemed to be trying to flash the light in the eyes of the Boston batters, and he was speedily dispersed when Tommy rushed into the diamond and held up the game and exposed the plot.

Your uncle Wilbert Robinson says he wants to tell the world that his people had nothing to do with the man or his mirror. In any event, however, the fellow seemed to disturb the batters very little.

WORLD'S SERIES NOTES.

It looks as if Boston will keep up their proud record of never having lost a world's series championship.

The fifth game of the series will be played to-day in Boston. This is Columbus Day in Massachusetts and an enormous crowd will be on hand.

The players will not share in any games from now on, the receipts going to the club-owners and the National Commission.

Yesterday was the first time since the initial game of the series with the Phillies last year that the Red Sox secured more than a one-run margin.

Frank Baker was the home run hero of the series in 1911 and 1915, while this year it is Larry Gardner who is the star.

Empire Quigley held up the game a moment while he cautioned Helio Wagner, who was coaching at third, about his remarks to Marquard.

Since 1907 Nap Rucker has been a member of the Brooklyn club, and yesterday was his first opportunity to pitch in a world's series game.

It was rumored that Leonard's arm was sore, and that was even as the reason he didn't start in any of the first three games. After yesterday he doesn't need an alibi.

Fred Merkle played first base for Brooklyn yesterday owing to a south paw pitching. Merkle repeated the same play that he made against Boston in the world's series with the Giants, by dropping a foul fly.

The attendance at Brooklyn has been very disappointing, and that city looks like a bush town compared to Boston.

## BELGIAN RELIEF A SACRED CAUSE

Never Any Chance for Argument in the Handling of This Great Problem.

Relief of the Belgians, never in need of argument, remains to-day as it has been from the beginning of the war, a great and sacred cause.

writes Arthur Masen in the Sydney Morning Herald.

The words "Sacred Cause" should leave an impression in the mind of every Canadian who reads them. The relief of the suffering, starving women and children of Belgium, trodden under the iron heel of the German conqueror, should be as sacred to Canada as the giving of men for the army that is to work out the salvation of civilization. In fact, the relief of Belgium is on the same plane with the raising of military units. One is to save the mother country and the other is to lend a hand to a sister country, which made possible the saving of the mother country.

The sending of food to Belgium is a sacred duty that must not be slighted. Seven million of the mothers, wives and children of our fellow soldiers are starving. We have food in plenty, money in abundance and we must send a part of this to help feed Belgium, which has neither money or food.

The small amount of Two Dollars and fifty cents keeps a Belgian family one month. Subscriptions should be sent to local committees or to the Treasurer Central Belgian Relief Committee, 59 St. Peter Street, Montreal.

Count von Bernstorff's approaching trip to see President Wilson at Shadow Lawn causes speculation concerning whether he will discuss peace.

## MORAL SIDE OF ARMY IMPROVED

So Says Sir John French, Attributing It to the Influence of Y.M.C.A.

London, Oct. 12.—(Correspondence of The Associated Press).—There isn't anything like as much drunkenness in the British army as there used to be. Lord French attributes much of this improvement to the great work done by the Young Men's Christian Association and kindred bodies. They have established innumerable substitutes for the canteen which Thomas Atkins has found much more attractive and much less expensive. They provide wholesome refreshment and harmless recreation for him. And religion, too—if he wants it. Often he helps himself to all three.

It was the opening of a new Y.M.C.A. hut by Lord French that afforded him the opportunity to tell how much the army had benefited by such work.

"I remember," he said, "when I first joined the army—how long ago I don't like to remember—the only refuge of the soldier was the canteen. In those days we had old soldiers who used practically to live on beer. It used to be quite a common thing in those days for an old soldier to sell his food to the young recruit and buy beer and live upon it."

"I think it is something like thirty or thirty-five years ago since the founders of the Y.M.C.A. commenced their beneficent work and the change that has come over the personnel of the Army during that time has been something very little short of miraculous. Those who have served all those years in the Army can realize it better than anybody else."

"A few years before the war commenced this improvement began to manifest itself in a most extraordinary manner, and especially with regard to the diminution of crime. Drunkenness was formerly a most prevalent crime in the army. I remember that we used to have strings of defaulters outside the orderlies' rooms waiting to be punished for drunkenness. You hardly ever see a drunken soldier now, and in many other directions the work is very marked and has been clearly proved."

"When I was commander-in-chief in France for some eighteen months I realized what these institutions have done for soldiers. It was on the fields of battle that the men showed what different men they were. This war has demanded more in the way of nerve and courage from our men than any war that has ever happened in the history of the world. The most constant courage has had to be exercised every moment of the day and night. No bit of ground is secure from the long range high explosive shells. But through it all our men have shown a magnificent courage. One cannot but remember that the old soldiers of the past were splendid, but they certainly never surpassed the splendid courage that has been shown in this war. One cannot help thinking that perhaps it is to be traced to the work of these institutions."
