# A PERILOUS VOYAGE.

## Terrible Experiences on Board an Allantio Liner.

1

GRAPHIC DETAILS OF THE CALAMITY.

A Now York despatch says : Captain and l, of the ocean steamer Westeruland, Sander, of the ocean steamer westernand, says of the resent terrible experiences on board shat vess.l, while on her way to New York: "Our trip has been made one of the saddest in the history of the company by this affair. The accident can be attributed other the company by this affair. The accident can be attributed only to the unexplainable. It occurred about 3.50 o'clock in the atternoon. There was a good sea running, but I did not re-gard it as anything dangerous. The ship was making good headway and there was a freich breezi. Under the turtle back there ware assembled at the time groups of sailors and ps-segrers. Some were smok-ing, others talking on 1 making time pass in various ways. Suddenly one of the wave same rushing toward the ship, assuming as it approached the form of a towering column of water. It was one of those sides on the cocan, but when once seen is nover forgotten. but when once seen is never forgotten Whether a cross-sea or not there seems to be no satisfactory explanation. The great mass of water swept toward the abip with imposing grandeur, and as it struck the ship the vessel should be unsur-ti struck the ship the vessel should be unsur-transport or limit to the second be about 200 miles back of Purt The great o lumn broke over the dtok. There were terrifying soreams of distress to the Indenva but when once seen is never forgotten The great clumn broke over the dtok. There were to lumn broke over the dtok. There were terrifying acreams of distress, and the vessel was for a moment sub-merged. When the flod had passed, a pan o prevaled on the decks. The thick

iron beams and plates of the turtle-back were found to be broken. Underneath the wreekage was a most distrissing sight. The shock of the way, killed four Belgian sailors outright. They were crushed in a shocking manner. Near them lay two passengers fatally injured, and scattered about the decks were at least twenty more

per ons, who were more or less built some very serionally. No more waves came on board. The wreckage was cleared away as speedly as possible and that night the bodies of the four dead below more interview. a possible and that night the bodies of the our dead sailors were given sailor's burial. tour dead sailors were given sailor's burial. The next flay the two passeogers died, and they, too, were buried at sea." An inspec tion of the vessel afforded some ides of the terrible blow she had received. The orushed deck was known as the forward whaleback. It was constructed of four-inch pice glank, resting upon massive i on beams. These in turn were upbeld by three-inch, iron rod stanchions. The yest inch iron rod stanchions. The vast volume of water struck the whaleback about fitteen feet from the stem and outshed in a section twenty-nine feet in length and extending the full width of the Nine beam's and sixteen P'ar chions were crushed in upon the forecastle deck where the victims were genered. It will cost about \$5 000 to ppir the vareal. Second Officer Enoff, who was on watch then the acquide at occurred, save : " I was on the m in bridge wheat noticed an enor-mous wave on the starboard. The next in-start another towering wave joined it from the port side. They seemed to lesp into the pire is they mingled. They make have been forty feet high, as I have their united mass above the lower yard of the foremast Then came a ora-h of the water u on the deck. It sounded louder than a dczm cannons fired at once. The water swept from one end to the other of the main deck and carried everything before it. As

sion as possible we cleared away the wreck and got out the dead and injured.

# FELL IN BATTLE.

African King Kun Through the Body A London cable says : A despaton has been received from Goree, Dakr, in Benegal, Africa, arnoutcing the death in battle of King Sims Limbelol, of Ciyar. The King appeared at Tivomane, in Cayar, with a number of followers and mounted Sr Michael Hick. Bach and Lord Ash-stendants under arme for the purpose of collecting a tribute, to which he bely very himself to be entutled by treaty. His demand was met with a refusal by the inhabitants of the place, whereupon so ce of this followers began to pillage the town The mere lands as tratees, the sgent of the estate Canon D. notice and Fathers Heary and Felan, as trustees, the sect of the estate having refared to grant a reduction. The payments were made in an orderly and tu inclus like manuer, the total amount exceeding \$5,000 Mr. Redmond, in a speech, said the moment Lord D.frayne decided to accept the money is would be turened over to him. If he tried evicion the sense would be to tot for him and The merc lants and traders telegraphed for aid to the Governor of S. L uis, a town under Freich protection, and the Givern-ment sent a captain of the army and twenty five soldiers to the some of the After a sword combat with a French list a sword coulds with a decided to accept the money it would be French list cannot be the device i nurred over to him. If he tried evic ion the King was run through the body and the tenants wou'd make it hot for him, and

but the perpetual additions to the burdens of the people. At exhaustive examination of the Giverimin's financial proposals should precede the acceptance of the Bill. Under any conditions the R foldstag should reject the septemate, limiting the term to three years at most, with two years' service. He protested against the plan of making the peace effective force could to A Washington despatch says: Commis-sioner C laman, of the D-partment of Agriculture, in his report alludes to the spread of pleuro pneumonis. Every effort possible under existing laws, says the re-gort, has been made to locate the diseased animals and isolate all that have been ex-ead. It would have been most fortunate making the peace effective force equal to 1 per cent. of the population. Gen. Von Schellendorff, in the course of his reply, stated that the Government had only decided a tew days before the oused. It would have been most fortunat summoning of the Reichstag to fix April as the date for the Military Bill to come is every animal exposed to the disease and liable to contract it could have been sum marily slaughtered and the contagion thus

in force. Herr Saldern spoke in favor of the Bill and recommended that it be adopted witheradicated. The experience of all countrie has been that the malady may be thoroughly and completely stamped out in this way, and there is no other means The House then adjourned.

DEATH BY FREEZING.

The Peculiar Sensations Described by this character at Chicago it has been truly ead that the cattle i du try of this country has reached a crisis. There can be no Minister. In an address at Pottstown, Pa., Rev. doubt that it will be soon and widely dis ames Neill related the following narrative : Oue winter's day I left Mauch Chunk for seminated unless prompt and efficitual astion can be instituted for its speedy sup-pression. To prevent the spread of this scourge, which has already greatly affected an appointment in the mountains. In the valley the thermometer registered 16° below zero, and when I reached the plateau is touched 21° below, with the wind blow-ing twenty miles per hour. Presently I experienced tharp, pieroing pains through-out my b dy, and every nerve was afficied. In a short time the pain ceased in the lower extremities and gradually passed apward auth I was entirely free from suffering. I covgratulated myself that I was getting along so nicely, and spoke encouragingly to my bardy and faithful pony. In a f.w moments I telt sensa-tions of intene bappiness; a thousand rainbows danced better my vision, scraphic cong of a west muldies wounded in my

songs of sweet melodies sounded in my ears, and I felt that I was being borne upward on wings of delight, when sud-dealy I felts severe shock, and realized that I had falten (ff my horse to the frozen ground. The shock of the fall recalled me

ground. The shoes of the fall recalled me partially to my senses, and I realized that it was freezing to death. I sattempted to nove my feet and arms, but ould not. With an effort born of desperation, I sco-ceded finally in dragging myself a few yards over the hard ground. The time as many weeks to me. My pury seemed to comprehend my situation and came and nubbed his nose on my face; the warm breath was on my cheek. The exercise of crawling revived me a little, and I finally succ.eded in getting myself into an up-right position, leaning heavily against

right position, leaning heavily against my pony, who new slowly started onward. A'ter going a short distance I met the farmer and his son, who were expecting m : at their home, and who, becoming alarmed at my prolonged absence, started ous to see what was wrong. When I was taken ito their house I swooned, and when I sgain awoke I was standing in a barrel of

The father referred ce. The following resolution

#### HER FIRST CONCERT. LADIES SHAVED BY LIGHTNING What Christine Nilsson Earned on

A simple and Painless Operation to Be move Moustache from Fair Fa First Journey.

The permanent removal f hair from th Louis E.gel, in his "From M zart to Mario," writes thus of Nilsson's youth: "In a little but smong tall lines, on the estate of Count Hamilton, near Wexio, in Swiden, the hut consisting of two roome, belonging to a poor forester, on Angust 20.h in the year 1843 was born a little tow-headed girl, the youngest of seven ohidren, who never is he uncess especiesly questioned, but could ally sang, trying to imitate the birds or the marmuring of the wa ers-in fact, obeying an inner impulse to imitate the great midels of nature, never having heard anything else. The part of the forest belonged whore she had first seen the light of day, was a few miles distant from Wexio, and the highest ambi-tion of the poor children was to be able to gest to the for of Wexio aut earn a few pence somehow in that great to more that The permanent removal f hair from the face of a lovely or unlovely woman has heretofore been considered an impossible achievement. To make the hair grow on the bald pate of an elderly gentleman has always been a doubiful experiment, some asserting that it can, others that it cannot be done, but the eradication of the hair was considered impossible. Now the re-moval of hair, even a big moustache, an impérial and whithers can be taken off without leaving a trace or scar. Moreover, when projer's performed by an expert electrical surgeon or surgical electrician, whichever you choces to call the operating doctor, not a hair ever grows there again. Testerday I saw the operation performed by Dr W. H. King, and was enlightened at the same time as to how the electrical cur-rent was applied and made to do its work. In the first place, a présty young girl of about 19 who was the subject of the opera-tion, tock her seat be fire a large window in the doctor's operating chair. She was a changing and arranging his galvanic hattery. A fine neadle made so do its work. Louis Esgel, in his "From M zart t a lovely or unlovely woman has ger to the fair of weak and shad earn a few pence somehow in that great town of some 1,800 inhabitants. In order to reach that glorious result, little Christine, who had taught berself to play ou a small fiddle which belonged to her elder brother—and battery. A fine needle, made especially battery. A fine needle, made especially for the purpose, was carefully inserted into the skin of the young lady's upper lip, just where the first hair to be eradicated which you can see any day you pease ing the magaificent mansion she has built for herself in Suth Kunsington -- entered into partnership with her brother, who was already her inferior as a violinist, and they already her inferior as a violinist, and they started out together for the celebrated Wexio. \* \* On they went, per pedes "Apotolorum, until they reached, on their wsy Ljung-by-by means village--where the young violinist accompanied her own voice in the few Swedish national songs she then had beard and retained in her precocicus memory. With great pride she relates that this her first open air concerts brought her the treasure of three-nange "The needle is now in the bair folliel itself, 'said the doctor. "You see, she has

tot flicehed. It has given her no pain t indent the needle, for it is too sharp an flue to be felt. Now, I will connect th needle with this needle. nue to be feit. Now, I will connect the needle with this negative pole of the bat-tery, j ist so, while this positive pole is con-nected with this flat piece of metal, an ele crode, placed on her check. It can be placed on any part of the body, the object heing simply to complete the alertic the the cing simply to complete the electric cur

"Ah! it s ings !' oried the young girl

but she did not move. ' It is more or less painful," continued the doctor, after a little soothing attention the boots of the boots of the boots of the boots of the basis of the b

the hair without giving the young lady any pain. Q lickly inserting the needle in another follicle he repeated the operation, and this time the patient only gave a slight shiver. She smiled and said :

"It is less painfal, or I have become countomed to it. Go on doctor." The operation was continued, the operaor taking out from about five to ten

tor taking out from about five to ten haves every minute. This was continued for thirty minutes, the length of time allowed by D. King for each sitting, both patient and physician needing rest after that length of time. While the operation was going on I interviewed the doctor thas: "How long has it been sizes this opera-tion was performed?" "Dr Grorge H Fox, some eight years ago-I thuk it was in 1878 - read before

ion of the great prima donna's fortune by the present of untold weighth a sizperce. Obristine, slicady frightened with the resp nibility of carrying her Ljug by ago-I totak it was in 1878 ergst years ago-I totak it was in 1878 ergst before the Naw York State Modical Society a paper on the subject of the permanent fem val chair by electrolosit. Since then most of the electricians in this sity have funds, suddenly grown rich beyond her expectations, with great firmness insisted n thir immediate return to the only blace where so much money could safely is invested or deposited—their father's been making use of D.: Fox's process. With only slight variations, the operation is practically the same as that first de-scribed by D.: Fox" "Is it a difficult or dangerous opera-tion?" "You can see, in one of Christine's great salons, the little shirt, which did not descend to the ankle, the toilette dejoar of her first concert, minus the least

tion?" "Neither difficult nor dangerous in the hands of a good electrician. Is requires fine eyesight, a good light, a steady hand and nerve, and great patience on the part of the operator as well as the patient. If operated by a skil'ul surgeon is can be per formed in about as many sittings as will be required to take out from 100 to 250 be required to take out from 100 to 250 hairs a day. One sitting a day, half an bour long, is all that a judicious operator will allow."

will allow." "Will not some of the hairs grow again ?" "Yes, a few. If the operator has skill and experience there will probably be a growth of from 5 per cent, to 10 per cent, of the hair removed. If a tyro performs the operation performs 20 or for some forms. the operation perhaps 30 or 50 per cest. will return. Then it will be only neces-

sary to repeat the operation." "Is the operation frequently per-formed?" "Yes; as it becomes known it is more

frequently called for, and the practice is on the increase."

"Dies it leave a scar?" "N tu uless the hair is coarse and deep-set. Then there will be marks that will not disappear under a week, perhaps, and perhaps in a few days. If the hairs are face the electrolysis will not oause more than a slight redness, which will disar pear perhaps fice the in a few hours.

Kennedy, the Scoth WH Vocaliar

(To his memory, by Mr. Thom. **J** Lai 'aw, Bard of the Guelpa bt. Andrew's 'Seet 'aw, Bard To-night we lift the minstrel ha.'p With tears of sorrow wes, And strikes with reverent hand its chords To wailings of regret-We strike in numbers sad and low, And dirgeful notes prolong; We mourn tc-night for one who reigned A Prince of Scottish song.

His songs were fragrant with the breath Of broom and heather bells, They eckeed to the murnuring streams And music of the dells; He brought auld Scottish scenes to view, As if by magic wand; We loved him! O, " a nicht at hame " Wi' Kennedy was grand.

..

The sighs and vows that lovers breathe A signs and vows that lovers breath were excred in his bands. Ho wove them into garlands rare, In twined with vestal bands, A swith stuthant well He sang how independent minds All other minds exc.l.

With all the bearings of a prince To front with battle brought, He grandly sang of honored fields By Scottish valor fought. He held us, as he seemed to rend Ho held us, as he seemed to rend Tyrannic chains with scorn, And bore us with him as he soared On wing of freedom borne.

He sketched the lore of Scotish song With true perceptive art; His stories, with a wondrois power, Revealed the human heart; Now tender, pawky, shrewd and wise, Anon with humor rife. As told by him with unction rare, Were true to cottish lite.

His voice had stirred the flagging soul And rapturous plaudits won In every clime, in wintry zones, Or 'neath the tropic's sun; And in our land, whose shores again His welcome foot had prest, Expectanc reigned in every heart, The heart to joy confessed.

Alas for here by contessed. Alas for here within you room The Scottish Minstrel ites, Where weeping friends, close round his bed, And breathe their dende sighs; Hand class with here with conching glance bay more than words can say.

He breathes a wish to hear that hymn The breaches a wish to hear that byn The "Rock of ages Cleft," Friends in that deeply solemn hour Their transmission of the sole of the transmission of the sole of the sole of the transmission of the sole of th

Yet, though on earth his voice was hushed And on a foreign strand, lis dust is in the auld kirk yard And in his native land, And in his native land, Amid the scence of which he sang, Of which he was a part; Where on his grave the lark doth rai The music of its heart.

Ye autumn winds that drift the lea With heavily buildened sigh. Ye liupid streams that gently flow Beneath a leaden sky. In concert sing with muffled voice, And join ye woodland throng And join ye woodland throng In liquid notes, for one who reigned, A Prince of Scottish song.

ing, when the oil is applied, but feel damp, not wet, however. The best nixture fir oil-ing shoes is made of one half of neave-foot oil—te sure you get the ginbine article— one third beef tallow, and one-sixth of castor oil. Mix thoroughly over a gentle heat. Depend upon the rabbing rather than the heat to get the oi—to express it d fir-outly, two parts of rubling to one of heat. If the shoes are pegged, as farmers' shoes usually are and always should be, get the oil in well between the unpers and sides : i i n well between the uppers and sles; i will prevent the sole pulli gloce or the leather breaking away from the pegs. Shoes worn at farm work should be oiled at least

minutes to do the work and it is decidedly profitable labor.

Came From the Backwoods.

Jonas Moore, a s'ok, broken-dowa miner, started in a steamship from San Francisco for Panama, along with 100 other wretched miners as miserable as himself. Death was at work among these " returning Cali-forniane," and again and again the steward would bring the commander a massage imilar to this one :

"Osptsin, that man in N. 30 is dead." "Dead!" repeated the captain. "Got a sack, put in a bushel of co.l, bring the body into the cabin that we may read the service over him, and bury him "Ring the bell for the passengers to

attend the funeral serv cee," was the next order. The burial service of the prayer order. The burnal ervice of the prayer-book having been read, the body, with the sack of coal tied to it, was placed on a plank and dropped into the sea. One day the steward announced that "the man in 65 was dead." It was Moore's room, and the captain went in "o look at the body. The dead man's face was covered with a dirty, grizz'y heard. beard.

"Why, it's too bad to bury a man in this sondition," exclaimed the captain. " Call a barber, and let him shave the man. won't read the set vo your such a sava te-looking object. I'll give the fellow a decent burial. The barber came and began to shave

the corpse. Parhaps the barber scraped the ace a little roughly, for Jonas opened bi eyes. The barber continued to shave, and harged the resu citated man \$5 for the

What do you think?' whispered Moore The barber charged me \$5 "Chesp," answered the friend. "That abave saved your life."

Moore grew better, reached St. Louis, and lived there for many years.-Youth's ompanion.

Seventy five years ago Uriel Crocker and O myn Brewster were apprenticed to learn the printer's trade of Samuel T. Armstrong of Boston. On the first Mon-day after Thankeg ving Day these two young men met, and thus virtually entered in a partnership, and which has continue without break until now. On Monday th partners, one 90 and the other 89 years old celebrated the 75th antiversary of their business connection

In order to render papers as tough a wood or leather a plan has been devised which, it is said, effectually accompliabes that purpers, namely, by combining chloride of zinc with the pulp in the course of manufacture. It has been found that the greater the degree of concentration of the zicc solution the greater will be the toughness of the paper, and that it is thus serviceable for making boxes, combs, etc.

Mrs. Lungtry is said to be writing novel dealing with English life in England and America.

The young lady who had been operated upon seemed willing to have all the hair removed in one sitting About one-half bad been taken cff, or "lifted out," as the loctor expressed it. before she rose from the chai but Dr. King said that he never permitted a patient to sit for the operation longer than half an hour. So she reluctantly put on a veil to hide the half tacking put on a ven to inte the hair mustaches which remained on her pretty face. Of course she promised to return next day for the completion of the elec-trolypin, and of course she kept her promise. New York Sum romise .- New York Sun.

#### A Catching Disease.

"There is something treacherous and unlucky about an opal," she said to her bueband; "I prefer that my wealth should be in which and dimension if non which there?" e in rubies and diamonds-if you please. Yes, Jennie," he carelessly rema but the O ientals don't think so; remarked Darital of Turkey is Constant-in-opal, you carten of "There !" she oried; "it's softsning of the brain ! I knew you'd catch the same disease that Mrs. Briggs' usband died of," and she burst into tears. Washington Post.

### He Understood It.

In Miss Edith's school, the other day, the reading lesson contained some reference to "a ferocious Gaul," and desiring to have the expression fully understood, she seked its meaning. There was a momen's sileuce, when a bright boy arose and responded: "Please m.'am, it means a terrible lot of cheek."-Pittsburg Chronicle

A new operatio star, Fraulein Anna Kirbel, is creasing a great sensation in Nor-way. Ole Bull's con Alexander, among other experts, is said to have predicted that Fraulein Kirbel will throw Jenny Lind into the shade. She is 23 years of age A Vianna despatch says : The director of the Imperial theatres has prohibited the of ring of bocquets to actreases in the Hof o Palace Theatre and the Opera House, on the ground that the prastice has grown

### to an absurd extent.

The report is again current that Mr Irving will, towards the close of 1887 or the beginning of 1888, take "Fanst" across the Allantic, and give a series of perform-ances in New York, Baston, Chicago and Puilsdelphia. The contract, it is said, was signed last week It is probable that no ther cities will be visited owing to the expense of transporting the scenery by rail-Mr. Likin, son of the proprietor of a coal a L icester, England, descend d the shaft, fearing that something was wrong. He did not return, and a brother followed him. As he also failed to return, another brother and then the father descended. As none of them came back careful search was made, which resulted in the finding of all four dead from choke damy.

In making a boring for natural gas at Omaha, Neb., at a depth of 511 feet the drill penetrated a 7 foot vein of bituminous cal. There is great rejicing in conse-uence, and the probability of finding gas coal. is increased by the presence of the cosl.

A Disappointment.-An English lord who visited America was at a dinner in his honor. A little daughter of who was too well bred to stare, but who eyed him covertly as the occasion presented itself, finally vontured to remark, "And you are really and truly an E-glish lord?" "Yes," he answered pleasantly, "really and truly." "I have of an thought I would like to see an English lord," she went on, "and and "" "And now you are savisfied at last?" he put in laughingly. "N-o," replied the truthful livite girl, "I'm not satisfied. I'm a good deal disappointed !'
