Unused Tools.

'It doesn't look much like the old ome' as I remember it," an elderly usiness man who had been visiting haunts of his boyhood said to. friend. "The lawn isn't cared for, most of the trees and shrubs are dead, and the garden that father took so much pride in is overgrown with burdocks and brambles. The orchard is growing old like the rest of us, but ere's fine fruit there still, though the trees need pruning. But the sad-dest thing I saw was the old tool house. It's falling to pieces,' and the rusty tools hang there-unused. Sam had all-the equipment father ever had to make the place attractive, but he hasn't used it."

Garden tools are not the only ones we can neglect. Not long ago a city banker stopped his car at a farmhouse to ask his way. In the woman who came to the door he recognized Amelia Webster, an old schoolmate whom he remembered as having been the pret tiest and brightest girl in the academy they had both attended. She was a taded, slatternly woman, and her house was ill-kept and unattractive. Her visitor reminded her that she had led her classes in history and literature and had even written creditable poetry.

"I never read anything now except the newspaper and not much of that," she said dully. "Sometimes the girls come to me with their sums and their hard questions, but I'm too rusty to help them much. The work round the house is more than I can tend to."

Amelia's prettiness of face and sprightliness of manner had disap-peared-killed by sluggish indiffer-The knowledge and cultivation ence. that her school course had given her might have been invaluable to her as a mother, but she had never used them. Killed, too, was the imagination that had once made her little poems welcome at the office of the village paper, and that might have been a priceless resource in her maturer years. She was less attractive. less

happy, less useful, than God had in-tended she should be. The tumble-down tool house with its array of un-used, rusty tools—what is it but a sym-bol of unused faculties, of a shrunken and withered soul? GOOD HEALTH

'Possums Menace.

New Zealand has a native spe of opossum which wears a very beant ful fur. It is not at all like the 'pos mum that we know in this country. Many years ago it was infreduced into Australia and, finding there none far more important is that you should intelligently examine the various symptoms and trace the cause. When you remove the cause, health will be yours. For example, anaemic people often endura months of suffering while treating its symptoms, such as indigestion, shortness of breath, palof the natural enemies that preyed up-on it in its own land, it has since in-creased in numbers until it has become a serious pest. It is a robber of fruit trees.

However, the value of the animal for its fur is so great as to outweigh the damage it does in the fruit-grow ing sections, and in view of this fact, the Australians are encouraging the increase of opossums in forest dis Their skins are becoming a tricts. considerable item of export, and al ready many of them are made up into fashionable garments for women in may have arisen from overwork, wor-ry or too little fresh air. Surnames and Their Origin

HILL

Variations - Hull, Hellier, Hilyer, Helier, Hillman, Helman, Heilman. Racial Origin—English. Bource-Locality also occupation.

This is a most widespread group of family names, the one most frequently met with being Till, with probably Hillman, Hull and Hilver next in order. They are all of them English names, and all trace back to an old Anglo-Saxon word which has come down to us almost unchanged, and is In as common use to-day as it was in the reign of Alfred the Great. The word is (just what you think it is) 'hill.' But all of the family names in this

group have not developed from this word in the same manner. The name of Hill, as well as Hull, is

In the vast majority of cases a mere contraction of the old description phrase "at the hill" or "of the hill," used to designate persons who hap pened to dwell on or near such eminences. In the varied spellings of the SCOTT

Variations-Scotti, Schott. Racial Origin-Doubtful. Source-Also doubtful. Here is a family name that is a good

bit of a puzzle, both as to racial origin and source. The obvious explanation, but one which is not entirely satisfactory, is that it was originally a name added to the given name in order to describe nationality. Undoubtedly this actually is the true origin of the name in a great many cases, for in the old Eng lish records there are instances of such names as "Malcolm le Scot," which, of course, could have no other meaning.

But this does not explain every thing. There are more ancient re cords in Italy, in France and in Ger many, as well as Anglo-Saxon Eng land, which prove that "Scot," in one form or another. was rather wide spread as a given name, and not as a

descriptive name. Latin inscription give us the form "Scotnus" and "Scoto," the latter apparently being late Norman days, the surname oc-runs as "de la Hill," "de la Hull," "de Franks who lized in the northern part of France. The name was also com mon among the subjects of the Emperor Charlemagne and among other Teutonic races as "Scotardus," with syllable, it is to be noted, similar to Richard, Reynard, Leonard, etc., distinctly Teutonic compound. It was also an Anglo-Saxon given name, as 'Scota," and the place-name Scottowe is simply a development of the Anglo-Saxon "Scoteho" or "grave of Scota." In those days there was no such name as Scotland, though in the Celtic ongue Ireland was known as "Scota." It was not until the Middle Ages that, as the name of a country, it was transferred to Scotland in common usage. The existence of the family name in so many countries indicates it often developed from the given name, but where the given name first appeared is still a mystery. Winter is a dangerous season for the little ones. The days are change-able-one bright, the next one cold and stormy, that the mother is atraid to take the children out for the freeh air and exercise they need so much. In consequence they are often cooped up in overheated, badly venti-lated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and howels ' and drive out colds and by their use the baby will be able to get over the winter season Winter is be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Wil-liams' Medicine Co., Brockville, Ont.

Finland is **Prosperous**.

There is no unemployment in Fin-land, says M. Vilijanef, chief of the Trade and Industry Department of the Finish government, who is visiting in England. He attributed Finland's good fortune in this respect, as com-pared to most other countries, to the prohibition of imports. This had the affect of making the country's indus-

trial production greater than at the beginning of the war. Finland is now considering the ad-visability of gradually discontinuing the embargo on imports, he said. This country has begun to transship goods for Russia and has established a free port at Hango.

ia Helle" and "atte (at the) Helle." With the other variations another method of development is responsible for the modern names. This word "hill," or "hull" was also used figuralively to denote a roof, and also for the verb "to roof." An abstract from an ancient document reads: "Whyt eley and red for to make crokkes (crocks) and other vessels and barned (burnt) tyyl (tile) to hele houses and churches." Again, Wickyffe, in the translation of one Bible passage, says: The schip (ship) was hilid (hiller or covered) with wavis."

The words "hilyer" and "hillman," therefore, were descriptive of occupastons, which explains why these family in their varied spellings are not within the old records in such forms as "Roger de Hillyer," "Ivo le Helier" and "John le Hilman."

"DANDERINE" Girls! Famous Chapel Under Repair.

The famous St. George's Chapel of Windsor Castle will be closed, for three years, for extensive restoration work, the need of which is so pressing that architects would not guarantee the chapel to stand another year without the collapse of the roof, which would mean the utter destruction of the fabric, with all its celebrated artistic and historic glories. The chapel stands within the walls of the castle, but it is a freehold of the State and the State money can-not be spent for these improvements. The question of the expense has been taken up by the Knights of the Order of the Garter, for whose use the chapel originally was founded, and in order to distribute the burden the work will be spread over a period of four years. Already \$125,000 has been collected, which will meet the expense of the first year's work. The repairs will consist of replacing the decayed material without much alteration

Calling in Cairo. Englishmen who do not know Cairo sometimes take houses in remote and undesirable parts of the city. In Egypt as We Knew It, Mrs. E. L. Butcher amusingly describes how hard it is to find a person who has thus gone astray. Her husband, she says, wrote to a doctor for the address of some friends whom she knew he had attended. Here is the doctor's ans-wer: "The M—'s live in a house without a number in a street without a name next door to an Armenian butcher who, I think, has no sign, west of Abdin Palace! The staircase has eighty-seven steps." some friends whom she knew he had of Abdin Palace! The staircase has eighty-seven steps."
