## IN OLD LONDON.

**Tory Revival, Sweeps Liberals in Elections of Borough Councils—Also in Provincial Municipal Contests.**

London, Nov. 3.—The triennial elections of the London Borough Councils have resulted in an overwhelming victory for the municipal reformers, who in some of the boroughs, absolutely wiped out the progressives. The victors were formerly known as Moderates and represent the Unionist party, and the Progressives the Liberal and Labor parties.

## Stronghold of Toryism.

After several years of Progressive regime, during which, it is contended, the taxes were increased to abnormal figures in consequence of huge expenditures, including palatial workhouses, Turkish baths for workmen, and other similar municipal luxuries, the borough councils are once again great strongholds of Toryism. The full figures are not yet available, but up to noon yesterday the Municipal Reformers had won 610 seats, the Progressives 222, and the Labor and Independent candidates 77 out of a total of 1,302.

## Liberals Routed in Provinces.

The provincial municipal elections have also resulted in a rout for the Liberals. The campaigns in the provinces were mostly conducted on political party lines. The Liberals, who had the reputation of being the party of the people, have sustained a net loss of 33 representatives and that the Conservatives have a net gain of 53. The Labor party has a net gain of 9.

In London the Labor party candidates seemed to have had a favorable start, but the Progressives but they made small gains in the provinces.

## DAMAGING EVIDENCE.

**Doyle's Brother-in-Law Saw Accused With the Murdered Man.**

Morden, Man., Nov. 3.—Gradually the crown drawing tighter a web of evidence about Doyle, charged with the murder of Vincent Weller. Eight witnesses were heard yesterday, all Americans from the dead man's home. The most damaging evidence was given by Matthew Kartes, brother-in-law of the prisoner, who testified to having seen Doyle and Weller together on the day before the alleged murder. Two witnesses testified to seeing Weller and Doyle driving towards the scene of the tragedy on the morning of that date.

The crown has given up all hope of locating its star witness, Ernest Bailey, who has mysteriously disappeared. It is the general impression here that he has been made away with.

## KLEINGEIL CONVICTED.

**Belleville Jury Says Old Man Is Guilty of Manslaughter.**

Belleville, Nov. 3.—The jury in the Kleingel murder case were nearly five hours in reaching a verdict yesterday. They got the case at 10 a. m. and it was almost 3 p. m. when they came into court with a verdict of manslaughter, with a recommendation to mercy. Judge Britton discharged the jury without comment, though he had told them in his charge that a verdict of manslaughter could not be logically rendered. The judge announced that he would reserve sentence.

The prisoner, who is over 70 years of age, flushed deeply when the verdict was announced, but made no other sign. The verdict gives almost universal satisfaction in this city.

## HAVE THE WOMAN.

**Russ Police Arrest the Jewess, But Didn't Get the Cash.**

London, Nov. 3.—A despatch to a news agency from St. Petersburg yesterday says that the woman who escaped with the \$188,828 stolen from the Treasury wagon, Oct. 27, has been arrested. She is described as a Jewess belonging to Simpheropol, capital of Taurida Province.

## Terrorism in Baltic.

St. Petersburg, Nov. 3.—A state of siege has again been proclaimed in the Baltic provinces on account of the continuance of revolutionary terrorism. The inhabitants have been forbidden to leave their houses after 7 o'clock in the evening, under a penalty of a fine of \$75.

## ROSS RIFLE DEFECTIVE.

**Practical Test of 1,000 Proves Inefficient Workmanship.**

Ottawa, Nov. 3.—(Globe Special.)—There will now be a searching investigation into the alleged defects in the Ross rifle, of which weapon 30,000 were some time ago ordered by the Militia Department.

It is stated that the practical test of the one thousand rifles issued to the Mounted Police has demonstrated that the bolts and springs are not, as they should be, of highly tempered steel, while the butt is brittle and liable to break very easily. Repeated tests are said to have demonstrated that the rifle jams very quickly with repeated use.

## To Have Street Car Strike.

Hamilton, Nov. 3.—Hamilton will have a street railway strike, commencing Sunday, judging by the talk of the men last night. The company, so the men claim, agreed to put the arbitrators' award into effect 21 days after the award was given. Some 41 days have elapsed and the award has not been put in force yet. The men will have a mass meeting at midnight Saturday, and it seems to be a certainty that they will strike. The Trade Council will give them every assistance.

## Sergeant's Dramatic Suicide.

Treves, Rheinland Prussia, Nov. 3.—Yesterday while several squads of the 29th Regiment of infantry were undergoing rifle instruction with blank cartridges a sergeant of one squad fell dead with four bullets through his breast. It developed that he had himself loaded the rifles of the squad with ball cartridges and directed the recruits to aim at his breast and pull the triggers when he exclaimed "His Majesty—Hurrah!" The cause of the sergeant's suicide has not been ascertained.

## Nervous Women

**Their Sufferings Are Usually Due to Female Disorders Perhaps Unsuspected.**

## A MEDICINE THAT CURES

Can we dispute the well-known fact that Canadian women are nervous? How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "I don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nineteenth-century nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the abdominal region and between the shoulders; loss of voice; nervous dyspepsia; a tendency to cry at the least provocation—all this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering as surely as Lydia E. Pinkham's Vegetable Compound.

Miss Lela Stowell, of 177 Wellington St., Kingston, Ont., writes:

"Your Medicine is indeed a Godsend to suffering women, and I only wish that they all knew what it can do for them and that there be no need of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, nervousness and excruciating headaches, but a few bottles of your Vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness is, and I have enjoyed the best of health now for over four years. Lydia E. Pinkham's Vegetable Compound has sent sunshine into thousands of homes and hearts."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

## Newfoundland and Canada.

Canadians who desire to be patriotic (and who does not?) can do no more patriotic thing these days than to cultivate a knowledge of Newfoundland. The union of Newfoundland and Canada would be a good thing for both, but it must be a union based on mutual understanding. If Canadians would spend more of their holidays there they would be assisting in the work of reaching a good understanding on both sides. This is a fine opportunity with the question of improved communication. Canada is by all odds Newfoundland's nearest neighbor, and, with good railway and steamship connections, will come increased travel and trade and increased desire for closer union. Newfoundland is as yet a land of extractive industries, and these along with few lines. The development of manufacturing in the Maritime Provinces will thus provide work for the fishermen of Newfoundland in the winter and bring about a closer bond of union than anything else could. In this connection The St. John's (Newfoundland) Herald speaks of the prospects for the coming winter in a way which shows how important the trade between the old colony, and what danger there is of the good work being nullified by the influence of the Eastern States. It says: "Owing to the suspension of some of the northern mines and the intended stoppage of some of the principal saw-mills in the interior this fall, there will be some hundreds of men thrown out of employment, and though the Wabana mines will absorb a goodly number it is doubtful if they will have room for all who are seeking work and the rest may have to migrate to Sydney or the Eastern States for the winter, to procure lucrative occupation. It is feared by careful observers that there will not be as good times in St. John's this fall and winter as in previous years."

cured a foothold in the North-West, at Winnipeg, and on the Pacific coast. The first bishop in the West was consecrated in 1849. Since then the Territories have been divided into dioceses, and the bishop stationed at Winnipeg, and bearing the title of Bishop of Rupert's Land, holds the office of metropolitan. The Church on the Pacific coast had no governing connection with the Church under the Bishop of Rupert's Land, and was thus separate and self-governing. In 1890 there were practically three episcopal bodies in Canada, each, of course, restricted to its own geographical sphere. It was felt that this situation was unwise.

For this reason conventions were held, first at Toronto, and afterwards at Winnipeg, with union in view. It took a great deal of time and much consideration to get a basis for union, and the case was the more delicate seeing that the Church was practically setting up for itself, and breaking loose, in so far as the governing body is concerned, from the mother Church, which had devoted so much of effort and of means for the promotion of religious work in Canada. But the measure was successfully carried through. The entire Church became, in 1890, one body extending from the Atlantic to the Pacific, and having complete power in such matters as worship and doctrine. The Church, under the new system, is democratic. In the parishes the people of the parish rule. In each diocese the bishop is elected by the synod, which has charge of the temporalities. There are two "provinces" or collections of dioceses—one east of Lake Superior and the other west—and each has its metropolitan, who becomes an archbishop.

The two provinces form the General Synod of Canada, and the chief bishop is the Primate. The manner of choosing the chief dignitaries is not uninteresting. In the west the metropolitan is always from the mother Church of Rupert's Land. No bishop, other than the Bishop of Rupert's Land, can hold the office. Seeing that the metropolitan has a dual position, that of bishop, to which he is elected by the synod, and that of metropolitan, to which he is elected by the House of Bishops, a special plan of appointment is devised for his particular case. When there is a vacancy in the Diocese of Rupert's Land the synod agrees upon two names, and the House of Bishops selects one of the two as its preference. The clergyman thus chosen becomes bishop of the diocese, and metropolitan, or archbishop, of the ecclesiastical province. While this is the method of appointment in the West, seniority is the principle observed in the East.

## THE ANGLICAN PRIMACY

**CHURCH IN CANADA AND ITS RULES REGARDING OFFICIALS.**

**Church Consolidated Into One Body, and New Election of Primate of All Canada Is in Order Through the Death of His Grace Archbishop Bond, a Prelate of Wide-Reach Influence.**

By the death of his Grace Archbishop Bond, of Montreal, the Episcopal Church in Canada has lost a prelate of wide-reaching influence, who was beloved, not alone by his own flock, but by Christians worshipping under many different designations. The sad event also has its effect upon what may be termed the machinery of the Church, for it vacates the high office of Primate, or chief bishop, within Canada, and necessitates another appointment to that important position.

It is of interest to know that the Primacy was instituted in the year 1890, when the Anglican Church in the Dominion was consolidated and made one body. Originally the Canadian Anglican Church was in three geographical divisions. This arose from the fact that the ministrations were introduced at different and very distant points. The first division was planted at Halifax. Here, after the Revolution, loyalists settled, and among them Rev. Charles Inglis, who up to that time had been rector of Trinity parish, New York. Dr. Inglis was soon after his removal to Halifax appointed bishop of all Canada. He had jurisdiction from the Atlantic to as far west as he cared to go. Six years later, however, or in 1793, the Diocese of Quebec was carved out of the Diocese of Halifax, and Dr. Mountain was sent from England to take charge. From the Diocese of Quebec that of Toronto was formed, in 1839, with Dr. Strachan as the first bishop.

The dioceses of old Canada were subsequently sub-divided, and all in time formed what was known as the Province of Canada, with the senior bishop as the metropolitan or principal member of the episcopate. While the Church was gaining strength in Canada proper, the Episcopalian se-

That deep band of color used to edge the coverings of down quilts or the lightweight cotton filled ones so satisfactory for summer weather is there for a purpose quite aside from that of beauty or effectiveness. It is always the edges that soil first, and it was to protect them that the bands of solid color, usually much darker than the material of the quilt, were first used. If your summer quilts haven't been easily ripped off and fresh ones substituted when they finally succumb to soil. to archbishop, and it is invariably the case that the prelate who has been longest in the episcopal ranks is chosen for the honor. This principle of action was introduced after much discussion, during which it was claimed that Montreal ought always to be the archiepiscopal see. The metropolitan of a province is named by the House of Bishops of that province. Similarly, the Primate of All Canada is chosen by the assembled bishops of all Canada at the meeting of the General Synod. It would not be reasonable to select as Primate a bishop who is not a metropolitan. To have as Primate a bishop who is subordinate to another bishop would indeed be absurd. One of the two metropolitans, therefore, must hold the Primacy, and the senior is called to it.

The position to-day points to the selection of the Bishop of Toronto as metropolitan of Eastern Canada, and Primate of All Canada.

## THE PARIS POST.

**Misdirected Letter and Tangle of Red Tape—Why Young Englishwoman Turned Away in Deep Depression.**

A young Englishwoman visiting in Paris received a note from a friend saying that tickets had been sent by an earlier post for a concert to take place that afternoon, but by error a wrong street number was written on the envelope. This, said her correspondent, might make a delay in the arrival of the letter, and it would be well to make inquiries at once at the post of the nearest division.

Arriving at the postoffice of our quarter, I made known my errand to three young gentlemen in succession. The last young gentleman took out a long paper and demanded peremptorily my name, age, address and birthplace. He was proceeding to that of my father and mother when I suggested that all this information, although doubtless of thrilling interest to the post-office, could scarcely assist in restoring my lost letter, which contained tickets I must positively have before 1 o'clock that day.

"Ha! It is then of a letter lost!" he cried, as though suddenly illuminated. "Well, misdirected, as I have already explained to three persons here."

"But it is not here where one brings the letters which find themselves badly directed. Those letters are united in another department of the great post. This document here"—he pointed to my biography—"the chief of my department will dispatch to the great post. One will make a communication to you as soon as traces of the letter are discovered."

At 11:30 when I reached the great post, and I was sent to five different departments before arriving at the one for misdirected letters. Feeling both snubbed and ill used, I inquired whether before we proceeded to fill in more forms this monsieur would kindly tell me whether there was the remotest chance of recovering the letter that day before 2 o'clock.

"To-day! This day itself!" he cried in shrill indignation. "Parbleu, but you imagine to yourself, then, madam, that the post conducts itself like an automobile!"

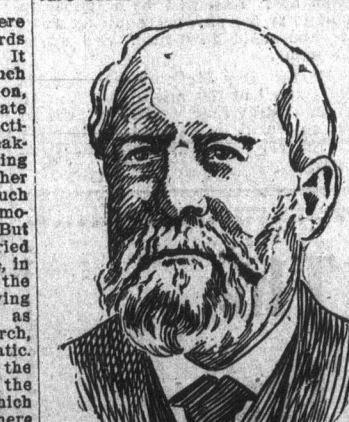

"I hoped that since my letter is here—actually here in this department—that one could place the hand on it in the course of two hours, in England." I continued, with a fine outburst of patriotism. "We have such a perfectly organized system that I should have the letter I required in ten minutes."

"Remind yourself that England is, after all, but an island. Here we are in France and—throw back his head proudly—"and here things march not so quickly. It will perhaps be fifteen days before your case comes up. Each must proceed in turn."

"Then it is useless to go into the matter," I answered, and in deep depression turned away.

**\$500,000 For His Library.**

Were it not for the financial misfortune which has overtaken Lord Amherst of Hackney—his lawyer absconded with half a million dollars of his money a few months ago—the libraries and collectors of England and America have been given an opportunity to purchase his famous literary treasures. With Lord Amherst's collection of rare books and manuscripts has been

the hobby of a lifetime. He began it fifty years ago, "before," as an English journal regretfully remarks, "American competition had arisen and when it was still possible for an English collector with money, taste, and knowledge to buy the finest books of all epochs." But it is the increase in prices created by the advent of the American millionaire which will enable Lord Amherst to obtain for his collection many times what its acquisition cost—sufficient to enable him to make good what the fiscally lawless stole from him and leave a handsome margin over for his own pocket—between \$400,000 and \$500,000 it is estimated.

## TURRET STEAMER STRANDS.

**But Her Crew Will Be Able to Get Ashore—A Score of Fishing Boats Wrecked.**

Charlottetown, P. E. I., Nov. 3.—A fierce gale has caused more or less damage on Prince Edward Island, and has driven schooners to seek shelter in Charlottetown harbor.

On the north side of the island some score of fishing boats are reported wrecked and destroyed. No loss of life is reported.

The most important incident is the stranding of the steamer Turret Belle of the Turret Line between Montreal and Liverpool. She went ashore at the north shore of this island. She is not considered to be in a dangerous position and no fears are entertained for the safety of her crew, who will be able to get ashore to-day when the weather moderates and the sea goes down.

At Kensington, in Prince County, the smoke-stack of Schurman's lumber factory was blown down, but no one was hurt.

The schooner Lillian was driven ashore at the entrance to Rustico harbor, coal laden, for Rustico. The crew were saved. The schooner is a total loss.

## CAUGHT IN A WRECK.

**G. T. R. Workmen May Die as Result of Injuries.**

Montreal, Nov. 3.—A serious collision occurred on the Grand Trunk near St. Bruno last night. Two construction trains crashed together and several of the men were caught in the wreck.

James Morrison of Deseronto, and Lorenzo Daneseau of Montreal were severely and probably fatally injured, having their legs cut off.

**Angus Gillan Killed.**

St. Thomas, Nov. 3.—Angus Gillan, formerly of the Dominion Express Co. at St. Thomas, met with sudden death in Detroit while driving J. P. Walker's automobile down Woodward avenue. When opposite Grand Circuit Park he ran into a street car and was thrown 25 feet across the pavement. He hit on his head, breaking his neck.

**Foreman Fatally Injured.**

Maybe you've found it hard to bring your colored clothes out of the wash clean and bright, without fading or running or looking messy. If you try "SURPRISE" soap you will see the difference in results. You know, "SURPRISE" is a pure soap, and there's nothing in it to hurt either the color or the fabric. And then no hard rubbing or boiling is necessary, so the colors don't get weakened and smudged.

Some folks say they would buy and use "SURPRISE" soap for colored clothes if it cost a dollar a cake, so it's pretty plain why so many people use it when it costs no more than common soap.
