GOT SIX MONTHS

Martha Browning Will not Frequent Her Favorite Haunts in the City Parks During the Next Six Months.

And the place that has known her so long will know her no more—for six months.

Such is the fate of Martha Browning, a well known character around town who was arrested last Saturday evening on a charge of vagrancy. She was given six months in the Andrew Mercer reformatory for females at Toronto, while James Dungey, the man who was found with her in Victoria Park late on Saturday night, was allowed to go as the by-law provides no way to punish him.

Martha was looking well when she appeared in the Police Court this morning. There was a large crowd present to hear the evidence in the case which promised to be very interesting, but Martha fooled them all by pleading guilty. She received her sentence in a matter of fact sort of way, and as this is the second time she has heard the judge pronounce a six months sentence upon her she seemed to be getting quite used to it.

Martha was sentenced under the statute as there is no by-law provided to put a stop of roaming around through the parks at all hours of the night.

"There should be a by-law against this kind of conduct," remarked Judge Houston, "and the power of punishment under the bylaw should be stronger as far as punishment goes. The fines are large enough but 21 days is the longest imprisonment under the by-law."

LEAVE FOR BATTLEFORD

Mr. and Mrs. Roy Tobey leave to-morrow for Battleford, N. W. T., where Mr. Tobey's brother Fred is now located on a large homestead.

They will go via Sarnia on the Northern Navigation Co.'s steamship line to Port Arthur and then to Winnipeg, where they will take in the Winnipeg Exhibition, then on to Battleford. Mr. Tobey has 170 acres of land at a beautiful summer resort near Battleford and he is going up to have a look at it.

About four months ago there was nothing but prairie at New Battleford and now there are three hotels in the course of erection. Residences and stores are going up fast and the Canadian Northern Railway are establishing large machine and repair shops. It promises to become a second Edmonton in a short time. Mr. Tobey is fortunate in securing so much land in such a valuable and desirable location.

Mr. and Mrs. Tobey expect to remain away from Chatham about three or four weeks.

HAD A SAIL

Detroit's Mistook City of Chatham for a Ferry Boat and Was Forced to Pay a Visit to Maple City

It is not an uncommon occurrence for a man to board the wrong train and not find out his mistake until the conductor comes along for his ticket. In such cases it is a comparatively easy matter to get off at the next station and wait for the right train. With a boat, however, it is different, as a man from Detroit became fully aware Tuesday afternoon.

When the City of Chatham arrived at Belle Isle to pick up the Park St. excursionists on the way home to Chatham, a man who was very anxious to get back to Detroit, mistook the City for a ferry boat plying between Detroit and Belle Isle, and he got on board. He was filled with dismay, however, when he saw the boat heading for the lake, and sought the captain for an explanation, when he found out his mistake.

The Detroiters were treated to a fine sail across the lake and arrived at the Rankin dock with the Park St. crowd, and then he immediately became interested in railroad time tables to find out when he could get back to Detroit.

It appears that the man in question was a recent arrival in Detroit and was not very well acquainted with the boat services. He is, however, rapidly learning from experience. His lesson yesterday caused him considerable inconvenience, as he was expected to report for duty in Detroit Tuesday evening at eleven o'clock.

THE FAIR

Ex-Ald. Henry Robinson Secretary of the W. K. A. S. Says the Peninsular Exhibition Will Be a Record Breaker.

Ex-Ald. Henry Robinson, the energetic secretary of the West Kent Agricultural Society, reports that the Peninsular Fair this year will be more successful than it has ever been, and that is saying a good deal.

Deputations of good, representative men have been appointed to wait on the different Township Councils at their next meeting to solicit the usual grants to the society. Mr. Robinson has already received several donations for prizes and will soon make a systematic canvass of the entire city for subscriptions.

It is expected that one of the representatives in the Agricultural Department of the Dominion Parliament will be present to formally open the exhibition.

Mr. Robinson says all that is needed now is good weather for the dates upon which the fair will be held.

PROGRESSING

For the benefit of those who do not live in that vicinity whose report of the progress made on Raleigh and Third streets with the electric line might not be amiss.

On Raleigh street the trench has been dug down the centre of the street to the C. P. R. tracks. A six-inch thickness of concrete is put in the trench, upon which the ties are laid. The rails have been laid as far as Richmond street.

On Third street the sidewalks have been moved back on either side about three feet to allow of the widening of the street. Work has been commenced upon the task of tearing up Wellington street to make the curve from Raleigh to Third streets. The poles to carry the power wires have been placed along Raleigh and Third streets. The same poles are used by the Electric Light Company.

As soon as possible connections will be made with the C. P. R. and it is the intention to put on a locomotive of some sort to carry the material for the construction of the line out in the country.

PRAISES PAPER

The possibilities of judicious and enterprising advertising are further evidenced in the special edition of The Planet issued by Messrs. Rogers & Doward. This edition has been largely availed of by wise merchants and business men and promises big results. The following letter from the Standard Sewing Machine Co. to J. H. Tyrrell, their city agent, speaks for itself:

Hamilton, July 10, 1905.

J. H. Tyrrell, Esq.,

Chatham, Ont.:

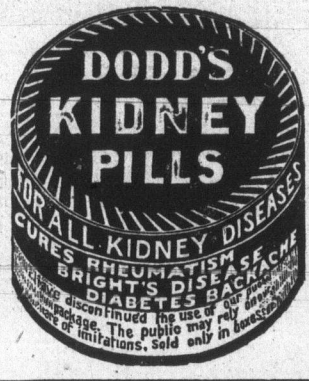

Dear Sir,—We appreciate your kindness in mailing us a copy of your souvenir edition of The "Planet." We hope that your ad. inserted therein will prove a good investment. The paper is certainly a very creditable piece of presswork and should do both Chatham and Chatham's business men a lot of good.

We recently bought one of McKough & Trotter's gasoline engines for a motor boat we are making, so you see we are trying to reciprocate for the trade we have been getting out of Chatham during the past years. Plenty of Colonials in stock.

Cordially yours,

GEO. NUNN.

The hot summer weather is now here and most people are thinking of a trip to some cool summer resort. We would advise you to call on W. E. Rispen, city passenger and ticket agent, 115 King street, who can issue tourist tickets for all summer resorts, including Muskoka, Georgian Bay, River St. Lawrence, Green Lakes and Atlantic Sea Coast points at particularly low rates, and will supply all information and pamphlets.

**A MISUNDERSTANDING**

A very unfortunate circumstance occurred in connection with the sale of some property in which Malcolm McKerrall, of Cleveland, sold a house and lot to a man named Freeman. Through a pure misunderstanding it was represented to Freeman that the property was free from taxes, which it turned out was not the case. Freeman had McKerrall arrested on a charge of false pretences. As soon as the misunderstanding was made known to McKerrall he at once settled the case and promptly made the deal right with Freeman.

UGLY RUNAWAY

A threatening and thrilling runaway occurred this afternoon in which a Maple City lady and her daughter had a very narrow escape from serious injury. Mrs. Grandbliss and daughter were driving down Victoria avenue when the horse became frightened and bolted. Near the Fifth street bridge it collided with a lumber wagon which it threw over, continuing over the bridge to King street. It turned towards Morley's store, and in front of Taylor's cigar store it ran into a buggy. Two men who were digging a post hole near McCorvie's grocery ran out and checked the excited animal's mad career.

Neither of the ladies were hurt and, queer to say, the buggy was not damaged and the horse escaped without a scratch.
