

**The Union Advocate,**  
ESTABLISHED 1867.

NEWCASTLE, APRIL 11, 1906.

**THE CIVIC ELECTION.**

Before the next issue of The Advocate will have reached our readers the electors of our Town will have been called upon to decide who is to represent them at the Council Board during the ensuing year.

Only a few score days are left within which prospective candidates may file their papers.

Among the Aldermen there seems to be a very great apathy for office. Several of them declare their intention of dropping out entirely, while more are busy trying to get others to run in their stead. They complain of the unthankful positions in which they are placed and do not care longer to be made, as it were, targets for unreasonable factions. Some complain of the unjust criticisms hurled against them by persons who are either pessimistic, or culpably ignorant of the facts and circumstances. We regret exceedingly that the columns of The Advocate should in any way be the cause of some of our best men refusing longer to serve the town interests at the Council Board. Our censure, if censure you may call it, was directed purely at those who had failed to do their duty as the representatives of the people, and no one will doubt that there is some such in office at present. It is a notorious fact that some committees have been entirely negligent in their town duties; and work which should have been complete months ago is not yet begun. But the chairman of one committee cannot be held responsible because the chairman of some other Committee has failed to discharge the duties imposed upon him.

We trust, therefore, that our good men will not now desert the barque and render it a derelict, and that the electorate will seize upon the present opportunity to place at the Council Board men who, from experience and character, are best capable and most liable to fulfil the duties imposed upon them and not to allow petty personal prejudices and private favor to stand in the way of public advancement and public good. They have it in their power, and we trust they will exercise it, to see that the business of the town shall be conducted along business lines. To do this they should withhold their support from any candidate for municipal honors who does not enjoy the confidence and respect of the people generally, and bestow it upon those who are qualified by experience to watch over the people's interests. They should not re-elect to office any alderman who has proved himself unworthy of the trust confided in him, but direct their sympathy and support to the candidates who have the welfare of the Town most at heart and who are best capable of looking after it.

Ladies and Gentlemen, Electors of the Town of Newcastle respond to the call, come forth and do your duty as citizen.

**A PUBLIC NUISANCE.**

The spring is coming. The white carpet is rapidly vanishing beneath the blazing April sun; the days grow longer; the ice yields upon the shore of the river, the waters rise and cover it and soon it will break its chains and rush forward to find a grave in the briny ocean. The birds are beginning to show themselves and warble in the trees during the bright sunny mornings and all Nature is proclaiming in one prolonged shout that "Spring is coming."

And while our migratory birds sit and warble in the branches above a migratory crowd of idlers assemble at the bases of the trees in the most public places in our Town, while others select for a leaning post, a more firm support—the Post Office. This beautiful stone structure has every day more of idlers who apparently have no better occupation and no more respect for the travelling public than squirts tobacco juice about the street. Ladies in particular have ample reasons for complaining of this form of vulgarity among many of our citizens while, to men who do not make this improper use of tobacco the sight is equally disgusting.

The sidewalk around the post office is literally covered with tobacco juice

while the gang about add to the salivary flood from their too responsive organs.

To render even more abominable this loathsome practice, the language of many of these carbuncle generals has certainly not been distilled from any eternal fluid. Indeed it often would do credit to the potentate of great sulphur pit.

Here and there, too, as if to add variety to the scene, one not infrequently finds a drunken man attempting to hold dialogue with any person whom he can hail and who would probably be able to advance him a dime with which to procure another drink.

We trust that it will only be necessary to call the attention of the Town Police to these gentlemen of leisure to have the evil remedied and the corners cleared. In St. John and other cities there is a bye law prohibiting spitting on the public streets. It might not be amiss for the chairman of the bye laws committee to introduce a bye law to that effect here. It would prove a blessing to many and an injury to none.

In the appointment of John E. T. Lindon, to the Office of Town Clerk the Council made a wise choice. Mr. Lindon is a very popular and a most brilliant accountant, and we feel will discharge with dignity to himself and credit to the Town the responsibilities imposed upon him. He is the son of John Lindon, the section foreman on the I. C. R. here and has been for a number of years in the employ of Mr. Manny.

**THE VACANT SENATORSHIPS.**

There is no doubt that Premier Laurier has laid his plans for the appointment of a Frenchman to one of the two vacant seats in the Senate for this Province and would no doubt have carried them into effect before now had not unforeseen difficulties supervened. It was thought that Hon. Mr. Costigan had been provided for, it appears he is not satisfied, and some scheme must be devised to prevent him from returning to his first love. When this matured the coast will be partially cleared. Several Frenchmen are named as having strong claims and no little effort it is said has been put forth in respect of each. Mr. LeBlanc, of Kent, has left no stone unturned to secure the coveted vacancy. It would be very difficult to show any well founded claims that he or his friends could present. It is true that he was for many years a member of the local Legislature, but he was nothing more than a voting machine. His voice was never heard in the Assembly nor has it been nor will it ever be, heard in Parliament. Whatever personal efforts he has put forth in his legislative capacity, and they are not few, have been in the interest of Mr. LaBlanc. Hon. C. H. LaBillon is a man of very different stamp. He has been an active and useful member of the House and of the Government for over 15 years, has identified himself with its various measures and has besides initiated and successfully carried through measures of much importance. He is a fluent and ready speaker in both languages and can impress his views with much force and clearness in either. He would bring new life and vigor to the Senate of which it stands very much in need. In the administration of his office as Chief Commissioner of Public Works he has proved himself not only a capable administrator but an officer who can conduct public affairs without partiality, dishonesty or selfishness. If a Frenchman is to be appointed on his merit we feel assured that Sir Wilfrid will make no mistake either as regards himself or the public interest in giving that seat to the Hon. C. H. LaBillon.—Tribune.

**FIFTY CENTS**

**IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.**

**THE SUNDAY OBSERVANCE BILL**

TORONTO, April 5.—At a meeting of the parliamentary committee of the Canadian Manufacturers' Association, held yesterday, it was decided to make a strong representation to the Minister of Justice regarding the Lord's Day Alliance bill, which Hon. Charles Fitzpatrick has introduced in the House of Commons. It was felt no legislation should be passed which would prevent the operation on Sundays of blast furnaces, etc. It was also considered the Minister of Justice should strike out from his bill any clause restricting the running of freight trains carrying perishable and export freight.
