TERRIBLE DISASTER.

Spanish Troops Slaughtered Whole sale by the Moors.

Madrid, July 29.-The official de patches received here to-day admit that the battle between Moorish tribesmen and the Spanish forces outside of Melilla on July 27 was a disastrous defeat. The Moors cut off the communications with the Spanish outposts, and the main force of the Spaniards was driven back

force of the Spaniards was driven back under the walls of the city, where fighting continued desperately in the city. The Spanish killed and wounded numbered almost 3,000, which takes no account of the men at the advance posts, who evidently were cut off and abandoned to their fate.

Melilla is full of wounded men. The extent of the disaster is plainly apparent from General Marina's despatch as given out at the war office to-day. He says:

"On July 27 the Moors cut the railroad, severing communications with our

500, including many officers. The hippodrome is full of wounded soldiers. Two generals were mortally wounded."

SITUATION GRAVE ndon, July 29.-Information received through diplomatic channels in Lon don tends to accentuate the gravity of the situation in Spain. It is intimated that there is reason to fear the garrison at Madrid itself has been tampered with by the insurrectionists

ORDERED TO MELILLA. ORDERED TO MELILLA.

London, July 29.—A special despatch from Gibraltar says all Spanish batteries stationed in that vicinity have received hurry orders to embark at once for Melilla. The embarkation of the troops is now proceeding, and it is believed that large numbers will leave in the course of the day.

More than 100 wounded Spaniards were landed this morning and taken to the hospital.

How They Water the Streets in China

The watering of the streets in China is still a very primitive business. The water is first drawn up in baskets from well by means of a rope and pulley. This sounds somewhat ridiculous, but the "baskets" are very closely woven, and, when wet, form thoroughly serviceable vessels, possessing the valuable quality of lightness. The water is mext carried in wooden tubs and distributed by men armed with basket haldes attached to long wooden handles, with which they splash "spoonfuls" of fluid over the dusty streets. This crude machinery is all the more astonishing when one reflects that the Chinese is extremely clever in a mechanical way. Heris, however, inherently conservative, and sticks to old methods on principle, even though common sense tells him they are absurd.—From hte August Wide World Magazine. down the revolt ruthlessly as a warning for the future.

The law-abiding element is under orders to remain indoors. The artillery is in position along the avenues and in central quarters.

The terror-stricken people are fleeing from the larger towns to the open country and the small villages, where there is less exposure to danger.

The situation is further complicated by the spread of the general strike ordered by the labor organizations of Barcelona two days ago.

The indications are that the strike will spread to the provinces of Loideria, Geronio and Terragon, but no definite news has been received from these points.

barricades to the neight of the instances, storeys.

The arrival of reinforcements, so urgently needed by the government forces, its retarded by the destruction of railroads and the avenues of communication leading to the city. The revolutionists are heavily armed with muskets, knives and revolvers. They have an effective organization and hospital equipment, which promptly looks after the dead and wounded.

With the arrival of a regiment of reinforcements, which the Government succeeded in getting through yesterday the inhabitants were warned to keep within for the succeeding fourteen hours.

inhabitants were warned to keep within for the succeeding fourteen hours. The peacably disposed heeded this warning, while the artillery of the government forces raked the streets where barricades had been erected, causing great havoc among them and in some cases demolishing them.

The Government is now seeking to relieve the city by sea now that the land communication with the troops is interrupted. All available ships are being hurried to Barcelona.

rupted. All available ships are being hurried to Barcelona.

Whether there is an ulterior political purpose behind the revolutionary uprising throughout Calatonia is not yet clear. Outwardly the movement is thus far a protest against the government's war policy in Morocco, and its levy of a large reserve for war purposes. NOT ENOUGH TROOPS.

NOT ENOUGH TROOPS.

London, July 29.—Special advices from Biarritz, near the Spanish frontier, state that the situation at Barcelona is rendered desperate by the absence of a sufficient military force capable of putting down the revolutionists. This condition result from the despatch of all available troops to Melilla. The garrisons throughout Calalonia have thus been reduced to 6,000 men, while the revolutionists at Barcelona, and adjacent towns far exceed that number.

The government forces are all scattered by the need of quelling outbreaks at many detached points. The isolation of the Province wing to the destruction of railways gave the revolutionary element and strikers 48 hours to make interrupted preparations to cut off the arrival of reinforcements. They are thus masters of the situation.

The line from Madrid to Barcelona is a scene of desolation. Trenches many feet wide have been cut across the railway embankments in the country districts. The small bridges spanning the streets in several towns have been pulled

Fierce engagements are in progress throughout Barcelona. The artillery has been used against the barricades, but the troops have made little progress in quelling the revolt. Attempts on the captain-general continue as he disposes the position of the troops.

FARMER KILLED.

Shelburne, Ont., July 29.—A fatal accident occurred last evening on the farm of Samuel Tweedy, a short distance north of here. Mr. Tweedy was operating a hayfork, and was drawing back the fork to reload when the fork struck the block, slipped the hook and fell, striking Mr. Tweedy on the forehead and killing him instantly. Mr. Tweedy was a prosperous young farmer of this section.

Baltimore is about to open its rest farm or fresh-air home for horses under the management of the Animal Refuge Assocation. It is a chartable enterprise, as only the horses of poor cabmen and hucksters, who are unable to care for their animals when they become, ill, will be received at the farm.

liam, president of the National League of Baseball Clubs, attempted suicide last night in his room on the third floor of the New York Athletic Club.

Standing in the centre of the room Mr. Pulliam held a revolver to his right temple. He fired only one shot. It went in at the right temple and came out seven inches away on the left side of the head. The bullet destroyed the right eye and passed through the upper part of the left. It is not believed that Mr. Pulliam can recover, although he continued conscious for some time after the shooting. The sight of both eyes were destroyed by the bullet, the physicians said.

DESPERATE FIGHTING.

Biarritz, near Spanish frontier, July 20.—The desperate condition of affairs at Barcelona is shown in reports received here from the disturbed city. These show that the revolutionary element holds the upper hand. The government troops finding themselves insufficient to retake the revolutionary stronghold, have been forced to abandon several quarters, leaving the revolutionists in control.

The streets of the city are barricaded with huge piles of stone and earth. Furniture and planks are heaped in these barricades to the height of the first storeys.

The arrival of reinforcements, so urgently needed by the government forces, is retarded by the government forces, is retarded by the destruction of railroads and the avenues of communication leading to the city. The revolutionists are heavily armed with muskets, knives and revolvers. They have an effective organization and hospital equipnent, which promptly looks after the dead and wounded.

With the arrival of a regiment of reinforcements, which the Government succeeded in getting through yesterday the

Montreal, July 29.—Capt. Foulkes, of Ottawa, made a decided step toward regaining the single tennis championship of Canada when he succeeded in defeat-ing all opponents in the open singles, doubles and handicap matches yester-

doubles and handicap matches yesterday.

The third day of the Canadian tennis
championships proved full of exciting
play, despite the terrific heat, the ladies'
games proving surprisingly strong. McEachren, of Toronto, made a good showing against Cassils, of Montreal, in the
singles, winning the first set and gaining
a good lead in the second. Cassils'
steadier play, however, wore McEachren
down, and the Toronto man was easily
defeated in the final set.

In the ladies' championship the feature of the day was the match between
Miss McIvor, of Ottawa, and Miss Clay,
of Montreal, which furnished some of
the best tennis seem here in years. Miss
Clay finally won out after a very hard
contest.

VICTORIAS MET DEFEAT AT TORONTO.

Visitors Were Given a Cordial Reception.

The Victoria bowlers invaded Toronto esterday and played against the Cauada Club. The green was in perfect condition. Mr. F. H. Ross, a former Hamiltonian, who is the star player of the Canadas, received the Victoria contingent with open arms. With the Canada's recent victory of 45 shots over the Hamilton Thistles, the Victorias were on their metal. In the early part of the game the play was in favor of Hamilton, but the veterans of the Canadas drew stealthily away from their opponents and came down the home stretch slightly in the lead.

True hospitality was accorded the visitors, and at the close of the game an adjournment was made to the club house, where light refreshments were partaken and complimentary courtesies were exchanged by Skips Dr. Carr and Geo. M. Begg.

The outing was greatly enjoyed by the players and a return match will be played in Hamilton at a later date.

London, Ont., July 29.—Seven games in the Labatt Trophy were played off yesterday afternoon, and the winners were Skip Dougall, London Bowling Club; Skip Chas. Abbott, Thistle Club, London; Skip Davey Kuntz, Waterloo; Skip Hughes, Strathroy; Skip Dr. Beacom, Harriston; Skip John Lochead, London Bowling Club, and Skip Nightingale, of the London Thistles. Both Toronto rinks went down and out. Billy Smith, of the Toronto Victorias, lost a brilliant game to Hughes, of Strathroy, while Davy Kuntz defeated Dick Thomson, of Paris, and his brilliant four. The finals will be finished this afternoon.

DUNDAS WON. On the Asylum grounds yesterday afternoon the Dundas and Asylum bowling clubs met. The green was in excellent condition, and good scores were made by both sides. Dundas won by a small margin.
