Hon. Frank Oliver Interviewed in Winingeg on Way to Ottawa.

Toronto Star Picks Magrath

For Minister of Interior in the New Borden Cabinet.

Winnipeg. Sept. 28-Hop. Frank Oliver, who is here en route to Ottawa denied emphatically the report puo lished in some western papers to the ng from parliament. He stated that the story was nothing more than a development of the yellow journalism ow prevalent in the west, adding that he had absolutely no thought of retiring from politics until beaten at the polls. He expressed himself as wei satisfied with the result in Alberta and Saskatchewan, but disappointed that the party had made no large net gain in Manitoba. Among other wester nembers passing through are Dr Neely and Mr. Champagne.

Seven Year Old Mad Child Being Slowly Killed With Choloroform.

Chicago, Sept 27 .- Whether it is justifiable to end the agony of a patient suffering from incurable disease was the question renewed here today in medical circles when physicians of the county ho innounced their intention of chloroforming Earl Barnes, aged 7, and helping him under the influence of the anaesthetic until he dies. The doctors will not kill him, but will do nothing to prolong his life of suffering.

Two weeks ago a pet dog bit the child's nose. Today rabies appeared and the child was rushed to the Pasteur Institute here. The physicians say htere is no hope of saving the boy's life. In wild agony the lad bit himself and snapped at the furniture. His condition was so rabid that several hospitals refused to admit him, owing to his hopeless state. Finally he was taken into the

county hospital. This afternoon the child was unconscious under the influence of the drug.

Canada Needs American Markets More Than U. S. Needs Canada's Says London Times.

London, Sept. 27-The Times' Washington correspondent cables that the Conservative regime in Canada is short-lived in the estimation of Americans, who regard reciprocity not dead, but postponed. This faith is based on the argument that the Canadians

need our markets more than we need theirs. In showing statistics that American trade is outstripping British trade with the Dominion, and in the growth of political power in the West, the newspapers suggest that the Conservatives themselves may be induced by economic pressure to carry out the Liberal policy, and the view is pretty generally held that the defeat of reciprocity was due c the cry of "Canada for the Canadians," and not "Canada for the Empire," and the Dominion will soon be discovered to have pulled no chestnuts out of the fire for the benefit of the British
