### **Notes From Long Pond**

The C. of E. Ladies of the Sewing Class here held a tea and a sale of work on Wednesday evening, March 26th, in the school room; they realized the sum of twenty-five dollars and twenty-six cents (\$25.26). It was a very pleasing affair and those who attended were very well satisfied with the evening. They did exceedingly well for such a small number of members as they have, and great projec is due to them for doing such srlendid work. When we consider managed so well we cannot help admiring the spirit of the little band. It nust be discouraging to them somedon terminus, the porters, who knew and so help to bear their share of the the needful work. Still we believe. however, that others will co-operate with them soon and so put the Church in such a flourishing condition as it footman in handsome livery was should be. There intentions now are to procure a bell for their Church and we hope success will go with them. A bell is badly needed as many people cannot see the flag. Go ahead, ladies. your work is of the right kind and herefore success must follow.

They mainly depend on the sea for their manure to work their land and many other things. The hardship they have endured in doing this is appalling; many times they have been in great danger of being washed off the beach, or their boats being dashed to pieces with the force of the waves while landing on the outside of the bar. Sir E. P. Morris in the last elections promised to attend to this important matter as soon as the dredge was back. It is not back yet r we should have had an opening before this; for you know the Premier would not speak falsely. He said it was like a house with no door in it and his intentions to see that the door was made. The people would be grateful to him even now at the

### FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy feelings, or dizziness in the head, nervousness, pain and bearing-down feelings which should not occur to the normal healthy woman.
