

THE
WORLD'S PRESS.

THOUSANDS OF HOMES.

Time: It is a good beginning to make with the building of thousands of thousands of houses so sorely needed the inevitable result must be a widespread of hopelessness and disconsolation of which it is liable to foresee.

INITIATIVE AND RESOURCE.

Gazette: With a reasonable system of credits, farmers are encouraged to adopt more methods, and upon this, more any other single factor, the success of the industry depends. The resources are the only subsidies of farming; but no supply these except the farmers themselves.

ADVENTURE OF WORK.

Argue: We are in grave danger of dividing life into unrelated portions, and the function of play as something essentially creative and new in the fullest sense is forgotten. The best work must have in it the spirit of play; that is the spirit of adventure. Great as another writer has said, is best.

IRELAND'S TASK.

Daily Chronicle: The task of the patriotic Irishmen are asking the Government to take in hand the settling of the land question, the firm establishment of a capable of dealing with crime on the one hand, and on the other with ordinary disputes between man and man. This is a task requiring the constructive statesman, which the Free State can muster, but not against the interest of unorganized as well as anarchy.

KEEP TO THE LEFT.

Manchester Guardian: It is clear that by the persuasion of neatly notices on lamp-posts will Manchester citizen be led to keep left. The Watch Committee, therefore, to take slightly measures. A red line down the middle of the pavement is now to be marked with arrows, appropriately on each side of it. The said to have achieved notable results among the population of whom, who found it definitely to walk against the arrows.

TIMBER CONCESSIONS.

Perth, Australia: Granting of concessions and special covering many thousands of prime timbered country has been justified by citizens at the time the transactions started out, but to-day anything like this would be impossible. There is sorely in need of more and the comfortable settlement of new comers must reduce the which hitherto has been administered by the forester. The cutting of great trees is a matter for regret and can be justified only on the grounds of the national welfare of the national economy.

THE GERMAN OFFER.

Berlin: Berlin has hitherto to speak, which is a proof of peace, though somewhat delayed. Proposals regarding payments are unacceptable in present form, but the Germans do come back with other proposals as they have done on past years. The non-aggressive pact is a utterly valueless. But the (and practice) of the exchange of titles between French and Germans, will undoubtedly seem all to some, especially to those principal object it is to gain against war. Others see in it the danger of the ultimate subjugation of French industry to Germany and finance. The fact that the proposition has its merits and will arouse consideration.

Quarterly Meeting Held

R.I.S. regular quarterly meeting place yesterday forenoon was largely attended. President Higgins K.C. occupied the reports of committees of the Society in a flourishing condition with a steady increase of membership. Shortly before the close of the meeting Mr. Croft chairman of schools and Delegates, announced that the would again be taking an interest in football and other athletic every encouragement. Mr. Croft's remarks were supported by the president and the meeting pledged loyal support to the athletes will wear the R.I.S. colors during the coming season. There being no other business the meeting then closed.

World's Champion Cow

IS HONOR-GUEST AT BANQUET.

Agassiz, B.C., May 13. (A.P.)—Led among rows of tables in a brilliantly lighted banquet hall and milked in the presence of 300 members of the British Columbia Dairymen's Association here, Agassiz Segis May Echo, champion butter-producing cow of the world, was toasted in foaming glasses of her own milk here recently.

The famous cow was led into the banquet hall with a silken rope by a pretty milk maid. She showed no signs of embarrassment or fright when a storm of applause greeted her and quietly chewed her cud, when, under the ministrations of her fair attendant, the streams of milk made bubbling music in a silver pail.

Agassiz Segis May Echo is a three-year-old Holstein bred and owned by the Canadian government's experimental farm near here. She recently established a record of 30,888 pounds of milk in 365 days, yielding 1,881 pounds of butter. Her milk record has been beaten, but her butter record is far greater than any ever made before in the same period of time.
