OGDENSBURG, N. Y.
OGDENSBURG, N. Y., July 21.—At the cheese board meeting today 2,195 boxes were offered.
The market was very dull; 83c to 83c was bid, but salesmen would not accept, consequently there were no sales. The Montreal Trade Bulletin says: "There is a natural apprehension that cheese, which

is high-priced, cannot much longer hold out under the heavy supplies on this side. Against this, however, must be taken into account the fact that factorymen having sold up their make so closely are in splendid trim to hold make so closely are in splendid trim to hold back their supplies for a week or two, and thus test the ability of English buyers to do without their product. Should this test fail in obtaining its object, it would be a bad job for the factorymen, with their heavy accumulations of July goods. The feeling in England also appears to be considerably mixed for while some house. be considerably mixed, for while some houses there are canceling orders sent their representatives on this side, others are sending out orders to be filled on best terms, one order for 1,500 boxes being filled this week on these terms. Whether or not the recent strong and upward movement was due to speculation, it is evident that the main support of the market has been the extraordinary heavy consumption

of cheese in Great Britain. Live Stock Markets.
