

SAD TRAGEDY IN TORONTO!

Brave Lad Loses His Life in Trying to Save a Companion.

Girl Treated Corns With Carbolic Acid and Death Soon Followed.

Toronto, July 11.—A double drowning—a brave lad losing his life trying to rescue a small boy—took place at the island park yesterday. The scene of the accident was the long pond, where, owing to the recent dredging, there is a drop of from three to twelve feet near the bathing place. Walter Smith, of 11 Denison avenue, was in bathing, and suddenly fell into the hole. Ernest MacRae, aged 15, heard his cry and went to his rescue. The little fellow, when he came, grasped MacRae around the neck, choking him, and the two went down to death. MacRae came to the city on Tuesday from Tiverton, Ont., to learn the drug business. He was the only son of a widow.

The body of Ed Small, the Montreal merchant, who was drowned on the Jacques Cartier River, near Quebec, a few days ago, has been found, and will be brought to Montreal for interment.

Ferry Sound, Ont., July 10.—Willis, aged 13, youngest daughter of Thomas Adair, was drowned today from the steam yacht Bobs. The body has not yet been recovered.

CARBOLIC NOT GOOD FOR CORNS.
Nashville, Mich., July 10.—Miss Minnie Elvins, a Nashville girl, aged 17, died at Battle Creek Tuesday from the effects of blood poisoning. She had corns on her feet and used carbolic acid to kill the pain. She failed to consult a physician until it was necessary to amputate two toes, but she died soon after.

BAD TEMPER COST SEVERAL LIVES.

Savannah, Ga., July 11.—Jake Devoss, a negro laborer on James McKinnon's plantation, near Douglas, shot dead two mules because they balked. Devoss' wife expostulated with him, and he shot her, probably fatally. James McKinnon and his brother, Charles, then appeared and Devoss shot Charles McKinnon dead and wounded James McKinnon probably fatally. Then Devoss escaped to the swamps. He is being pursued with bloodhounds.

DIED ON A TRAIN.

Toronto, July 11.—The woman who died on the Muskoka express, from Muskoka Wharf, has been identified as Miss McGregor, for many years a domestic in the house of Mrs. Q. E. Thom in this city. She had gone up to Muskoka to take charge of the children of a Mr. Campbell, and having taken ill, was on her way to Toronto, when she died. The conductor came round for the ticket before Bartie was reached, and the woman's peculiar posture led to an attempt to arouse her. It was found that she had been dead for some time, and the body was placed in charge of a Bartie undertaker.

KILLED BY GASOLINE EXPLOSION.

Ballston, N. Y., July 11.—Mrs. Dunneilton, of Round Lake, was fatally burned by the explosion of a gasoline stove in her home. Mrs. Wilson, her daughter, was severely burned in trying to save the mother. The explosion set fire to the house, but the fire department extinguished the flames before much damage was done.

A BRAKEMAN KILLED.

Oswego, N. Y., July 11.—Fred L. Foote, a brakeman on the Remy Watertown and Ogdensburg Railway, fell from a freight train in Wallington yesterday, and was run over. He died twenty minutes later.

SOLDIER'S SUICIDE.

Halifax, N. S., July 11.—Gunner David Smith, of the Royal Artillery, jumped at the citadel yesterday afternoon. He held a carbine in his mouth and blew the top of his head off.

HELD FOR MURDER.

Reading, Pa., July 11.—The wife and

fifteen-year-old daughter of John Edwards were arrested and are charged with the murder of Edwards. The latter was found in the cistern dead, at his home near here, on Thursday last. His head had been crushed by a hammer or some other blunt instrument. Jessie Morrison has been taken to the penitentiary in Lansing, Kas., to begin her five years sentence for the murder of Mrs. Clara Wiley Castle.

THE WHIFFLE-TREE BROKE.
Adrian, Mich., July 10.—William Piggis, at work unloading hay in the Britton barn, met with a peculiar death. The whiffle-tree broke and the ever struck him under the heart, killing him instantly. He leaves a widow and one son.

Removal of British Flags To Be Investigated—Buffalo Hotel Rates.

Toronto, July 11.—The removal of the festoon of British flags from the Ontario educational department exhibit at the Pan-American is to be inquired into. High School Inspector South has gone to Buffalo, and while there will have a talk with the officials regarding the removal of the flags. He says the matter is trifling, but that the department is anxious to hear what the officials had to say about it.

Buffalo, N. Y., July 11.—A meeting of the Buffalo Hotel Association was held to take action on the reports said to have been spread broadcast that the hotels of this city were charging Pan-American visitors extortionate rates. The Iroquois, New Tiffet, Genesee, Cheltenham, Grandall House, Castle Inn, the Stafford and the Mansion House were represented. These reports were emphatically denied. A statement was prepared for the press, advising the traveling public that "first-class accommodation could be secured in any of the American plan hotels for from \$2 to \$4 per day, according to location of room. The prevailing European plan rates are from \$2 to \$5 per day for one person, and from \$3 to \$10 per day for two persons, according to the class of accommodation. The maximum rates as above stated, represent the best of accommodation at the hotel in the city. The hotels have accommodations for all patrons desiring first-class entertainment during the Pan-American Exposition.

HISSING HOT!

Wicked Chicago Sweltering Under a Temperature of Over 100 in the Shade!

Chicago, July 10.—Today was the hottest day ever recorded in Chicago, the mercury tower showing 100½ degrees, while thermometers on the street were from 2 to 4 degrees hotter. Up to 2 o'clock there were no protrusions. A dry southwest wind kept the humidity at a low point. The city, St. Louis, July 10.—At 3 p.m. the government thermometer registered 103 in the shade, while on the street in the sun the temperature was many degrees higher. According to the weather bureau, the highest point reached here this summer. Within the past 24 hours eight persons whose minds have been affected by the heat were received at the city hospital.

Omaha, Neb., July 10.—Today's weather conditions were on a par with those of yesterday, the mercury reaching 102 at 3 o'clock. A moderately warm south wind has been blowing most of the day and similar conditions prevail throughout a large part of the state.

Kansas City, July 10.—The highest temperature was 101 at the city. The highest in Missouri yesterday was 109 at Harrisonville; in Kansas, 108 at Fort Scott. There is no prospect of relief soon.

CINDERS.

Corn is a partial failure in parts of Kansas on account of the heat. Heat Monday stopped all business in Pierre, S. D. Thermometers marked 104.

ROSEBERY ABOUT TO BE MARRIED

Duchess of Albany To Be the Late Liberal Leader's Bride.

Four Thousand Persons Attend the Guildhall Meeting—War Policy of the Government Indorsed.

LORD ROSEBERY TO WED.
London, July 11.—The Manchester Daily Dispatch says that her royal highness, the Duchess of Albany, will accompany King Edward on his approaching visit to Scotland, and that the betrothal of her royal highness to Lord Rosebery will be announced during their visit or immediately after the return of the royal party.

The Duchess of Albany was formerly Princess Helene Frederica Augusta, daughter of the Prince of Waldeck-Pyrmont. She was married in 1882 to the Duke of Albany, who died in 1884. Two children were the issue of this marriage.

Lord Rosebery was married in 1873 to Hannah, only daughter of the late Lord Rothschild. She died in 1890, leaving four children.

A \$250,000 FIRE.
Sydney, N. S. W., July 11.—Hordern's department stores, consisting of an eight-story building, fronting on three streets, were practically destroyed by fire yesterday. The damage is estimated at over £500,000. The insurance amounts to £394,000, mostly in local companies.

TO OFFSET PRO-BOER DEMONSTRATION.

London, July 11.—There was a meeting at the Guildhall yesterday in support of the government's war policy. The idea originated on the stock exchange, and was held in every riding with a view to securing prohibition candidates. The report was adopted as amended as follows: "That only prohibition can be accepted as a settlement of the liquor question. That, therefore, they can indorse the position of only such candidates as will support the declared policy of the enactment of the fullest measure of prohibition within the power of the legislature, as soon as the question of jurisdiction is determined."

"That in the meantime it is needful to take such further restriction of the liquor traffic as the legislature has unquestioned power to enact. That acceptable representatives must be prepared to support and promote such measures as will bring this into effect."

RUSSELL'S TRIAL.

London, July 11.—The trial of Earl Russell on July 18 on the charge of bigamy has occasioned the issue of all kinds of quaint notifications. None of them perhaps is more curious than the latest relating to the admission of women. The notice announced that 150 places have been reserved for peeresses.

MR. HUMMEL'S CONDITION.

Mr. A. H. Hummel, the New York criminal, who was injured in a carriage accident in London Tuesday evening, and who was taken to King's College Hospital, was moved this morning to a private hospital. Mr. Hummel is making good progress towards recovery.

A CHINESE CHARGE.

Pekin, July 11.—The Protestant missionaries here have received a letter from Chou Fu, special commissioner of the Chinese government, in which he accuses Chinese converts of seeking revenge by violence, and of plundering and extortion. He concludes by asking the missionaries to assist in the restoration of order. His request will be granted.

PROHIBITION CONVENTION

In Session at Toronto Discusses Electoral Action.

Dr. Mackay Complains of Unsatisfactory Working of License Law—Resolutions Adopted and Officers Chosen.

Toronto, July 10.—The provincial prohibition convention, called by the Ontario branch of the Dominion Alliance at the Pavilion yesterday, was attended by about 200 delegates. Rev. Dr. Mackay, of Woodstock, presided. Rev. Dr. Mackay criticised the enforcement of the license law in Ontario as unsatisfactory. He said there appeared to be not more than 5 per cent of the Ontario hotel keepers who observed the law, and there was more Sunday liquor selling than ever.

At the afternoon meeting of the convention, the report of the committee on electoral action was lengthy and led to a breezy discussion.

REPORT ON ELECTORAL ACTION.

The most important change in the report was the elimination of a recommendation that prohibition conventions be held in every riding with a view to securing prohibition candidates. The report was adopted as amended as follows:

"That only prohibition can be accepted as a settlement of the liquor question. That, therefore, they can indorse the position of only such candidates as will support the declared policy of the enactment of the fullest measure of prohibition within the power of the legislature, as soon as the question of jurisdiction is determined."

"That in the meantime it is needful to take such further restriction of the liquor traffic as the legislature has unquestioned power to enact. That acceptable representatives must be prepared to support and promote such measures as will bring this into effect."

"That we instruct the executive to establish branches of this alliance in each of the ridings of Ontario where such are not already existing, to co-operate with the church and other societies to endeavor to influence public sentiment with a view of inducing political candidates to pledge themselves to support an early day in the parliament of Ontario a prohibitory measure of as extensive a character as the Provincial Legislature has power."

"That, in order to carry into effect the results of the formation of branches throughout the ridings of Ontario, the executive be instructed to secure the services of a competent organizer."

"That it is necessary that more attention should be given in making our influence felt in the selection of candidates, both in municipal and provincial politics, and we urge that all publicists make an active part in all public affairs, where our interests are concerned."

These changes were also recommended: "That, in addition to the present prohibition of the sale of liquor during certain hours in towns, bar-rooms be closed in towns after 11 p.m. That applicants for licenses for premises not already under license be required to pass the names of the petitioners for the licenses at their own expense, in some paper published in the chief town in the district, and that all signatures must be secured within three months of the date of application."

CANTEENS AGAIN.

On motion of Mrs. Thornley, of London, it was resolved:

"That, whereas information that cannot be gained has shown that such are not already existing, to co-operate with the church and other societies to endeavor to influence public sentiment with a view of inducing political candidates to pledge themselves to support an early day in the parliament of Ontario a prohibitory measure of as extensive a character as the Provincial Legislature has power."

Blacksmith's Backache.

Dr. Pitcher's Backache Kidney Tablets Cure This Serious Trouble

There is hardly a blacksmith in Canada who does not know what backache means—the stabbing pain, the sore, lame, stiff back that makes work misery.

Mr. Thos. Leonard, the well-known blacksmith of Port Hope, was troubled, as thousands are, and gladly tells of his cure, in the following words: "My life work as a blacksmith has been a hard one, and my back and kidneys bothered me for a long time. I have tried many medicines without relief, until I got a box of Dr. Pitcher's Backache Kidney Tablets from R. Deyell, the druggist. Since then I have had comfort, and am able to work with ease. I am sure those who use your medicine for backache, kidney, bladder, or liver troubles, will never regret it. They are so easy to take, and yet work so well."

Dr. Pitcher's Backache Kidney Tablets cure so well that you'd be wasting money to experiment with anything else. Price 50 cents a box, at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

Wear-diffusion.

Lots of leather unused, wasted. A few square inches only, ground away under pressure points of foot sole.
Heels worn down at outer edge, causing shoe to twist.
Not so with The Resilia Sole in the \$5.00 Slater Shoe!
Observe how it flattens when borne upon, through the compression of the rebounding Centresole.
Reflect that this flattening means diffusion of wear, all over the sole of the shoe.

as the failure on the part of military authorities to punish those whose negligence or complicity allows the disgraceful conditions complained of."

The committee on legislation also submitted a series of resolutions for making temperance instruction in the public schools more thorough.

A VETERAN WORKER.

The public meeting last night was attended by about 600. Rev. Dr. Mackay introduced Senator Vidal as the first speaker. The aged honorary president of the Dominion Alliance, gave a reminiscent address, to emphasize the view that there should be more public temperance meetings. Although over 80 years of age, he still cherished the hope of seeing prohibition in Canada, and whenever the question came up in the senate the voice of Alexander Vidal would be heard with no uncertain sound.

Mrs. Thornley strongly condemned the policy of government control, and said the military canteen in Canada would become the storm center of the temperance contest.

CROP PROSPECTS IN THE UNITED STATES

July Report of the Department of Agriculture at Washington.

Washington, July 11.—Preliminary returns to the statistician of the department of agriculture on the acreage of corn planted indicate a reduction of about 400,000 acres, or 5 per cent from the area planted last year. The average condition of the growing crop is 81.3, as compared with 81.5 on July 1, 1900; 86.5 at the corresponding date in 1899 and a ten-year average of 80.3.

The condition of winter wheat improved during June, being 83.3 on July 1, as compared with 87.8 on June 1; 80.8 on July 1, 1900; 65.6 at the corresponding date in 1899 and a ten-year average of 80.2. All the important winter wheat states share in this improvement except Pennsylvania, Ohio and Maryland, in which the condition declined during the month 3, 2 and 5 points respectively.

The average condition of spring wheat also improved during the month, being 55.6 on July 1, as compared with 52.0 one month ago; 55.2 on July 1, 1900; 91.7 at the corresponding date in 1899 and a ten-year average of 80.2. All the important winter wheat states share in this improvement except Pennsylvania, Ohio and Maryland, in which the condition declined during the month 3, 2 and 5 points respectively.

The average condition of the oat crop is 83.7, as compared with 85.3 one month ago; 85.5 on July 1, 1900; 90.0 at the corresponding date in 1899, and a ten-year average of 87.7.

The average condition of barley is 81.3 against 81.0 one month ago; 76.3 on July 1, 1900; 82.6 at the corresponding

BECAME DESPONDENT

Hamilton Lady Persecuted for Six Years by Dyspepsia—Gave Up Hope of Ever Being Well—Free at Last by the Aid of Dodd's Dyspepsia Tablets.

How many a poor dyspeptic loses hope of ever being well again? How many a poor dyspeptic was brought to his end by Dyspepsia, that horrible malady that makes men and women despondent, that drives them to despair? To such people Dodd's Dyspepsia Tablets are priceless beyond the telling, for they mean health, good spirits, and sound digestion. There is no need to lose hope, when Dodd's Dyspepsia Tablets will cure if but given a chance.

In nature there are certain acids that will digest food just the same as the stomach does. Meat, bread, vegetables and any other food may be placed in a jar covered with water, and actually digested by these acids in a few hours.

Dodd's Dyspepsia Tablets are composed of the best digestants known. They are absolutely harmless and do the work of the stomach while that organ takes a well-earned rest.

This is the only successful way to treat dyspepsia. The same principle is used by Sanitariums and other institutions where the patient is fed on milk to rest his stomach. With Dodd's Dyspepsia Tablets you may eat whatever you like, knowing that the stomach will not have to do the work of digestion, and no evil or suffering will follow.

Maggie Brown, of Hamilton, says: "Dyspepsia and Headache afflicted me for six years. My case was one of the worst kind. Doctors did their best in vain, and gave up. A friend of mine finally advised me to try Dodd's Dyspepsia Tablets, and to my surprise, on doing so, my headaches left me, and I am now completely cured, and so far, permanently cured."

COMFORT FOR POOR SLEEPERS

The Mystery of Sleep--Insomnia a Warning of Overwork or Approaching Nervous Collapse Which Is Not To Be Lightly Disregarded.

Robbery of Sleep One of the Worst of Crimes—Dr. Chase's Nerve Food by Building Up Blood and Nerves Restores Restful Sleep.

"Sleep is the foundation of the soul; it is the mind gone into the playground of dreams; it is the relaxation of muscles, and the solace of the nerves; it is the hush of activities; it is a calming of the pulse; it is a breathing much slower but much deeper; it is a temporary oblivion of all earthly cares; it is a doctor recognized by all schools of medicine. Lack of sleep puts patients on the rack of torture or in the mad-house, or in the grave."

Insomnia is a disease of our country and of our age. Where there is one man or woman with strong, healthy nerves there are a dozen whose nervous systems are overwrought and unstrung. In vain they toss in beds of misery, longing for nature's great restorer, restful sleep. In hours of temptation they resort to opiates and narcotics, which produce temporary unconsciousness at an enormous expense to the human system.

In all occupations and professions there are times when a special effort is made upon nervous energy. Mothers, too, deprived of sleep and worn-out by caring for their children and watching them through periods of sickness and disease, are left physically wrecked. Especially in the springtime do we all seem to require an unusual allowance of sleep to overcome the weakening and debilitating effects of winter and the trying changes of temperature.

Sleeplessness is a warning that the nervous force of the body is being exhausted more rapidly than it is being created, and points to ultimate physical bankruptcy. The nights do not repair the waste of the day. Some unusual effort must be made to overcome this state of affairs, or collapse is certain. Scientists have pointed out certain elements of nature as being

peculiarly suited to the needs of an exhausted nervous system. Through the medium of the blood and nervous system these restoratives carry new life and vital energy to every nerve cell in the human body.

While these elements of nature are combined in various proportions, it is now generally conceded by physicians that the prescriptions used by Dr. Chase with such marvelous success in his immense practice is the one which gives most general satisfaction. This preparation is now known as Dr. Chase's Nerve Food, and has come to have an enormous sale in every part of this continent, where nervous disorders and sleeplessness are so prevalent.

Each and every sufferer from nervous and physical exhaustion, thin, watery, and impure blood, and the demon insomnia, can begin the use of Dr. Chase's Nerve Food with positive assurance that the regular use of this famous food cure will gradually and thoroughly build up and reconstruct the nervous and bodily tissues, and permanently cure sleeplessness and irritability.

You must not confuse Dr. Chase's Nerve Food with sleep-producing drugs and opiates. It is different from any medicine you ever used, and instead of tearing down the tissues and deadening the nerves, it cures by filling every cell with new life, vigor and vitality. As a spring tonic and invigorator it is marvelous in its action, instilling into weak, worn, tired human bodies the strength, elasticity and buoyancy of perfect health. 50 cents a box, 6 boxes for \$2.50, at all dealers, or sent, post-paid, on receipt of price, by Edmondson, Bates & Co., Toronto.
