

Time will show whether your washing powder is dangerous. One can't tell from the first few washings. After a time your clothes "soak" and "bleach." Costly experimenting. But here is the answer. It is known and proved to be absolutely harmless. Costs but a trifle more than the poorest. To save that trifle you risk all the wash.

THE WORLD OF SPORTS.

AT NEW ORLEANS.

New Orleans, March 24.—The season of racing in this city came to an end with the running of the races at the Louisiana Jockey Club's course Saturday afternoon. Love's Labor and Major Mansie were the winning favorites, the latter being first in the feature of the day, the new Louisiana handicap, at four miles, and worth \$1,850 to the winner. SLOAN HAS HOPES.

New York, March 24.—Tod Sloan hopes to get his license from the Jockey Club renewed next season, by pursuing a blameless course as a trainer and rider in trials, says a dispatch to the world from London. The King, the Duke of Devonshire and Earl Cadogan are said to have backed Sloan's petition for a renewal of the license, by Lord Durham, a steward for this year, threatened to resign if the license were granted.

CLEVELAND ENTRIES.

Cleveland, O., March 24.—Five early closing purses for the Grand Circuit meet in this city during the week of July 2 were announced on Saturday night—\$3,000 for 2:25 trotting, \$2,000 for 2:35 trotting, \$3,000 for 2:12 trotting, \$3,000 for 2:15 pacing, \$3,000 for 2:30 pacing. Each race has a large entry list.

BASEBALL.

GAME AT THE BARRACKS.
The Wolsley Barracks baseball club played the first match of the season on the home ground on Saturday afternoon. The right and left hand companies tried conclusions the latter winning easily. The return match will be played next Saturday afternoon, when the right hand will seek revenge on the left. The game was umpired and gave satisfaction to both sides. Being the opening game, only five innings were played. The runs were made by Martin, Kelly and McFadden. The left half got onto McIntyre's pitching in the fifth inning and sent the ball in all directions.

THE PHILADELPHIA N. L. TEAM.
Philadelphia, March 24.—The Philadelphia National League baseball team left here on Saturday morning for St. Louis where they will play in several weeks at preliminary practice. The team will make Washington, N. C., their headquarters.

THE TORONTO TEAM.

Toronto, March 24.—Manager Barrow of the Toronto club, has accepted the terms of pitcher Harvey Hollis of Pittsburgh. Hollis is well recommended by George Smith of the New York club, last year with Rochester. Hollis will take the place of Nelson Long, the Hamilton pitcher, who, it is understood, will not play in Toronto this year. Portland has a claim on Long. "Chauser" Elliot, a well-known Queen's University athlete, will be given a trial at first base, and if he makes good will have a permanent job. Elliot is much fancied by Mr. Barrow. Local amateurs say Elliot is one of the best throwers they ever saw.

BOXING.

CORRETT AFTER JEFF.
Richmond, Va., March 24.—James J. Corbett, who is appearing here as a member of a theatrical company, Saturday telegraphed to his manager to challenge James J. Jeffries to a fight with him should Robert Fitzsimmons refuse to fight under the offer of the Los Angeles club. Corbett put up a \$1,000 forfeit and a side bet of \$5,000.

WRESTLING.

WERE EVENLY MATCHED.
New York, March 24.—The match in this city on Saturday night for the light-weight wrestling championship, between George Bothner of New York and Harvey Parker of Brockton, Mass., ended in a draw. After 1 hour and 30 minutes neither man had secured a fall. The wrestler catch-as-catch-can, strange hold barred. Each wrestler weighed 165 pounds.

THE RIFLE.

NEW WORLD'S RECORD.
Springfield, Mass., March 24.—At the Red and Gun Club's regular shoot on Saturday, T. R. Geisel made a new world's 100-shot record on the standard American target at 200 yards, raising it three points to 88. The former record was held by Mr. Bergeron, of Cheyenne.

HOCKEY.

AMERICANS WON.
New York, March 24.—The New York Athletic Club's hockey team defeated the Ottawa team by a score of 6 to 3 at St. Nicholas rink on Saturday night. The victory of the New Yorkers was greatly unexpected.

COAL POOL.

Terre Haute, Ind., March 24.—The bituminous coal operators of the field in Indiana, north of the National road, and having an output one-third the bituminous coal produced in the state, have perfected a pooling arrangement for the sale of the product, about 2,000,000 tons annually. It is believed this pooling arrangement will be followed by others covering the southern field of the state. The selling agency is to be in Chicago.

YOUNG GIRL'S FATAL RIDE.

Killed by Being Thrown From Her Pony Cart.

Crazed Hospital Patient's Terrible Leap—Nurse Took Poison by Mistake—Kicked at a Cat and Broke His Neck.

M. C. R. BRAKEMAN CRUSHED.
Detroit, March 24.—While Vincent Clark, a Michigan Central brakeman, was riding between the engine and tender of his train, near the West Detroit yards, about 8 o'clock Saturday evening, the engine left the track, and Clark was pinned between the bumpers. He was terribly crushed about the hips and may die.

GIRL'S FATAL RIDE.

Detroit, March 24.—Saturday afternoon, Ernestine Gowdy, aged 12, daughter of S. H. Gowdy, of the American Harrow Company, was fatally injured while driving her pony on the Boulevard between Avery and Commonwealth avenues. Marguerite Werneken, aged 13, who was with Miss Gowdy, had her left leg broken. Another girl who was in the party, Florence Bowden, was not hurt very seriously. The three girls were riding in the pony cart, when an unknown man drove by them very fast. The pony was frightened and ran away, and the girls were thrown from the cart. Miss Gowdy's skull was fractured by the fall, and she died a few hours after the accident occurred.

HOSPITAL PATIENT'S TERRIBLE LEAP.

Detroit, March 21.—Charles Ehrlert plunged through a window on the top floor of Emergency Hospital early Saturday morning, and after falling headlong a distance of twenty-five feet his skull was crushed to pieces on the stone walk. Death was instantaneous. The hospital attaches claim that Ehrlert suffered from delirium, and that shortly before he made the awful leap to death, he had terrorized the other patients in the ward by jumping from one bed to another. He was then strapped down to his cot, which was close to the window through which he jumped. Both of his wrists were fractured, and it is the theory of County Physicians Policar and Sanderson that Ehrlert managed to pull himself only after much pain by pulling his hands through the straps which bound him.

DIED FROM HIS WOUND.

Chicago, March 24.—Joseph H. Hopkins, the alleged bank robber, shot by Dan Kipley Thursday night, died from his wounds during the last hours, and a shorthand reporter was kept at his bedside to catch his ravings, in the hope that he might say something which would furnish a clue to the postoffice robbery of the summer, when \$74,000 in stamps was taken. Kipley and "Diamond Lili," the latter being the woman in whose flats Hopkins received his death wound, were arraigned before the police magistrate. Kipley's bonds were fixed at \$10,000, which was furnished, and the woman's at \$5,000. When Hopkins died two warrants were taken out, and Kipley will be rearrested.

KICKED AT CAT AND BROKE HIS NECK.

Quincy, Ill., March 24.—Henry Bush attempted to kick a cat off the porch of his home. He missed the cat, but his balance and fell off the porch to the ground, three feet below, breaking his neck and dying instantly.

NURSE'S MISTAKE.

Brockville, Ont., March 23.—Miss Mary Jackson, eldest daughter of Jos. Jackson, Park street, died a shocking death this morning at the general hospital, where she was employed as a nurse. About ten o'clock last night she went to the drug department, to which nurses have access, with the intention of taking a dose of Epsom salts. In some way, as yet unexplained, the unfortunate young woman took a dose of bichloride of mercury in mistake, and though everything possible was done for her, she expired at three o'clock, after suffering terribly. She was 33 years of age.

CREMATED THEMSELVES.

Kosiusko, Miss., March 23.—Five county convicts made an attempt last night to burn their way out of prison, burning the stockade house in which they were confined down over their heads, cremating themselves. They were all negroes. The prisoners were let out to Robert Campbell, county contractor, whose farm is situated sixteen miles west of this place, and were all charged with minor offenses.

FOUND DROWNED.

Sault Ste. Marie, March 24.—Some workmen sitting out the steamer Merit, found the body of a man in proximity to the government dock. It is generally believed to be that of a Mr. King, formerly a school teacher in Korah township.

Port Hope, Ont., March 24.—The body of the late William Douglas, was drowned Wednesday, March 12, by falling off the dam at Barrett's mills, was found Saturday afternoon by three men who had been dragging the harbor during the day.

MAN AND WOMAN SHOOT INTENDING TO KILL

The Former Fatally Hurt—Both Empty Their Revolvers.

Aibion, Neb., March 24.—Mrs. Ralph Patterson, the wife of a wealthy stockman, who is suing for divorce, and George Thompson, another rich stockman, who is named as co-respondent, fought in the street Saturday with revolvers.

As the parties were leaving the court room Mrs. Patterson and Thompson met. The woman began firing at Thompson, wounding him twice. Thompson reeled, but recovered himself and fired five shots at Mrs. Patterson. He failed to hit her and she kept on shooting at him until her revolver was empty, but did not against wound him. One bystander, an expressman, was wounded. Mrs. Patterson surrendered herself to the sheriff. Thompson will die.

The gold yield of New Zealand for November amounted to 39,185 ounces, valued at £140,680. The yield for the eleven months is greater than since 1873.

A NEW COMMANDER FOR THE U. S. ARMY

Maj.-Gen. Wood Most Likely to Succeed Lieut.-Gen. Miles—The Former Very Close to the President.

Washington, March 24.—There is a strong impression current that President Roosevelt not only contemplates the retirement of Lieut.-Gen. Miles, but also the placing of Major-Gen. Leonard H. Wood at the head of the army. The presence of Gen. Wood in Washington lends color to this story, and he is known to be very close to the president, both personally and officially. It is said that the president has expressed the opinion that Wood is the only man fit to command the army, and in some quarters it is not doubted that the president would dare to make such a radical move.

Gen. Miles was made a lieutenant-general by special enactment, and, if retired, he would ordinarily be succeeded by the senior major-general, but the president has the power to designate the commanding general. Little doubt is expressed as to the determination of the president to retire Gen. Miles, especially as it is conceded that the latter has killed Secretary Root's reorganization bill. If Gen. Wood is made the commanding general he will be jumped over a number of officers, which will raise a storm of protests. Gen. Wood was a surgeon in the army when he organized the Rough Riders and became colonel. President Roosevelt being lieutenant-colonel.

THE CAUSE.

"I have too much respect for the illustrious men who have preceded me and for the office I have the honor to occupy, to be a party to a measure that, in my judgment, would do serious injury to the army and endanger the welfare of the republic."

Lieut.-Gen. Miles made this statement before the senate committee on military affairs. The bill prepared by Secretary Root "to increase the efficiency of the army" was under consideration. This was the measure providing for a general staff. It is strongly urged by Secretary Root and by the president. The language used by Gen. Miles to his testimony is accepted as a direct notification that in the event of the passing of the bill he will ask to be retired rather than consent to remain in the service under the operation of such a measure.

BIG COPPER DEAL

Mining Company, With \$5,000,000 Capital, Buy Valuable Properties in Parry Sound District.

Toronto, March 24.—A deal whereby the Consolidated Copper Company of Parry Sound, Limited, became the purchaser for \$1,000,000 of all the mining locations in Parry Sound, owned by the Hattie Belle and Vallentyne Mica Mining Companies, was Friday consummated at a large joint meeting of the directors and shareholders of the company, held in the village of Sunderland, when a bylaw was confirmed ratifying the terms of sale and authorizing the solicitor to prepare and have executed the necessary conveyances and assurances of title.

The capital of the consolidated company is \$5,000,000, of which \$3,000,000 are treasury stock. Many wealthy capitalists of the Northwestern States are on the directorate or on the stock list.

Previous to the amalgamation the holdings of the company comprised about 400 acres on the great reef between the Wilcox and McGowan mines, all carefully examined and selected by the president. By the addition now made the company will control about 1,200 acres of the very choicest properties in the Parry Sound district. The consolidated properties are located at Spider Lake, on lot 10. A smelter will be erected.

FIRST TIME IN TWENTY YEARS.

Detroit, Mich., March 24.—The steamer Alaska passed Detroit on her way to Toledo at noon Saturday, and is the first boat of the season to make the passage from Lake Huron to Lake Erie. This is the first time in about twenty years that a steamer has been able to get through Lake Huron, St. Clair River and Lake Erie ports so early in the season. The Alaska was laden with a full cargo of lumber, consigned from her owners to Toledo docks, and is making the trip without insurance.

What Motherhood Means

Motherhood means either happiness or misery. There is scant happiness for the mother, who in pain and weakness brings into the world a weakling babe which she can neither nurse nor nourish. Dr. Pierce's Favorite Prescription fits women for motherhood. It strengthens the maternal organism. It tranquilizes the nerves, encourages the appetite and brings refreshing sleep. It makes the birth hour practically painless and gives the mother the nourishment to give her child.

There is no alcohol in "Favorite Prescription," and it is absolutely free from opium, cocaine, and all other narcotics. "Words cannot express how grateful I am for your kind advice and your 'Favorite Prescription,'" writes Mrs. D. B. Barrioka, of Perrow, Campbell Co., Va. "I feel that I have been in poor health for four years. I suffered greatly with my right side, also with bearing-down pains, and my nerves were in a dreadful state. After using four bottles of your 'Favorite Prescription' I am now well. I am the mother of two children. With the first child I suffered twenty-eight hours, and with the second I used your medicine and was sick only three hours. I believe Dr. Pierce's Favorite Prescription to be the best medicine in the world for suffering females. I wish you great success, and hope that God will bless you in your noble work."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE SOLE OF COMFORT

YOUR foot sole is curved and soft.

Your shoe sole is flat and hard.

Walking with such a foot sole on such a shoe sole, is like sleeping on a plank, instead of on a mattress.

Cut open an old shoe at its most comfortable stage, and you will find its insole shaped by wear, to ball and heel, great toe, and outer edge.

You will also find it burnt up and eaten, through accumulated sweat, which must have gnawed the foot, when it so ate the leather.

The Resilia Sole, is placed between insole and outsole, instead of the usual scrap leather filling.

It is an elastic spring centresole, which collapses and shapes up round foot-curves like an old shoe, the first moment it is borne upon.

The foot sinking into the sole, at the very time the ball of the foot spreads, makes the shoe a size larger inside, when the foot needs most room.

The foot lifting, permits the insole and outsole to expand apart, and in so doing they pump in fresh air through a hidden valve in the heel.

This fresh air circulating through insole perforations, around the stocking, keeps the foot dry, clean, hardy and healthy.

The Resilia Ventilating Sole can be had only in the \$5.00 grade of that Good-year Welter leader.

Currie, of Belmont, in the presence of a large number of invited guests and friends of the contracting parties. Mr. David McCord, brother of the bride, acted in the capacity of groomsmen, while the bride was assisted by Miss Nora Courtney, of St. Thomas.

CRISIS IN CUBA

There Must Be a Big Reduction in the Tariff on Sugar.

Savannah, Ga., March 24.—Gen. Wood says that unless a great reduction in the Cuban tariff in sugar than 20 per cent is made, a crisis may soon be reached in the island's affairs. The people are depending on the United States giving them a market for their sugar and tobacco, and they have every reason to expect that this government will give them the relief.

It is absolutely necessary to the welfare of the island that the tariff on sugar be reduced not less than 33 1/2 per cent. We might as well make up our minds to that if the island is to prosper, and we are responsible for the future of the island and its prosperity.

"I do not believe a reduction of 33 1/2 per cent on sugar and tobacco would be detrimental to anyone in the United States."

THE FREDERICTON FLOOD.

St. John, N.B., March 22.—At Fredericton, where interest centers, the ice is still firm, within three feet of the top of the bridge piers. The rain continues and the ice looks shaky. A huge mass of ice and logs jammed for days in the Nashua River, a tributary of the St. John, broke at Stanley bridge, and thousands of dollars of damage was done. The Stanley bridge, with a span of 175 feet, was washed away, also another bridge four miles below. About 6,000,000 feet of logs came down and jammed at Pennie. The body of Priscilla Macpherson, the first victim of the flood, was recovered on Saturday. The floods surrounded the house of Miss Macpherson and her mother, aged 70 years. They endeavored to wade to higher ground. The young woman was caught in a hole near the barn and was drowned, while Mrs. Macpherson escaped by clinging to a fence.
