CENSURE MOTION WAS DEFEATED

Hon. Mr. Haggart's Resolution Re Withholding Documents Lost.

Ottawa, June 29.-Hon, John Haggart this afternoon submitted his motion of censure upon the Government for having withheld from Parliament documents which, he contended, should have been laid upon the table. Dundonald's report upon the defenses of the country was the chief document, the absence of which Mr. Haggart complained of, but Hon. Mr. Blair's memorandum on the Grand Trunk Pacific and several other documents were referred to, the withholding of which by the Government was, her. Haggart contended, unconstitutional. Sir Wilfrid Laurier replied effectively, dealing at length with the constitutional question and quoting eminent authority in support of the Government's position. He again emphasized the fact that the question whether the civil or military power should be supreme had long since been decided in British countries, and could not now be made an issue. Mr. R.
