An Amendment Proposed to Hamilton Tigers and All-Toronto Aggregation Will Show Way It's Done.

> Montreal, April 12.-F. R. Jamieson, secretary of the Hamilton Football Club, champions of the Ontario Rugby Football Union, came here today t arrange for a visit in the autumn from the Tigers and an All-Toronto team, the idea being to show to Montreal lovers of Rugby real football as played in the west, While here Mr. Jamieson met Mr. Victor Buchanan, president of the Montreal Football Club, and di cussed with him the probabilities of such a game being played here.

> "There is no money in this trip," said Mr. Jamieson, "but we are willing to spend \$500 in order to show the peo ple of Montreal that the snap-back game is the best in Canada." Mr. Buchanan suggested that the exhibition would be more interesting if an all-Montreal team met the Tigers, but Mr. Jamieson at once dismissed this, remarking, "Why that would be no demonstration at all. The Tigers would simply run away from any team Montreal could supply." In vain Mr. Buchanan pointed out that there are in Montreal men who have played under American rules, under English rules, and under the present style of game, and, indeed, there are many men in Montreal who played the snapback system when it was in vogue in Quebec years ago. Mr. Jamleson incidentally remarked that the Tigers could beat Ottawa College by 50 points to 1

TOD MAKES CHARGES, GETS HOT SHOT IN RETURN

New Orleans, April 11. - The local turf world had something in the form of a scandal to talk over yesterday, in the controversy between Tod Sloan and Starter Curly Brown. Sloan was quoted as saying that Brown had given him the worst of the starts, and n the same connection intimated that Brown's 'tenure of office would not last beyond this meeting. Brown has made answer publicly, nd in addition to saying that Sloan's

failure in the saddle is due to lack of nerve and not to anything like an unequal break, he cited several circumstances in connection with the work of the ex-premier jockey, which vere none too complimentary. Brown adds that Sloan is a "swell-

eaded has-been, who now tries to exuse his most recent failure by attributing it to others," while Sloan counters with a shrug of his shoulders, and says that Brown has not past be cause, he never was and that his present is poor and the future nothing.

The Better Way

DEOPLE used to chew cinchona bark until the quinine capsule was invented. People used to take raw cod liver oil, too, until Scott's Emulsion was introduced. The person who would take raw cod liver oil now would, no doubt, also use a spirit lamp and spinning-wheel. The reason Scott's Emulsion is so vastly superior to the raw ccd liver oil and the results of its use so much more satisfactory is because it is perfectly adapted to weak conditions of the body. The stomach can accept and retain it even when vitality is low and the functions slow to act.

Scott's **Emulsion**

enters the system almost entirely digested. It puts no strain on the stomach or weakened organs. The nourishment it gives passes quickly into the blood. Its goodness reaches the seat of weakness quickly, easily and without effort. An improvement begins at once. There's nothing in the world like it for thin, weak people or pale, delicate children. Consumptives and those affected with chronic colds, coughs and bronchitis
