MAP DISTRICTS FOR PRE-EMPTORS

Inauguration of Policy Reor-night had left the camera in the outside pocket of his coat which he had Made by Hon. W. R. Ross

In accordance with a promise given the public of British Columbia by Hon. William R. Ross upon his acceptance of the responsibilities attaching to the administration of the Department of Lands, there are now almost ready for issue in that Department the four first of a series of pre-emptors' maps of available lands, surveved, which await colonization and development by new agricultural setvery largely upon the results of the activities of the corps of surveyors ing north of British Columbia, where the field forces have largely been conquence of the assurance of early facilities of communication for these through Grand Trunk Pacific and Canadian Northern Pacific construction. That mapping the districts had necessarily to await the completion of surveys explains the non-appearance earlier of these eagerly awaited documents.

Of the maps now in hand. Sheet 1 deals with the localities in Nechaco Township and contiguous to the Stuart River, Sheet 2 covering and delinating the locality of the Blackwater. Both of these are now in the hands of the printers and shortly to be issued. Sheet 3, of the Fort George locality, is at present almost complete, and Sheet 4-the Stuart Lake section-is well under way.

Necessity for reorganization of the system of land seurveys and classifications has long been recognized by the government. The obviously de sirable changes require time for their consummation necessarily, but a beginning has been made, in the revision of the instructions this season issued to the surveyors taking the field and in the appointment of an inspector of surveys, in the person of Mr. W. S. Drewry, at present engaged on a first official tour through the Kootenays.

Hereafter surveyors employed under government auspices will be required, in so far as possible, to supplement their field notes with reports on forms prescribed by the Department of Agriculture, as to temperatures, rainfall, soil characteristics timber, etc., which information will be tabulated and compiled in ready reference form for the convenience of land seekers.

Field Parties at Work

The force of surveyors at presen cial Department of Lands numbers ment being as follows:

Nechaco River: 14. H. H bert; 15, C. deB. Green, Queer 6, A. W. Harvey, Trembleu F. Templeton, Horsefly Lake A. Landry, Lac La Hache; 19, A tton, Stuart River; 20, Gillespie & Graham Island North; 21, Sidney ms, Quesnel; 22, Christie & Dawson North Fork Thompson; 23, O. B. N. Wilkie, Bear River, (Cariboo); 24, F. Ritchie Kitsumkalum; 25, R. Smith, Canoe River T. H. Taylor, Bonaparte River; 27, W. Elhanney, South Fork Fraser; 28, H. Gray, South Fork Fraser (yet to go out) 29, S. M. Johnson, Boundary; 30, C. H. El lacott, Fort George; 31, K. C. C. Taylor South Fork Fraser; 32, M. W. Hewett South Fork Fraser.

Rules for Surveyors addition to the general technical professional rules laid down for the guidance of surveyors engaged under spec-lal instructions from the Minister of Lands, circular recently issued by Surveyor-Ger ral Dawson notes that surveyors will here after be required to "leave every corner es tablished in such condition that the dange

Lakes of greater area than ten acres to be traversed, and the area to be ucted from that of the lot—rivers over chain in width to be traversed by one, the position of the banks being loded by offset, and such information given the notes, as to the character of the cas will enable the dearstent to deriver, as will enable the department to de whether the area should be de-Such traverses, for the purpose ducted. only of determining the area of water in a lot, may be made with the stadia and compass; but this permission does not apply to traverses of water forming boundaries.

Suspicion was directed to Peterson. Shallow lakes and water-cours

likely to dry up in dry seasons shall not be traversed, nor shall their area be de-ducted from that of the lot. "The surveyor will, as called for in the "Land Act," classify each lot, and where same is subdivided, each quarter-lot. In addition, he will keep full notes as to the is now in custody at Rainier. resident, has been released.

addition, he will keep full notes as to the general characteristics of each parcel as to soil, timber, contour of ground, and its suitability for any economic use.

"He will also keep careful notes of the topographical features of the country, so as to furnish this department with a topographical sketch-map of the district surveyed and surrounding country."

HARD LABOR TERM

Thief Convicted of Having Camera Unlawfully In His Possession Gets 12 Months

and there ought soon to be a diminish- He was stooping over a spring to drink, ing in the petty stealing which has when the weapon was discharged. been going on lately. Rooming houses are apparently favorite places for the carrying out of theft.

The second case of its kind came up in the police court yesterday morning, cellent road to beyond Bitter creek. when Joe Napils, an Italian, was charged to a defective boiler.

session a camera valued at \$15. the property of Frank Pagett of this city, and formerly of London, Ont. Napils was found guilty of the charge and sentenced to 12 months at hard labor.

Pagett, who is a company to the charge and sentenced to 12 months at hard labor.

Pagett, who is employed as a labore with one of the waterworks construct tion gangs, said that on the night of the theft, he was rooming at the Pan-dora notel, and upon retiring for the ganizing Land Surveys hung on the back of the door leading into the room. The door was shut, but had not been locked as there was no key. He had heard no noise during the night, but on getting up in the morning he noticed that the door was open, and becoming suspicious that something was wrong, immediately be-gan an investigation, with the result that he discovered that his camera was missing from the coat.

> Mr. A. Shaw, of the firm of Messri Shaw Bros, photographers, stated that he had sold the carrers in question Mr. Pagett, on the day before the theft and when the accused entered his store and asked for plates for the camera he at orce identified it as the one which he had sold the day previous, and which he knew to be one of the only two o their kind in the city On being asked where he obtained the camera, Mr. Shav claims that he said he had been in the possession of the camera for three years, but later when a constable ha arrived said that he had received it from a friend, who had left for Vancouver about three weeks ago. The fact that the accused did not know the name or address of his "friend" who was so kind as to donate the camera with out receiving any money watever for it was regarded by the magistrate as rather an improbable occurrence. In answer to the question of City Prose cutor Harrison as to how he came into possession of two silver watches and fountain pen, the accused replied tha he had bought one of the time-pieces in Seattle a short time ago and that another "friends" had been so kind as to present him with the other watch and the fountain pen. These tales of presentations apparently convinced the magistrate that they had the real per petrator of the theft in charge.

REALTY MARKET

Property Continues Unabated-Number of Interesting Sales Put Through

The warm weather of the past week had no appreciable effect upon the stead iness of the real estate market. Dea aggregating many thousands of dolla have been put through by local firm since the first of the week and othe of considerable importance are now process of consummation.

Undoubtedly the feature of the wee -as it was the feature of local great turn-over was brought to a su cessful conclusion on Thursday when Mr. Georges Barbey, of Paris, resenting the purchasing syndicate rived in Victoria and completed the dea Mr. D. M. Rogers, of Rogers & Co., Ltd. Victoria and Mr. E. Francis, of Vancou ver, acting for the syndicate buying property and Mr. Andrew Wright the vendors, himself and Messrs. Old field, Kirby & Gardner, of Winnipe Following the announcement in the Co onist of the sale of this property-some 465 acres of excellent land-there w considerable activity in the vicinity the Uplands, in the Cadboro Bay trict, and many sales were put thro some of them involving the expendit of large sums.

Apart from the Uplands farm deal the ensuing activity in Cadboro property perhaps the greatest movemen during the week was on Hillside avenue where rumors of a street car line serve to arouse a brisk demand for good bust ness sites. Much property on this avenue and vicinity changed hands during the week and values were enhanced steadily.

Inquiry was good for property of all classes and although it is natural t expect a duliness in the realty market during the months just at hand ther is as yet no sign of an abatement interest. Many good deals were pu through during the past week in var parts of the city. These affected the business districts almost wholly, bu apart from these there was greater tivity than ever in the residential areas A feature of the latter trading was the number of re-sales made in many of t new subdivisions.

Sales Recorded.

Fifty feet frontage on Douglas stree between Princess avenue and Queen avenue, was sold for about \$25,000 through Grant & Lineham. A lot 36 x 120 on Pandora, south Cook, went for over \$10,000, sold

through the same firm. Grant & Lineham also put through the sale of four lots in Golf Links Pari and eight lots in the Fairfield Estate for an aggregate of \$10,000. A lot opposite St. Barnabas church Cook street and Caledonia avenue, so

for \$15,000. Sixty feet on the north side of Herald street, near the corner of Douglas. brought \$35,000.

A double lot running from Fort A lot on Yates street. 60 x 120 near

owned by Dr. Loenholm. The same firm put through the sal of a piece of acreage on Gorge ro with waterfrontage for \$25,000. Sixty feet on Yates street, between

Vancouver and Cook street sold \$23,000. Sixty feet on lower Fort stree brought \$28,500, between Quadra and Vancouver.

Forty-five feet on Douglas street, near the fountain, sold for \$20,000. Two lots on Hillside avenue, need Douglas, brought \$16,000.
