tions, for Isaah shows us that God will gather others to him in addition to the liberal seed of Judah and Israel. The agencies of the church and the forces of the nations are hastening the preparatory conditions of this great consumption, when Jerusalem will be made prominent, and Canana once again will be

an once again will be
THE GLORY OF ALL LANDS. THE GLORY OF ALL LANDS.

You ask how this consumption is to be brought about, and because you are not specially interested you doubt the matter, but neither your doubts nor any difficulties that you may suggest will stand in the way of God, who will bring his purposes to pass. What we must settle is: Is this going to take place? My text refers to the Jews. Are they ever to be collected together again? By studying the signs of the times we may forecast this great event—as they, indeed, indicate very clearly that that period of consumption is not far distant. Twenty years ago no one could have predicted the enthusiasm that now rages about Manitoba. Another example it that of the famous crusades that began in the tenth century, which lasted for 250 years—an enthusiasm that levelled all distinction between the king and his subjects; the prince tween the king and his subjects; the prince and the beggar: the rich and poor, and caused them to march together, generation after generation to fight the musulman and reclaim Palestine. Who started it? Peter,

eration to fight the second rate of the place of Kingstreed at the Grand of the complete of th she claimed Cyprus and the protectorate of Turkey for her trouble, but for a reward she will then claim possession of Palestine, and it will be given her. All this is revealed in the order of Providence. The Jews will govorn these conflicts, as they possess the sinews of war, because they hold four-fifths of the capital of Europe. Because the Jews are shrewd enough to take advantage of the Russian and German in money matters, they hunt them to death. When these countries discover that they have mortgaged body and soul to the Jewish race, they will concede to them national independence and the rights of sovereignty, and will be glad to let them go back to Palestine. At the same time they will hate them more and more. What a terrible punishment they are receiving in Russia, 100,000 people smitten unto death by violent outrages and devilish means: their women ravished; their houses burned; and themselves turned adrift like a lot of sheep or driven off at the point of the bayonet like

THE DEATH OF ANGUS M'DONALD

From the Winnipeg papers are learned particulars of the sad death of Mr. Angus McDonald, son of Hon. A. P. McDonald, well known in this city. Mr. MoDonald, through losses in real estate investments, took to driking and was finally arrested on the street and locked up in a miserable, howling building called a police station. Repeated efforts were made by his friends to bail him out, but the police refused to release him. He suffered terrible agony in the wretched hole. Finally an order was made by Dr. Kerr for his removal to the hospital. But the mandate that had he been properly treated in the first place, or had the chief of police used any ordinary intelligence, there is little doubt but h

AND IT MUST TAKE PLACE. We wonder that Russia, in this nineteenth century, permits this persecution that will alienate her from the secution that will alienate her from the christian nations of the earth, and yet no nation is entirely free from guilt on this point. Oh, the blood we have got to wipe out! we have robbed and despoiled them, and even a part of the crown jewels were stolen from them and never paid for.

The Jew began to suffer in Rome when that christianity that speaks good will and peace became a power. God forgive the christianity of the past! In Constantine's time the Jews were burned to death. A christianity of the past! In Constantine's time the Jews were burned to death. A council of bishops held in the fourth century forbade them to pray for a good harvest. Imagine 450 bishops, and I may say here that I would prefer a council of twenty men picked from the factory than one composed of twenty bishops. Some of the most terrible, and outgrapers desiries.

The other four guards formed a party of pursuit and then separated in different directions. One of the guards soon caught sight of the two fugitives dodging around the sheds of the exhibition grounds. He started after them, and struck the very shed in which they were secreted, but they slipped through a hole, and before he could get on them they were out of range and had taken to the Great Western track. However, before this a guard had gone up the track, and on turning round he saw the two fugitives approaching him. When they were within range the guard, whose name is Wheeler, "drew a bead on them" and commanded them to surrender or he would fire.
