

INTRODUCTION.

IN presenting this book before you, we do so believing it will prove of much value to you as a book of reference; also to bring before your notice a few household necessities, in the form of medicines, which are known to possess superior merit in curing and allieviating almost every pain to which human beings might fall heir to. **Griffiths' Menthol Liniment** is now recognized as a household necessity throughout Canada and the United States. Thousands of homes have proven its merit, and the very fact that its annual sales are more than double those of any other liniment ever introduced into Canada, argues well for its success in doing just what we claim it will do. Hundreds of constant martyrs to pain have received relief from using this wonderful liniment, after all else had proven worthless. Rheumatic patients rejoice in its discovery; mothers proclaim it a life-saver to their little ones when croup had them by the throat, and there has never been any remedy so highly praised as Griffiths' Menthol Liniment by those who have used it.

Many people imagine because it is a liniment its usefulness is confined to external application. We wish to take this opportunity of stating to you that Griffiths' Menthol Liniment contains less poison than any cough mixture made. It is entirely free from any poisonous substance of any kind, and may be given to the smallest child with perfect safety. Your doctor's bills will become much lighter when you become acquainted with Griffiths' Menthol Liniment. Internally it cures, *cures* mind you, coughs, colds, croup, whooping cough, sore throat, bronchitis, chills, cramps, pneumonia, etc. Externally it cures rheumatism, lumbago, sciatica, lame back, headache, neuralgia, toothache, swollen cords, stings and bites of insects, chilblains, stiff neck, sore throat, quinsy, scalds, burns, bruises, sprains, and pains, aches, soreness or inflammation anywhere. It is a complete medicine chest in itself, and does just we say it will do. You will always feel a sense of security in your house when you have Griffiths' Menthol Liniment handy. No other liniment, oil, or anything else is just as good. You can always depend on this one.

Druggists everywhere sell it, at 25 and 75 cents.
