 Street. The Subscribers are the only authorized

 Yonge Street, Toronto.

**CURTIS**—Allow no man to protect your  
 without first examining the points of his rods,  
 they have not the Platinum Wire in the points  
 are not genuine. The coating of them is of a  
 metal that never rusts, retaining its lustre  
 for years. The metal is soft and easily cut  
 knife, yet sufficiently hard not to melt under the  
 influence of electric fluids. Look out for rods  
 manufactured at St. George, C. W., they purport  
 Spratt's points and rods but are not. The points  
 made of steel, might be polished, but will become  
 with just after the first night's exposure to the  
 place, consequently rendering them useless.  
 Ask for the Agent's Certificate of right to sell.  
 sure to notice the stamp—SPRATT'S IMPROVED  
 POINT—this is on the points near the base.  
 Notice.—No Policy of Insurance covers
