### Reading Notes.

Students, teachers and physicians get Turkish baths at half price, at the Turkish Bath Institute in this city. Travellers say that nowhere in Europe can you get a better bath.

Medical men generally are now recommending the Turkish Bath for the general health, and more especially for rheumatism, coughs and colds. It is a very pleasant remedy.

Gentlemen have the early morning, afternoon and evening hours. The bath is conveniently situated, being on St. Monique at the foot of McGill College Avenue.

Paterson & Foster, 15 Phillips Square, would draw the attention of Medicos to their advertisement in this issue.

Their stock of instruments is very complete, and a visit will be interesting as well as profitable to intending purchasers.

Here is another flattering testimonial from a well-known musical connoisseur, Mr. G. Couture, choir master of St. Peter's Cathedral, musical director of the Philharmonic Society:—

MONTREAL, Dec. 15th, 1893.

L. E. N. Pratte, Esq., Montreal.

DEAR SIR:—

It is with real satisfaction as a friend and pride as a Canadian that I wish to congratulate you on the "Pratte Piano" of which I have lately become the possessor.

The care with which you have avoided the undesirable qualities found in other pianos, and the choice of the best materials combined with judicious improvements, makes your piano one of the most satisfactory and perfect instruments one could desire.

Allow me to congratulate you and at the same time express my admiration.

G. COUTURE.
