

WHY JEWS LIVE SO LONG.

The *New England Medical Monthly* comments very favourably on the proverbial long and healthful lives of the Jews. Dr. Picard holds that this superiority is due to their stringent health laws. The Mosaic, like the older Egyptian code, is very stringent regarding the eating of flesh and other articles of food. Of the animals examined, a large proportion are always condemned as unfit for food. People who eat meat indiscriminately are very prone to disorders of the blood and of the kidneys, for meat is composed of nitrogen, which the kidneys have to remove from the blood, and of course they cannot do this successfully except by the aid of Warner's safe cure, the best kidney strengthener, unless it is temperately partaken of and only the very best meat is used. Jews also use alcoholic liquors very sparingly, and thus keep up good digestion, and then again they are a holiday-loving and Sabbath-observing class.—*Housekeeper.*

Sparkles.

A LITTLE boy said he would rather have the earache than the toothache, because he wasn't compelled to have his ear pulled out.

A NEWSPAPER, describing the *debut* of a young orator, says that "he broke the ice felicitously with his opening sentence, and was almost immediately drowned with applause."

GENERAL JOHNSON, of Minneapolis, is quoted as authority for the story that a Minneapolis congregation left the church one Sunday because the minister took his text from St. Paul.

AN OBSTINATE CASE.—"In the spring of '83 I was nearly dead, as everybody around my neighbourhood knows. My trouble was caused by obstinate constipation. One bottle of Burdock Blood Bitters cured me entirely." This statement is made by Walter Stinson, of Gorrie, Ont.

"Is it possible, miss, that you do not know the names of your best friends?" "Possible? Why, of course, it is. I do not even know what my name may be a year or so hence."

A KANSAS man is sawing wood in the Navy Yard at Washington. Thus the unexpected happens. He went there for a post-office commission, and, up to date, can only say: "I came, I saw."

JAMES PYLE'S PEARLINE has become recognized as the best washing preparation ever invented. It has relieved wash-day of the old wear and tear, and cleanses the dirtiest fabric without injuring it.

WHEN a tramp sees a woman with a pistol or a gun in her hand, he goes right on without winking; but let her appear on the scene with a dipper of hot water, and he makes tracks like a kangaroo.

THE following incident happened in one of the public schools in a neighbouring city: Teacher: "Define the word excavate." Scholar: "It means to hollow out." Teacher: "Construct a sentence in which the word is properly used." Scholar: "The baby excavates when it gets hurt."

DIARRHOEA AND DYSENTERY are perhaps the most common of our every-day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

A PROFESSOR who got very angry at the interruption of a workingman while he was explaining the operation of a machine in a factory, strolled away in a huff, and asked another man: "Who is that fellow that pretends to know more than I do about that instrument?" "Oh! he is the man that invented it," was the answer.

"WHY don't you marry?" "Well, you see, I am very particular how my intended should be." "Explain yourself." "My wife must be rich, handsome and stupid." "Why all that?" "Very simple. She must be rich and handsome, otherwise I would not have her; and she must be stupid, otherwise she would not have me."

MANY SUFFER rather than take nauseous medicines. All who suffer from coughs, colds, irritation of the bronchial tubes or tendency to consumption, will find in *Dr. Wistar's Balsam of Wild Cherry* a remedy as agreeable to the palate as effectual in removing disease. The Balsam is a pleasant remedy; it is a safe remedy; it is a powerful remedy; it is a speedy remedy; it is a remedy that cures.

"I BEG your pardon, sir; but is not your name Smith?" "No, sir, my name is Montrose." "Excuse me, my mistake." "Certainly. Don't mention it. It's not very flattering to one's pride and self-respect," Mr. Montrose added, with a smile, "to be classed among the great plebeian army of Smiths; but such mistakes will occur. Er—will you favour me with your name, sir?" "Yes. My name is Smith."

Horsford's Acid Phosphate. For Wakefulness.

Dr. WM. P. CLOTHIER, Buffalo, N.Y., says: "I prescribed it for a Catholic priest, who was a hard student, for wakefulness, extreme nervousness, etc. He reports great benefit."

"MOTHER," said a little girl to her parent, who takes a great interest in charitable institutions, "I wish I was an orphan." "Why so, my dear?" "Because I should see more of you, for you are all the time going to the orphan asylum."

CONSUMPTION CURED.

But One Lung Left.

To use this gentleman's own words: "I contracted a cold while at school in 1877. A catarrhal cough set in; the cold gradually settled on my lungs, the catarrh ceased, and consumption started; my flesh was gradually reduced; my strength gradually but rapidly left me; my cough and expectoration became severe and profuse, and I was a physical wreck. Being close to Toronto I consulted the best skill in the city, but received no encouragement, and had given up all hope. A personal friend of mine, Mr. Aiton, and former patient of Dr. McCully's, induced me to apply to the Doctor, and the result is I am still alive. I have lost one lung, but I still have one good one. I am now strong, fleshy and well; in fact, I am now heavier than ever before in my life. Can consumption be cured? My answer is emphatically yes! My present address is Highland Creek. Yours, etc., "WILLIAM HENRY."

*The Medical and Surgical Association
of Canada and the Ontario Pul-
monary and Electric
Institute*

Now offer the public a series of cases we have cured. Everyone of these cases has gone through from one to one dozen medical men's hands without cure or benefit, and yet these men sneer at us and call us advertising quacks. One of them in this city gets more cheap advertising than any man in Ontario; he is likewise fed on taxes we pay to boot and considers it a privilege to call us quacks. By careful study of disease, and skill in the application of medicine, these cases were cured, and are now landmarks in life of our ability, and at the same time monuments of the ignorance of the average doctor in chronic disease. Our Medical Brethren have been generous enough to shout: "Down with these quacks!" and the Legislature has been twice asked to make a law to prevent us from using printer's ink, and why? Because they would rather have death in chronic disease score the innings than the Medical and Surgical Association.

When we took those cases they were dying! They are now well! Who needs protection, the medical profession, or the dying people whose lives can be saved? But the dignity of the medical profession is being brought into contempt! Never mind the lives of the people! Happy profession! Unhappy people!

We treat and cure all Chronic Diseases and all Deformities arising from Habit, Inheritance, or Accident.
