Which have you an eye to, quantity or quality, when you buy something to make washing easy? If it's quality, you want Pearl-line (use with-out soap). In effectiveness, in economy, and above all in its absolute harmlessness, no matter how or where you use it there's nothing to compare with this, the first and only washing-compound What difference does the quantity make, after all?

If you spend five cents or ten cents or a dollar for an aid to washing, don't you want the thing that will give you the most work, the best work, and the most certain safety for that amount of money? That thing is Pearl-line (use with-out soap).
