

TO OUR PATRONS.

The publisher of this Periodical, respectfully informs his subscribers, that the March number, was withheld, not from neglect, but from unavoidable causes. The scarcity of hands, removing offices, and many other reasons, rendered it absolutely impracticable for him to bring the March number forward. He now assures his subscribers, that they will, in future, have the work regularly every month, and although they may have been a little disappointed, he will strive to conciliate them by rigid punctuality.
