

- Ochthebius nitidus*. *Sperchopsis tessellatus*. *Clambus puberulus*.
Adranes lecontei, four specimens taken in a nest of yellow ants, May 11th.
Ceophyllus monilis, taken in nests of yellow ants from 25th April to middle of May. *Pselaphus erichsonii*. *Tychus longipalpus*.
Batrissus nigricans, *B. globosus*, taken with other sp. of *Pselaphidae* under leaves in the swamp. April.
Homalota lividipennis, *Alcochara nitida*, *A. lata*, *A. rubrifennis*, *Tachyporus*, *brunneus*, *Bryoporus rufescens*, *Mycetoporus americanus*, *Acylophorus pronus*, *Euryphorus puncticollis*, *Philonthus sparsus*, *P. micans*, *P. sobrinus*, *P. terminalis*, *P. paederoides*, *Diochus Schaumii*, *Lathrobium puncticolle*, *L. rufulum*, *Scopacus exiguus*, *Stenus stygicus*, *S. flavicoruis*, *S. annularis*, *S. arculus*, *Lathrimacum sordidum*, *Prognatha punctata*.
Paromalus seminumulum. *Bæocera apicalis*.
Limulodes paradoxus. A specimen of this curious little *Trichopterygidae* occurred in the before-mentioned nest of yellow ants with *Adranes* and *Ceophyllus*, making two blind species found in the same nest.
Prometopia sexmaculata, *Trogosita marginata*, *Sylvanus advena*, *Antherophagus convexulus*.
Cryptophagus cellaris. Taken in a nest of Humble bees.
Corticaria rugulosa *C. picta*, *Psephenus lecontei*, a specimen bred from a larva taken in the creek at Grimsby.
Canthon nigricornis, a dead specimen found on the lake shore June 29th.
Cremastochilus Harrisii, also taken on the lake shore.
Agrilus cephalicus, *A. egenus*, *Cardiophorus cardisce*, *Athous discaleratus*.

J. PETTIT.

BOOK NOTICE.—We have just received the first number of a new work on "Indigenous and Exotic Lepidoptera," (*Rhopaloceres, Heteroceres*), by Mr. Herman Strecker, of Reading, Pa., U.S. The work is well got up in quarto edition, with colored illustrations by Mr. Strecker himself. It is to be published monthly at 50 cents a number, and we recommend it to the careful attention of our entomologists. We shall refer again to this book in our next issue.

ADVERTISEMENTS.

EXOTIC LEPIDOPTERA AND COLEOPTERA.—I have a large collection of specimens of *Lepidoptera* and *Coleoptera* from Australia, Manilla, Mexico, and Central America, which I am now arranging for the purpose of sale, as I intend confining myself to Californian insects for the future. I will not exclude from the offered sale my numerous Californian specimens. I
