LEGS AND ARMS

WITH RUBBER HANDS AND FEET.

(MARKS' PATENTS.)

The Rubber Hand and Foot possess the most natural appearance, the greatest durability and comfort of all artificial limbs. Vast numbers of mutilated men and women are, by the use of rubber feet and hands, enabled to mingle with the rest of the world without betraying their loss.

November 1, 1887.

MR. A. A. MARKS:

Dear Sir,—I wish to say through your pamphlet, to all whom it may concern, this is to certify that I have had constantly in use two of Mr. A. A. Marks' patent artificial limbs since 1878, and I am glad to state they have come up to my greatest expectations on account of their simplicity of construction and great strength. The patent rubber feet give elasticity and naturalness of movement that can not be had in other kinds. I am in the oyster business, and have not lost any time on account of wearing two artificial limbs. I cheerfully recommend them to all requiring artificial substitutes as the best, as they are the safest and most natural, of any there is made, so far as my knowledge extends. During my nine years of experience on artificial limbs I have worked hard seven years at the oyster business, doing the raking myself.

Yours respectfully,

ALBERT W. MILLS,
