

# Patent Celluloid Photo Frames

We beg to notify the trade that we have secured the Canadian patent (1891) for Celluloid Photo Frames as shewn in the accompanying diagram, and that we shall enforce our rights under the patent laws.

Cheap infringements of these goods have been made from inferior materials, and sold at prices which would not permit of proper workmanship. We intend to make only first quality goods and to sell them at uniform prices, and would ask the trade to assist us in our efforts.

These frames are made in a variety of shades of Celluloid, and make a display unequalled by any similar goods ever shewn in Canada.

Have you received our Spring Circular? If not, write for one.
