Drawbacks still remain, but nothing can contribute more to their being overcome than the abundance, cheapness and high grade oi our crops, which, combined, give us ample assurances of an outward movement that sooner or later will do much to stimulate trade and furnish traffic for the railroads. WEEKLY REVIEW-WHOLESALE PRICES.

A general glance at the city wholesale markets before reviewing them in detail leads at once to the announcement that trule has continued moderate with no perceptible increase or diminution, but with no indications of any improvement this fall, except, perhaps, a slight augmentation of the produce exports for about the space of a fortnight. Though values are low the distinguishing trait of buyers continues to be limited orders and keen discrimination in the selection of goods. Remittances have, in most instances, exceeded expectations and the 4th turned out much better than the majority thought it would, still there is an undefined feeling of uncertainty about the future, and unpleasant developments will, we fear, occur during the winter. The cotton industry has been resolving itself into better shape, and the Storment mill at Cornwall will resume operations. The production of all the mills was so reduced that we can reasonably look for the apringing up of a fresh demand, and no one will be greatly surprised to hear of more resumptions of work at partly idle factories. For ers are insufficiently supplied with life-saving apparatus.

Mr. Taschereau's (conservative) majority is mand for four months to come. There is one important feature in the trade, however, and that is that the mills are now the holders of surplus stock and not the members of the dry The British Ministry has abandoned the Australian federation bill in consequence of the opposition displayed by the assembly of weather keeps mild for the season and the winter trade is likely to be delayed, which is a matter of great importance as far as the woollen and clothing trade is concerned. Money is, however, abundant at the banks and accommodation is readily secured by sound house. The American speculative markets have not shown their customary acreprisals unless outrages committed on Jews, | tivity this week either at New York or Chicago, as the elections are engrossing the attention of everybody. The grain markets yesterday displayed a firmer tone, while stocks were irregular.

GROCERIES.-There has been a further advance of ic per lb. in granulated on the part of retiners, but buyers have not responded very freely. Granulated is now firmly held at 64c to 65c, and bids of 65c for several round lots were refused to-day. Demand, while not active, is fair, and a steady regular trade is passing. Yellows are also firmer, ranging from 43cup to 54c for exceptionally fine lots. The world's exposition at New Orleans is The movement of syrup has been less active and the market steady at 30s to 500 per gallon as to quality. Molasses has a slightly stiffer tone, without any actual addition to cost. The sale of 390 puncheous Porto Rico is reported at 26c. Barbadoes is held more firmly without much business. We quote:

—Barbadoes, 32e to 33le; Porto Rico and
Trinidad, 26e to 27e; Cienfuegos, Cubs,
and sugar house nominally 25c.
Tea and Collec.—The views of holders of tea remain quite steady if not firm, but the demand still exhibits more or less reluctance, and confines itself to small lots. There has been a moderate movement in English teas at from fid to Is 5d as to quality. Advices from Japan are firm. The feature in the coffee market is the good demand for low grades, valued at 10c to 11c, of which there are none here. Otherwise the market is quiet. There here. Otherwise the market is quiet. There is no Jamaica under 13c. We quote—Mocha, 22c to 26½c; Java, 18c to 22c, and Jamaica, 14c to 18c. FRUIT.—A good enquiry exists for Valencia raisins, of which offerings are light, and

the market very firm at 72e to 8c. We hear of sales of several thousand boxes at 73c. The Dracona has only about 12,000 boxes for Mont real, from which it would seem that the supply is going to be very limited. There is no Malaga fruit offering of any consequence. A private cable from Malaga quotes the market there stronger at an advance owing to the deficient crop. Sultanas are plentilul and almost unsaleable. We quote 7c to 9c. Currants have been in good request and easier at 6c to 6cc. Prunes remain unchanged. Turkish figs are in full supply at 10c to 12½ for ordinary qualities. Malaga figs are quoted at 6c. Filberts and almonds have been in demand, and are firmly held. Sales of Levant Belleville, Nov. 2.—A few days ago the suspicious departure was reported of Robert Yarwood, teller, and Walter Scott, book.

Tarragonas at 14c to 15c. Walnuts are dull round lots. Ivica almonds are at 13c and Tarragonas at 14c to 15c. Walnuts are dull at 65c for common French and 115c for Grenoble. Spices and Rice—The distribution of spices has been of a more active character stolen large sums of money from the bank, aggregating probably \$10.

One of spices has been of a more active character at steady prices, some dealers having had a steady prices, some dealers have been placed at 12½ for common cloves, 5½ to 66 for piexcitement in the city over the affair, and the bank has put detectives an the trail of the two youthful absconders. CANNED GOODS .- The market for caunod goods has ruled quiet and without feature. Lobsters continue firm at \$5.75 to 6 per case of four dozen, the supply being limited. Mackerel are unchanged at \$4.25 to 4.50 per case. Sardines have advanced to \$11.25 per Salmon is quoted at \$1.40 to 1.50, and C880. finnan haddies at \$1.55 per dozen. Tomatoes have been in fair request at \$1 to 1.10, the sales including a lot of 50 cases. Peaches are quoted at \$2.80 to 3 per dozen. Canned meats are quiet and unchanged. Corned beef in 2-lb tins sells at \$3.50 per dozen; roast beef in 2.lb tins at \$4.25 to 4.50 per dozen; dried beef in 1 lb tins at \$2.80 per dozen; and lunch tongues in 2 lb tins at \$6.60 per dozen.

Oils.—The general market has been mod-

erately active, with but few specific changes. Advices from Newfoundland report an advance in cod oil, which has served to stiffen this market a little. Sales of 150 brls. were made at 56c to 57c, but we quote the market firm at 57c to 60c. Linseed oil has developed a weaker feeling due to larger arrivals for which there is not so much demand as was expected. Prices are lower at 57c to 58c for raw, and 60c to 61c for boiled. Steam refined seal is quiet at 60c to 621c; pale at 55c to 57c, and straw at 52jc to 55c. Cod liver oil is quoted at \$1.25 to \$1.30, and olive oil at 95c to \$1. Petroleum—The late advance in prices has been firmly sustained, and it is thought that refiners are about to establish a still higher range. The demand for oils has been fairly active, a good business being done at firm prices. We quote:—Car lots, 171c; broken lots, 171c, and single bar-

rela 18c to 18kc. Fors.-A few skunk are coming in, but show poor quality. A good inquiry exists for beaver, bear and otter. Advices from London and Leipzic state that large stocks are carried at these centers and that the outlook is not very favourable. We quote :-Beaver, per lb., \$3; bear, per skin, \$3 to 10; bear cub, per skin, \$4 to 7; fisher, per skin, \$4 to 6; red fox, per skin, \$1; cross fox, per skin, \$2 to 5; lynx, per skin, \$2 to 3; marten, per skin, 90c to \$1; mink per skin, 75c to \$1; muskrat, per skin, 8c to 10c; otter, per skin, \$8 to \$10; raccoon, per skin, 50c; skunk, per

skin, 50c. LEATHER-BOOTS AND SHOES .- Stocks of sole leather on hand, while not excessive, are ample, and afford room for a good selection. Choice lots of selected Spanish B B command 27c. In black leather trade has been quiet. Receipts are light with nothing left over to add to stocks, which are well in hand. There is a fair movement on export account. Some scarcity of light and light medium splits is to be noted. Long grained upper is quoted a shade lower. Otherwise prices are unchanged. Boots and Shoes.—The manufacture of boots and shoes progresses with a fair degree of spirit for the season. The direct trade with jobbers is good, and the tone of business is generally described as healthy, a moderate number of fresh orders being received. In the matter of payments few complaints are

HIDES .- Tanners are careful operators, but as stocks are light prices are well maintained. Small lots only have been dealt in. We quote: -No. 1 Toronto, 95c to 92c; No. 2, 9c; No. 1 Hamilton, 94c to 94c; No. 2, 84c; Western buff hides 9%c for No. 1, and Sc to 84c for No. 2. Dry hides are unchanged; No. 1, 16c; No. 2, 14c, and dry flints at, No. 1, 17c; No. 2, 13c. Green butchers' hides remain steady at Sic 71c and 61c for Nos. 1, 2 and 3 respectively. Lambskins are

Wook -- General business of late has been of light volume and the market virtually as before. A few lots of native pulled have been placed, but the movement has not reached arge proportions. Prices are steady:-A supers, 27c to 28c; B, 21c to 23c; and unassorted, 21c to 23c. Foreign stock has been inactive at 16c to 17 c tor Cape, and 19c to 30c for Australian.

FISH .-- Receipts have been fair, but do not move off very rapidly, demand being only moderate. Prices as a general thing are steady. Labrador herrings are held steadily at \$6.50 for No. 1, and Cape Breton have been dealt in at \$5.37½ to 5.50. Mackerel are quoted at 4.00 to 6.00 per brl. There has been a fair movement in green cod, a lot of 150 brls, No. 1 selling at 550. Dry cod is quoted at 4 25 to 4 50. Salmon continue dull and slow of sale; British Columbia at 13 00 and North Shore at \$13 00, 12 00 and 11 00 for Nos 1, 2 and 3 respectively. Trout are in moderate supply at 4 373 to 4 50 per

CHEMICALS AND DRUGS .-- Most lines of beavy chemicals have had a moderate demand at about former prices, but as a whole the market is quiet, nearly all the goods being offered ex store. Private cables announce the continuation of the combination of bleaching powder manufacturers, formed last year, to restrict production to a point where prices will show some profit. The agreement is continued for a year from January 1 next. Consequently the market is firm and a shade higher here. Other kinds have been in moderate jobbing request at steady prices. We quote existore: Bleaching powder, \$2.35 to 2.45; bicarb soda, \$2.35 to 2.50; sal soda, \$1.05 to 1.15; caustic soda, \$2.25 to 2.35; soda ash, \$1.50 to 1.60; alum, \$1.75 to 1.85; sulphate of copper, \$4.75 to 5.00 for American and \$5.50 to 5.75 for English. Drugs—Trade in general drugs has been fairly active, and as far as the volume is concerned there is no room for complaint. The demand from the country is good, and dealers have enough to do in getting out orders. Private cables from Marseilles report a strong market for tartaric acid and cream of tartar, with a decided upward tendency on prices. In this market prices have made an advance, and are now quoted at 52c to 60c per lb. for tartaric acid, and 31c to 35c for cream of tartar. There has been a fair movement in quinine at \$1.25 to 1.75 for Howard's, and \$1.10 to 1.20 for German in bulk. Opium is at \$4.25 to 4.50; morphia at \$2.20 to 2.30; and iodide potns. at \$1.75 to 1.80. The only unsatisfactory point in the market is that payments are indifferent and rather poorly

COAL .- The coal trade has remained unchanged in every respect. The movement of anthracite has continued fair at prices which are low for the season. We quote—\$6 for stove and chestnut and \$5 75 for egg and fur-

and oakum at 6c to 10c as to quality.

OITY BREADSTUFFS. DAIRY PRO-DUCE AND PROVISIONS.

Ocean freights continue too high to suit exporters, but the market has a declining tendency as a number of steamers are due in the next two weeks, which will not get much grain at 3s 3d to Liverpool, the figure which is now asked. Very little stuff is coming this way, but there is some in store which would be shipped if a reasonable freight rate could be obtained. We quote— Canada red winter wheat, 83c to 84c; white winter, 83c to 84c; Canada spring, 83c to 84c; peas, 73c to 74c; oats, 31c to 32c; rye, 63c to 65c, and barley, 55c to 65c. Flour.— Spring extra and grades below are in light supply. Two cars of superior sold at \$4.05, and a lot of extra at \$3.90. Spring extra and fancy are held at \$3.80, and superfine at \$3.50. On A lot of the latter brought \$3.45. 'Change 100 brls medium bakers' sold at \$4. Butter.—In the townships fancy selections for the American market are being picked up considerably above our quotations, but there is nothing doing here. Western is quiet, with selections quotable at 174c. The accumulation of medium butter is becoming serious, as there is no outlet. Creamery, good to choice, 24c to 261c; Townships, choice, 22c to 221c; do, fair to good, 18c to 21c; Morrisburg, 16c to 214c; Brockville, 16c to 21c; Western, 14c to 174c. Cheese.

The cheese market has a lifeless tone, and scarcely anything was done in the way of fresh business. So far as can be judged, no immediate change is anticipated. We quote fine to finest September and October 114c to 112c, and earlier makes 9c to 101c. Provisions—Mess pork, western, per brl., \$18.00 to \$18.75; hams, city cured, per lb, 14c to 14½c; lard, western, in pails, per lb, 10½c to 11c; lard, Canadian, in pails, 10½c to 10½c; bacon, per lb, 13c to 14c; shoulders, 10 to 11c; tallow, common refined, per lb, 7c to 8c. Ashes—Further weakness hus appeared in the market for pots, which has re sulted in another decline. There was little demand, and prices declined to \$4 to 4.15 per hundred lbs as to tares. A lot of seconds sold at \$3.45. Pearls are nominal at \$5 Eggs -There was no stir in the trade, but denand was well up to the supply, which was light, the market being steady at 20c to 22c per dozen as to quality.

### MONTREAL CATTLE MARKET.

Cattle freights are unchanged and quotable at 60s to 65s, but there is very little room to be engaged. The receipts of live stock at Point St. Charles since Thursday were 90 cars; of which 39 cars were export cattle, 9 cars sheep, 29 cars local stock, and 13 cars hogs. The export cattle trade has been dull and without new feature, no sales being reported. Prices are quoted nominally at 41c to 51c per lb. live weight. Sheep for export were also quiet at 35c to 4c per lb. live weight. Receipts of hogs have been heavy and prices was a ready sale at firm prices, but about 300 head of common remained unsold at noon. Prices of fair to choice grades ranged from 34c to 44c per lb., live weight. Commoner grades ranged from 2c to 3c. About 1,100 sheep and lambs were offered, for which there was a fair demand. Lambs sold at \$2 to \$3.75 each, and sheep at \$2.50 to \$4.50 each, as to quality.

## COMMERCIAL NOTES.

Sugar has advanced an eighth of a cent per pound.

The British cattle markets are cabled one cent. per pound higher. Sheep show a like advance. Export cattle yesterday were inactive.

There were unusually large offerings to the local trade. Hogs have sharply declined. The cattle exports to date this season are the largest in the history of the trade. Sheep

on the contrary show a marked falling off. It is intended that the following steamers carrying live stock will sail from Montreal during the week ending November 8th; Avalona, Corean and Lake Manitoba.

The horse trade of the past week has been dull and featureless. Offerings, however, have been larger, but few sales have resulted. Good working and driving animals are not very plentiful.

The market for cordwood has been fairly active and steady at unchanged prizes, which are us follows for good long wood, delivered ex yard :- Maple, \$7.00; birch, 6.50; beech, 6.00; tamarac, 5.50, and soft wood 5.00.
