OTTAWA LETTER. Amended Interest Act Passed by the

Senal -Other Features of Legislation.

When Sir Oliver Mowst introduced his bill regarding the limitation of rates of interest to be charged, there was a great many objections offered from many quarters, and in consequence when the measure was under consideration by the committee of the Senate, Sir Oliver Mowat said instead of making the rate of interest eight per cent., he would move that in all cases where the rate of interest was calculated by any period less than a year, not more than six per cent. per annum should be legal, unless the annual equivalent rate be stated on the face of the document.

Sir Oliver Mowat's bill respecting interest, originally read : Whereas, on the part of some lenders of money, a practice has obtained of charging exorbitant rates of interest to needy or ignorant borrow rs, sometimes as much as five per cent. per diem, or at the rate of 1 825 per cent. per annum ; and, whereas, it is desirable that the protection of the law should be extended to necessitous borrowers; Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

THE BILL AS AMENDED.

1. This act may be cited as the Interest Act, 1897.

2. Notwithstanding the provisions of chapter one hundred and twenty-seven of the Revised Statutes of Canada, the rate of interest reserved or payable on bonds, promissory notes, bills and con tracts of every kind shall not exceed eight per cent. per annum, and no promise or agreement to pay a higher rate of interest shall be valid.

3. If an action hereafter brought on a bond, promissory note, bill or contract of any kind it appears that payments have been made thereon on account of interest in excess of eight per cent. per annum, the judge may in his discretion treat such excessive payments or any part thereof as payments on account of principal and render judgment accord-

ingly. 4. This act applies to instruments and agreements heretofore as well as herealter executed or made, but the second section shall not apply to any payment made before the passing of this Act.

The following is the text of Sir Oliver Mowat's Act to regulate interest as amended: Clause 1. This Act may be cited as the

Act respecting Interest, 1897. Clause 2. Whenever any interest is,

by the terms of any contract, whether under seal or not, made payable at a rate of percentage per day, week, month or at any rate or percentage for any period less than a year, no interest exceeding the rate or percentage of six per cent. per annum shall be chargeable, payable or recoverable on any part of the principal money unless the contract contains a statement showing truly the per annum rate or percentage of interest to which such other rate or percentage is ~equivalent

Clause 3. If any sum is paid on ac-count of any interest not chargeable, count of any interest not chargeable, payable or recoverable under the last G. G. F. G. and 43rd battalion and \$75 preceding section, such sum may be recovered back or deducted from any principal or interest payable under such in- \$850 for music. terest.

THE PAPAL DELEGATE.

Mgr. Merry del Val left for St. Boniface, Man., on Thursday. He was accompanied by his private secretary, the Rev. Father Tampierri, and valet. A private car was sent from Montreal by the O.P.R. to convey him on his journey across the continent. It is said that he will remain in Manitoba until June 20, and then return here, after which he will proceed to Rome. During his visit to the North West his time will be entirely spent in completing his mission, as he has already had to refuse several invitations to be present at various places, among the number one from Prince Albert asking him to witness, on June 17, the consecration of the new coadjutor bishop of that place.

THE PILOT'S BILL.

The Private Bills' Committee had the Pilots' bill before it last week. The bill was passed after being amended. The clauses making collectors of customs collectors of pilotage fees, and prohibiting the granting of clearance papers unless the fees have been paid, were strenuously opposed and were struck out. The customs officers, however, can act if they see fit. The clause exempting the corporation from responsibility for damages arising from the action of a pilot or his neglect was opposed by Mr. Penny and Mr. Henry Allan on behalf of the ship own rs, but it was finally passed. All the clauses of the bill which can be covered by by-laws of the corporation were struck out. The power to appoint pilots exclusively by the corporation was struck out. The corporation will have merely the power to admit pilots and apprentice pilots within the pilotage district of Montreal. This would mean that the Harbor Commissioners will still have power to make appointments.

The special committee appointed to arrange the programme of festivities for the Jubilee celebration held a meeting last week and drafted the following programme. Sheriff Sweetland occupied the chair.

8 a.m. ringing of bells.

S.15 a.m., procession of the St. Jean Baptiste society in which all citizens are to be requested to participate. 10 a.m., school children's parade and

Everything will be free to the public with the exception of the lacrosse match

in the afternoon. The money to carry out the celebration is voted from public funds and it is

intended to make it a citizens demonstration in every respect. The cost will amount to \$5000, of which \$2000 has already been voted by the City Council. It is proposed in connection with the

musicale at the park to have a chorus of one hundred voices to render special patriotic music. An appropriation of \$100 will be recommended so that it can be arranged for without trouble. All the bands in the city will be engaged and will be stationed in different parts of the park.

10 00 The election of a Mayor for Greater New York is awakening a great deal of 10 00 enthusiasm and criticism in the differ-10 00 ent political organizations. The Young Democracy of the Greater New York vide for the safety and comfort of the 5 00 held another meeting at Grenada Hall, in Myrtleavenue, Brooklyn, on Thursday. 00 said that, unfortunately, a majority of the people voted last fall for no prosperity 5 00 The Chicago platform really meant prosperity. Mr. Mehols said now that a victory was certain in the election of a Mayor for the Greater New York the men who had repudiated the Chicago platform wanted to lead the Democracy. "But," said Mr. Nichols, "our great leader has said "there shall be no com-

"William C. Whitney and Roswell P. Flower are now opposing us and trying 25 00 to prevent the Democratic party from sustaining its own platform adopted at 5 00 Chicago. It seems to me to be a piece of sublime impertinence," said Mr. 10 00 2 00 Nichols. 500

Alfred J. Wolf said the labor organizations had studied the Chicago platform, and were now with the true Democracy The platform adopted at Chicago was the first Democratic platform ever adopted by a Democratic Convention. The silver issue of 16 to 1 was the first club that he had ever received to beat out the brains of monopoly and special privileges.

"The man to be elected Mayor must be a Democrat," said Mr. Wolf, " and he must be elected on the same platform promulgated at Chicago. We are going to win, the people know it. *_*

IRISH CATHOLIC PILGRIMAGE To St. Anne de Beaupre and

Cap Madeleine.

Under the Direction of the Red, mptorist Fathers of St. Ann's, Saturday, July 10th.

The annual prilgrimage of the ladies and children of St. Ann's parish to St. Anne de Beaupre will take place on Saturday, July 10th, under the direction of the Rev. Father Strube, C.SS R., and and several other priests of the parish. For a period of fifteen years it has been customary for the parishioners of St. Ann's to visit the great shrine. This year the pilgrims will have the opportunity of also stopping for a short time at the well known shrine of Our Lady of the Holy Rosary at Cap Madeleine. This is an opportunity which the ladies should take advantage of, as the Rev. Father Strubbe is well-known throughout Montreal as one of the most successful in conducting such undertakings. Every precaution is taken to propilgrims. A pilgrimage for men only will be held three weeks later. The Frank A. Milmoe presided. Hy. Nichols price of the tickets, \$2.10 for adults and side that unfortunately a majority of \$1 0 for children, places the trip within the reach of all. Tickets and staterooms can be secured at the St. Ann's presbytery. Those intending to avail them selves of the trip should lose no time in making their arrangements, as the staterooms are usually disposed of very quickly. Further particulars in regard to He apparently recovered from the the matter will be found in the advertising golumps of this issue.

FIRST COMMUNION AT LOYOLA COLLEGE.

Thursday last, Loyola College, corner of St. Catherine and Bleury streets, was the scone of one of the most impressive ceremonics yet witnessed within its walls, when twenty young students received Holy Communion for the first time.

Shortly before eight o'clock the pretty chapel of the College began to fill with worshippers anxious to assist at the Mass, which was celebrated by His Lordship Bishop Macdonnell of Alexandris who afterwards administered the Sacrament of Confirmation to the young

Finally the flames became so threatening that fifty trusty convicts were re-leased to assist the officers. The men performed theirduty heroically and the fire was put out after damage of about \$8,000 had been done.

SWALLOWED A LARGE HAT FIN.

Sister Mary Corcoran, one of the teachers at the Gesu parochial schools,

Milwaukee, died last week as the result of an operation. Sister Mary was 22 years of age. Her

home was at Escanaba, Mich. About five weeks ago Sister Mary was assisting another sister at the convent in putting on her veil, and while so doing she swallowed a large hat pin which she held in her mouth. The pin became lodged in her lung. The physicians who were summoned to attend her decided that an operation was necessary. The X ray was applied to the patient with the hope of locating the pin, but the physicians were unable to do so without an operation, which was performed. The shock of the operation proved fatal. -Standard and Times.

A PECULIAR CASE.

Lieutenant A. P. Haring, a well-known business man of New York, who lives in Montclair, N.J., has just undergone a successful surgical operation, made necessary by a peculiar wound received by him while he was serving in the 132d Regiment, New York Infantry, in an engagement near Kinston, N.C., on March 8, 1865. A shot from a Confederate sharpshooter struck him in the left cheek, knocking out five teeth and fracturing his ja ... oon e.

wound except that he afterward suffered from numbress of the tongue. A few days ago Dr. J. J. H. Love, of Montelair, discovered a hard substance imbedded beneath the skin of the right side of the tongue. On removing the substance it waz found to be a part of a tooth which had been forced into the tongue at the time the wound was inflicted, and had since worked its way through the tongue to the opposite side .- N. CANADIAN FISHERIES.

The annual report of the Dominion Minister of Fisheries for the year 1896 has just been issued While the salt water inshore area, not including minor indentations, covers more than 1,500 aquare miles, the fresh-water area of that part of the great lakes belonging to Canada is computed at 72,700 square miles, not including the numerous lakes of Manitoba and the territories, all stocked with excellent species of food fish. For the year the value of the Canadian fisheries is computed at \$20,-199,338, a decrease of more than half a million dollars as compared with the preceding year. With the exception of British Columbia, showing a surplus of nearly half a million dollars, and New Brunswick, which shows a slight increase, all the other Provinces of the Dominion have yielded less than last year. This does not include the fish consumed by the Indian population of British Columbia and the Northwest ferritories, estimated at more than \$2,000,000 worth. Between the years 1889 and 1895 the five principal commercial fisheries have yielded as fol-LOWN:
