

Also with the aim of facilitating further consideration of the issues involved one delegation submitted the following material related to parts VII - IX above for equal consideration in conjunction with them

Section VII, paragraph 1, the second paragraph should also include the following equipment in the inter alia equipment: "Temporary and permanent monitoring equipment and seals for emplacement, and equipment for discovering and preserving information".

Section VII, paragraph 3, should also include the following: "Equipment and supplies shall be examined by the in-country escort in the presence of the inspection team members to ascertain to the satisfaction of the inspected party that the equipment and supplies cannot perform functions irrelevant to the inspection requirements of the Convention. If it is established upon examination that the equipment or supplies are unconnected with these inspection requirements, then they shall not be cleared for use and shall be impounded at the point of entry until the departure of the inspection team from the country where the inspection is conducted. Storage of the inspection team's equipment and supplies at the point of entry shall be in tamper-indicating containers provided by the inspection team within a secure facility provided by the inspected party. Access to each secure facility shall be controlled by a 'dual key' system requiring the presence of both the inspected party and representative of the inspection team to gain access to the equipment and supplies. The Technical Secretariat may allow a State Party to maintain equipment storage, as described here, in lieu of bringing it in for each inspection."

Section VII, paragraph 6 should be more specific regarding what a State Party shall be responsible for providing for monitoring systems. Language suggested follows:

"In support of the establishment of continuous monitoring systems for routine verification activities, the inspected State Party shall, at the request of and at the expense of the Technical Secretariat, provide the following:

- (1) All necessary utilities for the construction and operation of the monitoring systems, such as electrical power and heating;
- (2) Basic construction materials;
- (3) Any site preparation necessary to accommodate the installation of continuously operating systems for monitoring;
- (4) Transportation for necessary installation tools, materials and equipment from the entry point to the inspection site."

An additional paragraph should be added after paragraph 6, which states that:

"Seals placed by Inspectors on facilities and monitoring devices shall only be removed in the presence of Inspectors except in extraordinary
