

## KAMLOOPS B. C.

Canadian Pacific Railway and the Canadian Northern Railway, two great transcontinental lines, and prospects of a branch of the C.N.R. to the Okanagan District, the City is bound to grow. Another possibility before long is a short line to Clinton, about

60 miles north - west of the City, where connection would be made with the P. G. & E. Line and thus with the Grand Trunk Pacific Railway.

The building of the C. N. R.'s new branch line, which is already surveyed to Merritt,

Municipal Electric Plant

would, with a short link of 20 miles, give connection with the Great Northern Railway, making another and shorter line from Kamloops to Seattle.

### Agriculture

The district is one of the finest in the Province for general farming. British Columbia cannot vie with the Prairie Provinces as a great granary, but the finest quality of grain of all kinds can be grown here, not in enormous quantities as on the prairie, but most advantageously for feed-
