

but the opening of what we sincerely trust will be a fresh era of peace and goodwill between all the nations of the world."

Monuments along International Boundary

In addition to the foregoing, at a sub-committee meeting held between the delegations representing the United States and Canada for the purpose of taking up the matter of appropriate marking of the international boundary in commemoration of the First Hundred Years of Peace between the two nations, it was decided that suggestions be made to the organizations of the United States and Canada as follows:—

That they urge upon their respective governments:

(a) The erection of arches at the points where the proposed highways—Quebec and Miami in the east and Los Angeles to Vancouver in the west—cross the international boundary.

(b) The erection of shafts at a few historical and prominent points upon or on each side of the boundary (which, in the latter case should be erected in the immediate vicinity of the boundary) at points to be selected hereafter. This might properly include water-gates on opposite sides of the Detroit River, near the City of Detroit.

(c) That such arches and shafts be briefly and suitably inscribed.

It was further felt that these outward and visible signs of the spirit of the occasion should not be restricted to the international boundary, but should also find a place in the great centres of population, often far distant therefrom, thus carrying the message of mutual goodwill to the mass of both peoples.

It was urged before the Sub-committee that an enduring monument in the shape of a memorial bridge be built across the Niagara River. This and other like projects appealed quite strongly to the Sub-committee; but it felt that, as these would involve very large expenditures on the part of the government of both countries, they might very properly be allowed to stand for further consideration until the respective committees shall have had greater opportunity to look more closely into these larger projects in accordance with the following resolution:—
